INTELLECTUAL PROPERTY ASSIGNMENT

THIS INTELLECTUAL PROPERTY ASSIGNMENT (“Assignment”) is made and effective as of December 1, 2020 (the “Effective Date”) by and between, Lynn C. Thompson (“Assignor”) and LCT Enterprises, Inc., an Arizona corporation (“Assignee”) (collectively the “Parties” and individually a “Party”).

WHEREAS, Assignor is the owner of all rights, title, interest, in and to (i) the marks identified in the attached Exhibit A (the “Marks”); (ii) any copyright in any logos, product packaging, or other copyright-protected works solely associated with the goods sold in connection with the Marks (the “Works”); and (iii) the pending patent application and the inventions described therein and relating thereto as identified in the attached Exhibit A (the “Inventions”); and

WHEREAS, the Parties desire to document the transfer of rights from Assignor to Assignee in a form suitable and acceptable for recordation with the appropriate governmental agencies.

NOW, THEREFORE, in consideration of the foregoing, which are incorporated into this Assignment, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor hereby agrees as follows:

1. Assignment of Marks and Works. Assignor hereby sells, assigns, and transfers to Assignee any and all of Assignor’s right, title, interest in and to the Marks throughout the world, including all rights of priority, together with any and all goodwill of the business embodied in the Marks. Assignor hereby sells, assigns, and transfers to Assignee, any and all of Assignor’s right, title, interest in and to the Works. The foregoing assignments shall include: (A) any and all applications or registrations; (B) all rights to causes of action and remedies related thereto including, without limitation, the right to sue for past, present, or future infringement, misappropriation, or violation of any rights related to the foregoing; and (C) any other rights and interests arising out of, in connection with, or in relation to the Marks or Works.

2. Assignment of Inventions. Assignor hereby transfers to Assignee the entire right, title, and interest in and to the Inventions throughout the world, including (1) the right to sue for and collect damages for past, present, and future infringement of, the Inventions throughout the world; (2) all corresponding domestic and foreign applications including any provisional, non-provisional, divisional, continuation, continuation-in-part, reissue application, or any other application based on any of the Inventions; (3) all issued patents and additional Letters Patent or similar legal protection issuing on or associated with the Inventions; (4) all trade secrets and know-how pertaining to any of the Inventions; and (5) all rights and benefits under any applicable treaty or convention; and Assignor authorizes the Commissioner of Patents and Trademarks of the United States or foreign equivalent therefor to issue any Letters Patent or similar legal protection to the Assignee. Assignor authorizes the Assignee, its successors and assigns or anyone it may properly designate, to apply for Letters Patent or similar legal protection for any of the Inventions, in its own name if desired, in the U.S. and any and all

foreign countries and to make a claim of priority to any applications as entitled under U.S. law or applicable international conventions, treaties, or otherwise.

3. Further Documents. Assignor agrees it will make, execute and deliver any and all other instruments in writing including any and all further affidavits, assignments and other documents, and will communicate to said Assignee, its successors and representatives all facts known to it relating to the foregoing Marks, Works, and Inventions including, but not limited to, the Inventions and the history thereof and will testify in all legal proceedings and generally do all things which may be necessary or desirable more effectually to secure to and vest in said Assignee, its successors or assigns the entire right, title and interest in and to the Marks, Works, Inventions, and associated rights, titles, benefits, privileges and advantages hereby sold, assigned and conveyed, or intended so to be.
