Section 2. Assignment. Solely to the extent not effectuated by, and without limiting, the assignment pursuant to the Assignment and Assumption Agreement, each Assignor hereby absolutely, irrevocably and unconditionally sells, assigns, conveys, transfers and delivers to the Assignee on behalf of itself and its successors and assigns to have and to hold forever, all of its entire worldwide right, title, and interest in and to (a) the Assigned Trademarks, and (b) (i) any and all rights of any kind whatsoever of such Assignor accruing under any of the foregoing provided by applicable Law; (ii) royalties, fees, damages, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and (iii) claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including rights to prosecute, sue, enforce, or recover or retain damages, costs, or attorneys' fees with respect to the past, present and future infringement, misappropriation, dilution, unauthorized use or disclosure, or other violation of any of the foregoing, in each case free and clear of all Encumbrances (other than the Permitted Encumbrances), without representation or warranty of any kind (except as provided in the Purchase Agreement), the same to be held and enjoyed by Assignee for its own use and enjoyment and the use and enjoyment of its successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by such Assignor if this assignment and sale had not been made, as assignee of its entire right, title and interest therein.
