Trademark Assignment

This Trademark Assignment is effective as of October 31, 2019 at 1:00am Pacific Daylight Time ("Effective Date"), between Dako Denmark ApS, an entity organized and existing under the laws of Denmark ("Assignor"), and Agilent Technologies, Inc., a Delaware corporation having a principal place of business at 5301 Stevens Creek Blvd, Santa Clara, California 95051, United States ("Assignee").

WHEREAS, pursuant to the Intangible Asset Transfer and License Agreement dated as of October 31, 2019 between Assignor and Assignee (the "Asset Transfer Agreement"), Assignor agreed to assign or cause to be assigned to Assignee all of Assignor's rights, title and interest in and to Assignor's registered and unregistered trademarks, trade names, trade dress and other designations of origin and quality.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, it is hereby agreed by and between the parties as follows:

1. Assignor hereby grants, conveys and assigns to Assignee, on a worldwide basis, all rights, title, and interest in and to Assignor's trademarks listed in Schedule A hereto (including trademarks that are registered and those that are the subject of pending applications), together with all goodwill associated therewith, and in and to all other trademarks, service marks, common law marks, trade names, business names, designs, logos, trade dress, designations of origin or quality used by Assignor, and all other trademark-related rights, including all applications and registrations for each of the foregoing items and all goodwill associated with and symbolized by each of the foregoing items (the "Assigned Trademark Rights").

2. Assignor further grants, conveys and assigns to Assignee, on a worldwide basis, all of its rights, title, and interest in and to any and all proceeds, causes of action, rights to sue and bring claims, and all other rights of action or recovery for past, present, and future infringement or other violation of any of the Assigned Trademark Rights, including rights to injunctive relief, damages, enhanced and exemplary damages, attorneys' fees, costs and expenses and all other legal and equitable remedies.

3. The parties understand and intend that this Trademark Assignment is to be recorded in the United States Patent and Trademark Office and elsewhere around the world as appropriate.

4. Assignor agrees to execute all instruments and documents and do such additional acts as Assignee may deem necessary or desirable to effect, evidence, record, and perfect the assignment and recordation of the rights being assigned hereunder in this Trademark Assignment. If Assignee is unable for any reason whatsoever to secure Assignor's signature to any document it is entitled to under this Trademark Assignment, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents, as its attorneys-in-fact, with full power of substitution to act for and on their behalf and instead of Assignor to execute and file any such document or documents and to do all other lawfully permitted acts to further the purposes of the foregoing with the same legal force and effect as if executed by Assignor.

5. This Trademark Assignment will inure to the benefit of and be binding upon Assignee and Assignor and their respective heirs, successors, and assigns.

6. This Trademark Assignment may be executed in counterparts, each of which will be deemed an original, but all of which together constitute one and the same original. Any such signature page will be effective as a counterpart signature page hereto without regard to page, document or version numbers or other identifying information thereon, which are for convenience of reference only. This Trademark Assignment may be executed by facsimile or .PDF signature, and a facsimile or .PDF signature will constitute an original signature for all purposes.
