## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this "Assignment"), dated as of October 5, 2020, is entered into by and between Old Holdco, Inc. (f/k/a Pyxus International, Inc.), a Virginia corporation ("Seller") and Pyxus Holdings, Inc., a Virginia corporation ("New Pyxus"). Capitalized terms used herein but not otherwise defined shall have the meaning set forth in the Plan (as defined below).

WHEREAS, pursuant to the terms and conditions of that certain Asset Purchase Agreement, dated as of August 24, 2020, by and between Seller and New Pyxus (the "APA"), Seller has agreed to sell, convey, transfer and assign to New Pyxus, and New Pyxus has agreed to purchase certain intellectual property of Seller.

NOW, THEREFORE, in consideration of the mutual promises contained herein and in the APA, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties to this Assignment hereby agree as follows:

Section 1.01. Assignment. On August 24, 2020, Seller sold, conveyed, transferred, assigned and delivered to New Pyxus, and Seller hereby sells, conveys, transfers, assigns and delivers (and New Pyxus hereby receives, acquires and accepts) all of Seller's intellectual property (the "Assigned IP"), including all right, title and interest of Seller in and to

(a) the trademarks, and the trademark registrations and applications therefor, identified in Schedule A attached hereto, together with all goodwill associated therewith (the "Trademarks");

(b) the patents and patent applications identified in Schedule B attached hereto, including all continuations, continuations-in-part, divisionals, reexaminations, reissues and renewals thereof, and any patents or patent applications that claim priority to the foregoing (the "Patents");

(c) the right to file trademark, patent or copyright applications in the United States and throughout the world for the Assigned IP and to maintain all applications, registrations, renewals and extensions thereof, including the registrations and applications included in the Trademarks and Patents; and

(d) the right to bring all claims for past, present and future infringement, misappropriation or other violation of rights in the Assigned IP, including, without limitation, all rights to sue for and to receive and recover all profits and damages accruing from any infringement, misappropriation or other violation as well as the right to grant releases for past infringements or other violations.

New Pyxus shall hold all right, title and interest in and to the Assigned IP as fully and exclusively as same would have been held and enjoyed by Seller had the above assignment not been made.

Section 1.02. Disclaimer. New Pyxus agrees that the Assigned IP is assigned to New Pyxus on an “as is” and “where is” basis, and Seller expressly disclaims any and all other representations and warranties of any kind, either express or implied, including any warranties of validity, enforceability or infringement or dilution of any third-party rights.

Section 1.03. Further Assurances. Each party to this Assignment shall at the reasonable request of the other party, at any time and from time to time following the Closing (as that term is defined in the APA), execute and deliver to the requesting party such further customary instruments and take, or cause to be taken, such other actions as may be reasonably necessary or appropriate in order to confirm or carry out the transactions contemplated by this Assignment.

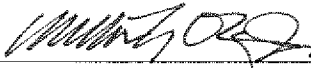

Section 1.04. Governing Law. This Assignment shall be governed by, and construed in accordance with, the laws of the Commonwealth of Virginia, without giving effect to the conflicts of law principles thereof.

Section 1.05. Execution; Counterparts. This Assignment may be executed by facsimile signature and in two or more counterparts, each of which shall be deemed to be an original, but all of which shall constitute one and the same agreement.

*[Signature page follows]*

IN WITNESS WHEREOF, each of the parties has caused this Assignment to be executed on its behalf by its officers thereunto duly authorized, all as of the day and year first above written.
