TRADEMARK ASSIGNMENT

This TRADEMARK ASSIGNMENT (this "Assignment"), dated as of November 1, 2020 (the "Effective Date"), is by and between DDP Specialty Electronic Materials US 5, LLC, a Delaware limited liability company, with an address of 974 Centre Road, Wilmington, Delaware 19805, USA ("Assignor") and Nutrition & Biosciences USA 2, LLC, a Delaware limited liability company, with an address of 3490 Winton Place, Rochester, New York 14623, USA ("Assignee"), (each a "Party" and collectively, the "Parties").

WHEREAS, Assignor owns the trademark and service mark applications and registrations set forth on Schedule A hereto (the foregoing, including all trademarks issuing from any trademark application, collectively, the "Assigned Trademarks"); and

WHEREAS, the Parties hereto agree that the Assignor contribute, transfer, assign and convey to the Assignee all of its right, title and interest in and to the Assigned Trademarks and that the Assignee accept such contribution, transfer, assignment and conveyance of such Assigned Trademarks;

NOW, THEREFORE, in consideration of the foregoing and the mutual covenants and agreements contained in this Assignment, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Conveyance. Assignor hereby assigns, transfers and conveys to Assignee all of Assignor's right, title and interest in and to the Assigned Trademarks, including all goodwill, common law rights, rights of priority and renewals to the extent associated therewith and all rights and remedies against past, present and future infringement, dilution, misappropriation or other violation thereof, including the right to enforce the foregoing and to sue for and recover profits and damages for any and all infringements, dilutions, misappropriations or other violations thereof, whether past, present or future, to the full end of the term or terms for which said trademarks may be granted, as fully and entirely as the same would have been held and enjoyed by Assignor without this assignment (the rights transferred under this Section 1 cumulatively, the "Assigned Rights").

2. Recordation; Further Assurances. Assignor and Assignee shall each take any and all additional actions as may be reasonably necessary to effect the transactions contemplated hereby, including Assignor's execution of individual assignment documentation prepared by Assignee at Assignee's expense for filing with the authorities of each individual country. In furtherance of the foregoing, Assignor agrees that with respect to the Assigned Trademarks it will enter into an assignment agreement suitable for filing with the authorities of each individual country (each a "Recordal Instrument"). The Parties agree that any Recordal Instrument shall give no greater rights or remedies in respect of the transaction completed in such Recordal

Instrument than those provided for herein and Section 4 of this Assignment shall apply to any Recordal Instrument as if fully set forth therein. As between the Parties, the responsibility to file assignments with the national trademark offices of each country for the Assigned Trademarks shall be on the Assignee and the Assignee shall bear the cost of filing such assignments (unless, as of the Effective Date, the trademark registration or application is not properly recorded in the name of the Assignor or an Affiliate of Assignor, in which case, at the request of Assignee, the Parties shall reasonably cooperate to make the necessary corrective filings and recordals of the documents that are available to them and shall split evenly any expenses in connection with the foregoing corrections and each Party shall provide any receipts and expense documentation to the other Party for the purposes of splitting such expenses).

3. Prosecution and Maintenance. For the avoidance of doubt but without limiting the obligations set forth in Section 2 hereof, as of and following the Effective Date, Assignor will have no responsibility to take any action to maintain any of the Assigned Trademarks or further prosecute or seek issuance of any trademark applications included in the Assigned Trademarks, including payment of fees, responses to any office action or other inquiries from agents of governmental entities or registrars, or otherwise.

4. No Claims. Except with respect to Section 2 of this Assignment, neither Party nor any of their respective affiliates or representatives will have, or be subject to, any liability or indemnification obligation under this Assignment to the other Party, any of its affiliates or representatives or any other entity or person resulting from, or in connection with, this Assignment or the transactions contemplated hereby. Except with respect to Section 2, each of the Parties hereby agrees (a) not to bring any claim or Action (as defined herein) under this Assignment against the other Party, its affiliates or representatives and (b) to cause its respective affiliates and representatives to comply with this Section 4. “Action” shall mean any claims, actions, suits, inquiries, proceedings or investigations by or before any governmental authority or arbitral tribunal.
