AGREEMENT

To secure Company’s obligations under the Program Agreements and under any other agreement now existing or hereafter arising among Company and the Finance Provider, the Company grants and pledges to Finance Provider a security interest in all of the Company’s right, title and interest in, to and under its Intellectual Property (including without limitation those copyrights, patents and trademarks listed on Exhibits A, B and C hereto), and including without limitation all proceeds thereof (such as, by way of example but not by way of limitation, license royalties and proceeds of infringement suits), the right to sue for past, present and future

infringements, all rights corresponding thereto throughout the world and all re-issues, divisions, continuations, renewals, extensions and continuations-in-part thereof.

Notwithstanding anything contained in this agreement to the contrary, the property in which the Company has granted and pledged a security interest hereunder shall not include: (i) any rights or interest in any contract, lease, permit, license, or license agreement covering real or personal property of the Company if under the terms of such contract, lease, permit, license, or license agreement, or applicable law with respect thereto, the grant of a security interest or lien therein is prohibited as a matter of law or under the terms of such contract, lease, permit, license, or license agreement and such prohibition or restriction has not been waived or the consent of the other party to such contract, lease, permit, license, or license agreement has not been obtained (provided, that, (A) the foregoing exclusions of this clause (i) shall in no way be construed (1) to apply to the extent that any described prohibition or restriction is ineffective under Section 9-406, 9-407, 9-408, or 9-409 of the UCC or other applicable law, or (2) to apply to the extent that any consent or waiver has been obtained that would permit Finance Provider's security interest or lien to attach notwithstanding the prohibition or restriction on the pledge of such contract, lease, permit, license, or license agreement and (B) the foregoing exclusions of clause (i) shall in no way be construed to limit, impair, or otherwise affect Finance Provider's continuing security interests in and liens upon any rights or interests of the Company in or to (1) monies due or to become due under or in connection with any described contract, lease, permit, license, license agreement, or (2) any proceeds from the sale, license, lease, or other dispositions of any such contract, lease, permit, license or license agreement); or (ii) any United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law, provided that upon submission and acceptance by the United States Patent and Trademark Office of an amendment to allege use pursuant to 15 U.S.C. Section 1060(a) (or any successor provision), such intent-to-use trademark application shall be within the security interest granted hereunder.

This security interest is granted in conjunction with the security interest granted to Finance Provider under the Security Agreement. The rights and remedies of Finance Provider with respect to the security interest granted hereby are in addition to those set forth in the Program Agreements and the other transaction documents related thereto, and those which are now or hereafter available to Finance Provider as a matter of law or equity. Each right, power and remedy of Finance Provider provided for herein or in the Program Agreements, or now or hereafter existing at law or in equity shall be cumulative and concurrent and shall be in addition to every right, power or remedy provided for herein and the exercise by Finance Provider of any one or more of the rights, powers or remedies provided for in this Intellectual Property Security Agreement or any of the Program Agreements, or now or hereafter existing at law or in equity, shall not preclude the simultaneous or later exercise by any person, including Finance Provider, of any or all other rights, powers or remedies.

The Company represents and warrants that Exhibits A, B, and C attached hereto set forth any and all intellectual property rights in connection to which the Company has registered or filed an application with either the United States Patent and Trademark Office or the United States Copyright Office, as applicable.

Finance Provider shall have the right without the consent of or notice to Debtors to sell, transfer, negotiate, or grant participations in all or any part of Finance Provider's interest in any Collateral, or in Finance Provider's obligations, rights, interests and benefits hereunder. Notwithstanding and without limiting the foregoing or anything else herein to the contrary, by execution below, each Debtor expressly acknowledges and agrees that all of the Finance Provider's rights, title, and interests in, to, and under this agreement and the Collateral, may be assigned or participated, in whole or in part (and including, legal and/or beneficial interest with respect thereto), by the Finance Provider to any Initial Identified Assignees, pursuant to one or more purchase, participation or similar transfer agreements, and each Debtor consents to such assignment. Each of the parties hereto acknowledges and agrees that, following any such sale, assignment or transfer by Finance Provider to any of the Initial Identified Assignees (or any other permitted assignee or participant hereunder), such Initial Identified Assignee (and/or such other permitted assignee or participant) are and shall be third party beneficiaries of the rights of the Finance Provider arising hereunder and any other Program Agreement. Each provision of this agreement shall be severable from every other provision hereof for the purpose of determining the legal enforceability of any specific provision.
