ASSIGNMENT OF RIGHTS AGREEMENT

THIS ASSIGNMENT OF RIGHTS AGREEMENT ("Agreement") is entered into as of September 30, 2019 between Sunstar Americas, Inc., a American corporation organized under the laws of the State of Delaware having its principal place of business at 301 E. Central Road, Schaumburg, IL 60195 U.S.A, ("Seller"); and Sunstar Suisse SA, a Swiss corporation having its principal place of business at Route de Pallatex 11, 1163 Etoy, Switzerland ("Purchaser").

WHEREAS, Seller holds the rights relating to its trademarks as set forth in Appendix I in the United States of America (U.S.A.), Canada, and the United Mexican States (Mexico); and

WHEREAS, Purchaser oversees activities on behalf of Seller, and wishes to acquire from Seller the aforementioned rights that Seller holds in the territory as set forth in Appendix I.

WHEREAS, the parties wish to document their understanding concerning the terms and conditions of such transfer, including the stipulation of reasonable payments in exchange for such rights consistent with transfer pricing considerations.

NOW, THEREFORE, the parties agree as follows:

- Assignment of Rights. On the date set forth on the first page of this Agreement, Seller hereby assigns, sells and transfers to Purchaser all Seller's right, title and interest in the trademarks as shown in Appendix I ("Trademarks") including, but not limited to: (i) all registration and application rights with respect to the Trademarks (provided that, with respect to the U.S.A. intent-to-use applications identified in Appendix I, the assignment and transfer of such applications shall not be effective until a statement of use or amendment to allege use, as applicable, has been filed with and accepted by the U.S. Patent and Trademark Office), (ii) all goodwill of the business symbolized by the Trademarks, (iii) any rights to prepare and use derivative marks, (iv) all income, royalties or claims to the Trademarks due to or payable on or after the date set forth in the first paragraph hereof, and (v) all copyrights relating to the Trademarks including without limitation those set forth in Appendix I (collectively referred to as "Rights").
- Future Arrangements Involving Seller. Seller shall provide reasonable support to Purchaser in exploiting the Rights in the Territory upon mutually agreed terms and conditions consistent with the scope of the anticipated exploitation and the circumstances at that time.
- Payments to Seller. Purchaser agrees to pay Seller [REDACTED] in exchange for the Rights. Such payment shall be made to Seller by September 30th, 2019. Purchaser further agrees to pay those expenses related to the Rights that are described in Section 6.
- Nature of Rights. The Rights are conveyed to Purchaser on an "as is" basis. However, Seller hereby advises Purchaser that Seller is not aware of any infringement of such Rights by any third party or any claims of any third party with respect to the Rights.
- Trademark Registrations. In connection with the conveyance to Purchaser of the existing trademark registrations, Purchaser shall bear the cost for registration of the assigned Trademarks, and Seller agrees to execute such documents as Purchaser may

reasonably request in order to register the transfer of legal ownership of any such registration in any country in the Territory. In case the Purchaser could not register the transfer of legal ownership of any such registration in any country in the Territory under any circumstances, Purchaser may request, if circumstances warrant, that Seller execute documents to grant an exclusive license to Purchaser for any such trademark with the official trademark ownership remaining in Seller's name without compensation. Purchaser shall bear responsibility for all actions and costs to create, maintain, defend or renew trademark registrations in the Territory, including any trademarks conveyed pursuant to this Agreement that continue to be registered in the name of Seller.

6. Trademark and Other Documentation. Seller shall provide to Purchaser, if requested by Purchaser, all documents and information, including without limitation to application and registration files, certificates of registration, search reports and other documents that relate to the Trademarks included within the Rights, as may be reasonably necessary in order to utilize and protect the Rights conveyed hereunder.

7. Further Actions. The parties stipulate that this Agreement is intended as a complete conveyance of the Rights from Seller to Purchaser without the necessity of any separate bill of sale, license or other supplementary document. Nevertheless, the parties anticipate that further actions will be necessary in order to demonstrate to or register Purchaser's ownership with governmental agencies or third parties. Accordingly, the parties agree to take such actions (in addition to those specified in Section 6), including execution of documents, agreements or declarations by Seller or Purchaser, as may be necessary or appropriate in order to effectuate this Agreement or to register the transfers made hereunder.

8. Confidentiality. To the extent that any of the Rights conveyed hereunder consists of confidential or proprietary information of Seller, Purchaser agrees not to disclose any such information to any other third party except to the extent necessary to exploit the Rights in the Territory, such as to contract manufacturers, and Purchaser shall cause any such party to maintain the confidentiality of such information to the same extent that it guards its own confidential or proprietary information. This provision shall not apply to information that is publicly known, was previously known to or developed by the Purchaser or was received from a third party who has a lawful right to disclose it.

9. Dispute Resolution. Any dispute, controversy or claim arising out of or relating to this Agreement, or breach, termination or invalidity hereof shall be settled through bona fide negotiations between the parties.

10. Miscellaneous.

10.1 Entire Agreement. This Agreement constitutes the entire understanding between the parties with respect to the subject matter hereof and supersedes any prior agreements or communications.

10.2 Taxes. Each Party shall bear all taxes incurred by it in connection with the assignment of the Trademarks for which each Party is statutorily liable.

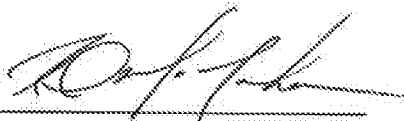

10.3 Waiver. No failure by a party to exercise or enforce any right under this Agreement shall be deemed a waiver of such party's right thereafter to enforce each term and condition of this Agreement.

10.4 Governing Law/Disputes. This Agreement shall be governed by and construed in accordance with the laws of Switzerland. All disputes arising out of or relating to this Agreement shall be decided in accordance with the International Arbitration Rules of the Swiss Chambers of Commerce. English will be the language of arbitration and Lausanne will be the place of arbitration.

IN WITNESS WHEREOF, the parties hereto have caused this ASSIGNMENT OF RIGHTS AGREEMENT to be executed and effective as of the date set forth in the first paragraph hereof.
