INTELLECTUAL PROPERTY ASSIGNMENT

This Intellectual Property Assignment is made effective as of May 8, 2019 (the "Effective Date"), by and between Anki, Inc. a Delaware corporation, located at 55 2nd Street, Floor 15, in the City of San Francisco, State of California, Federal Tax Identification Number 271700115, hereinafter referred to as "Anki" or "Assignor," and DSI Assignments, LLC, a Delaware limited liability company, located at 333 South Grand Avenue, Suite 4100, Los Angeles, CA 90071, hereinafter referred to as "Assignee."

WHEREAS, Anki has adopted or used certain trademarks or service marks as set forth on the attached Exhibit A (collectively, the "Trademarks"), in conjunction with Anki's business, together with the goodwill symbolized thereby; and

WHEREAS, Anki has owned, developed or acquired in conjunction with its business the following patent and related rights (collectively, the "Patent Rights" and, together with the Trademarks, the "Intellectual Property"): (a) the patents (each, a "Patent" and collectively, the "Patents") and patent applications and other filings (each, a "Patent Application: and collectively, the "Patent Applications") as set forth on the attached Exhibit B and the inventions disclosed and claimed therein; (b) all rights to apply in any and all countries of the world for patents, certificates of invention, utility models or other governmental grants of rights with respect to any Patent, Patent Application or invention disclosed and claimed therein, including the right to apply for patents pursuant to any convention, treaty, agreement or understanding; and (c) each resulting patent, patent application, and other governmental grant of rights issued on or relating to any Patent or Patent Application including each related provisional continuation, continuation-in-part, divisional, reexamination, reissue, extension, or substitute of any of the foregoing in any jurisdiction anywhere in the world. (for purposes herein, "related" means, with respect to any patent, patent application, or other governmental grant of rights, that such patent, patent application, or other governmental grant of rights is entitled to claim the benefit of priority from or relating to a Patent or a Patent Application, or that a Patent or Patent Application is entitled to claim and benefit of priority from such patent, patent application, or other governmental grant of rights.); and

WHEREAS, on May 8, 2019, Anki initiated an assignment for the benefit of creditors pursuant to which it assigned and transferred all of its assets and property, including the Intellectual Property (the "Assets") to Assignee pursuant to that certain General Assignment for the Benefit of Creditors executed by Anki and Assignee (the "General Assignment"); and

WHEREAS, pursuant to the General Assignment, the Assignee was granted a general power of attorney to succeed to all rights and privileges of the Assignor; and

NOW, THEREFORE, in consideration of the foregoing and the covenants and agreements contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, that parties hereto, intending to be legally bound, agree as follows:

1. Assignment of Trademarks. Assignor hereby conveys, assigns, transfers and sets over unto Assignee all of Assignor's right, title and interest in and to the Trademarks, together with the goodwill symbolized thereby, together with all applications, and/or registrations thereof,

together with a right to sue for and collect on all claims for injunctive relief and damages by reason of past, present or future infringement of the Trademarks.

2. Assignment of Patent Rights. Assignor hereby conveys, assigns, transfers and sets over unto Assignee all of Assignor's right, title and interest in and to (a) the Patent Rights; (b) all accrued causes of action and all rights but not the obligation to sue and recover damages or obtain injunctive relief, for future and past infringements of the Patent Rights; and (c) all counterparts to the Patent Rights that have been or may be filed outside the United States or under the Patent Cooperation Treaty, whether pursued as a patent, an inventor's certificate, a utility model of the like, including all rights of priority based on the Patent Rights, further including all continuation, continuation-in-part and divisional applications based in whole or in part on the non-U.S. counterparts, and still further including all patents, inventor's certificates, utility models, reissues and extensions resulting from any of the non-U.S. counterparts. Assignor also hereby grants to Assignee the sole and exclusive right to prosecute, defend, maintain and/or enforce the Patent Rights and all related applications as described immediately above, as well as any opposition proceedings, reissue applications, reexaminations, and nullity or invalidity proceedings. Assignor authorizes all governmental bodies having the power to issue patents, inventor's certificates or utility models to issue a patent, inventor's certificate or utility model based on the Patent Rights or any related applications as described immediately above in the name of Anki or Assignee.

3. Filing of Assignment. Assignor hereby appoints Assignee or its successors and assigns to file and record this instrument with the United States Patent and Trademark Office.

4. Governing Law. This Intellectual Property Assignment shall be construed under and governed by the internal laws of the State of California without regard to its conflict of laws provisions.

5. Successors and Assigns. This Intellectual Property Assignment shall bind Assignor and its successors and assigns and inure to the benefit of Assignee and its successors and assigns.
