CONFIRMATORY WORLDWIDE INTELLECTUAL PROPERTY RIGHTS ASSIGNMENT

This Assignment effective the 9th day of July, 2020 ("Effective Date")

WHEREAS, Simba Technologies Incorporated, a Canadian Corporation, located at 938 West 88th Avenue, Vancouver, British Columbia, Canada (hereinafter "ASSIGNOR") is the owner of: (a) the trademarks and registrations therefor as listed in Schedule A attached hereto, together with the goodwill of the business symbolized thereby (collectively, the "Marks"); (b) the inventions, patent applications and registrations listed in Schedule B attached hereto (collectively "Inventions"); and (c) copyright in certain original works owned by the Assignor ("Works"); and (d) other industrial property rights, including industrial designs ((aesthetic creations related to the appearance of industrial products) ("Designs"). The Marks, Inventions, Works and Designs collectively comprising the "Intellectual Property Rights".

WHEREAS, Magnitude Software, Inc., a Delaware Corporation, located at 515 Congress Avenue, Suite 1510, Austin, Texas, 78701, United States (hereinafter "ASSIGNEE"), was desirous of acquiring and did so acquire all right title and interest in and to the Intellectual Property Rights, including the goodwill of the business symbolized thereby, and the right of recovery in all legal actions based on the Intellectual Property Rights.

NOW, THEREFORE, in consideration of good and valuable consideration paid by the ASSIGNEE to ASSIGNOR, the receipt of which is hereby acknowledged, ASSIGNOR does hereby confirm the assignment, conveyance, sale and transfer as of the Effective Date, of ASSIGNOR's right, title and interest of whatever kind in and to the Intellectual Property Rights in the world, and the ASSIGNEE hereby accepts such assignment, conveyance, sale and transfer. For the purposes of this Assignment, "Intellectual Property Rights" includes any and all intellectual property rights of any nature anywhere in the world, whether registered, registrable or otherwise, including all common law and equitable rights to:

1. Marks, including all common law rights and all rights in and to the Marks and registrations, together with (a) the goodwill of the business relating to the Marks; (b) all income, royalties, and damages hereafter due or payable to ASSIGNOR with respect to the Marks, including without limitation, damages, and payments for past, present or future infringements and misappropriations of the Marks; and (c) all rights to sue for past, present and future infringements or misappropriations of the Marks, as fully and entirely as the same would have been held and enjoyed by the ASSIGNOR had this Assignment not been made;
2. Inventions, including: (a) any and all applications, both Canadian, United States and foreign, which the Assignor or Assignee, its successors or assigns, may file, either solely or jointly with others, on the invention (the "Applications"); (b) any and all Letters Patent, both Canadian and foreign, which may issue from any of the Applications, including all divisionals, continuations, continuations-in-part, renewals, reissues, substitutions and extensions thereof; (c) all Convention or Treaty rights derived from any of the Applications, including without limitation, all rights of priority in and to the Applications; and (d) the full and complete right to file applications for Letters Patent in the name of the Assignee, its successors or assigns, or in the Assignor's name(s) at the election of the Assignee, its successors or assigns, on the invention throughout the world;
3. Works, including: (a) all rights to copy, reproduce, adapt, display, distribute, publish, perform, make into derivative works, or otherwise transform the Works; (b) any and all right to possession of and all copyright in Canada and throughout the world; (c) any and all applications for registration of such rights, both Canadian and foreign, which the Assignor or Assignee, its successors or assigns, may file; (d) any and all Certificates of Registration, both Canadian and foreign, which may issue from any of the applications for copyright; (e) all Convention or Treaty rights derived from any of

the copyright applications, including without limitation, all rights of priority in and to the copyright applications. The Assignor irrevocably veives, in favour of the Assignee, its successors and assigns, any and all moral rights in or related to any of the said Works; and

4. Designs, including: (a) all rights to make, use and sell articles comprising the Designs, and (b) all rights to applications, both Canadian, United States and foreign, which the Assignor or Assignee, its successors or assigns, may file, either solely or jointly with others, on the Designs; and all Convention or Treaty rights derived from any of the applications and registrations, including without limitation, all rights of priority in and to the applications and registrations.

This Confirmatory Assignment confirms the assignment of the Intellectual Property Rights as of the Effective Date.

IN WITNESS THEREOF, ASSIGNOR has executed this Assignment by an officer thereof, duly authorized, this 9 day of July, 2020.

WITNESS DECLARATION:

I, Robert Jason Sarchel of
Austin (City),
Texas (State)

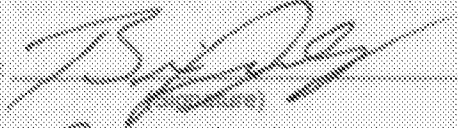

declare that I was personally present and did witness the above-mentioned Assignor duly sign and execute the above Assignment.
