## INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (“**Assignment**”), dated as of October 30, 2020 (the “**Effective Date**”), is made by and between Basic Fun Canada Holdings, Inc., an Ontario corporation (“**Assignor**”), and Basic Fun, Inc., a Delaware corporation (“**Assignee**”).

WHEREAS, Assignors and Assignee have entered into an Asset Purchase Agreement (hereinafter the “**Purchase Agreement**”), pursuant to which Assignor has agreed to sell, and Assignee has agreed to purchase, certain assets of Assignor, including, without limitation, the intellectual property of Assignor;

WHEREAS, pursuant to the terms of the Purchase Agreement, Assignor wishes to convey, transfer and assign to Assignee, and Assignee wishes to receive, among other assets, the intellectual property of Assignor; and

WHEREAS, the parties wish to execute and deliver this Assignment, for recording with governmental authorities including, but not limited to, the United States Patent and Trademark Office, the United States Copyright Office and the Canadian Intellectual Property Office.

NOW THEREFORE, in consideration of the foregoing and the mutual covenants contained herein and in the Purchase Agreement, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, it is agreed as follows:

### 1. Definitions.

**1.1. Definition of Intellectual Property.** As used herein, the term “Intellectual Property” shall mean all intellectual property owned or held by the Assignor, including but not limited to:

(a) all discoveries, developments, trade secrets, confidential information, proprietary information, processes, data, lists, information, materials, programs, methods, improvements, ideas, concepts, know-how, designs, business information, customer lists, and techniques, whether or not any of the foregoing is or are patentable or registrable under any intellectual property laws or industrial property laws in the United States, Canada or elsewhere and all industrial designs, industrial design applications, patents and patent applications that may arise therefrom and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof;

(b) all trade names, corporate names, brand names, trademarks, service marks, trade dress, domain names, email accounts, social media accounts, URL addresses, logos, symbols, slogans, graphics and other indicia of source or origin whether or not registered and/or pending registration, together with the reputation and goodwill of the business of Assignor symbolized thereby or associated therewith, as provided under Title 15 of the United States Code, the common law, their foreign equivalents, and international treaties and conventions; and any and all pending applications and completed registrations for any of

the foregoing anywhere in the world, and all issuances, extensions and renewals thereof; and

(c) all works of authorship, including without limitation written material, video material, graphic designs, website designs, and images, software, code, and all associated copyrights of the Assignor therein, whether all such copyrights are registered, unregistered, or arising by any applicable law of any jurisdiction throughout the world and all registrations and applications for registration of such copyrights; issuances, extensions and renewals of such registrations and applications, and related proprietary rights, interests and protections, however arising, pursuant to any such law.

**1.2. Capitalized Terms.** Any capitalized terms used herein which are not otherwise defined herein shall have the meanings given such terms in the Purchase Agreement.

**2. Assignment.** Assignor hereby irrevocably conveys, transfers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor's right, title and interest in and to the Intellectual Property, including but not limited to the patent and trademark applications and registrations set forth on Schedule A, together with the goodwill of the business symbolized by any trademarks. In connection with the assignment of the Intellectual Property as provided herein, Assignor hereby assigns to Assignee: (a) any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the Intellectual Property; and (b) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, dilution, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages. With respect to any trademarks identified in any pending United States federal trademark applications filed on the basis of an intent to use the mark in commerce, the assignment of such trademarks accompanies the transfer of Assignor's business, or portion of the business to which such trademarks pertains, as required by Section 10 of the Trademark Act, 15 U.S.C. §1060, and that said business is ongoing and existing.

**2.1. **2.2 Moral Rights.** To the extent moral rights, including but not limited to, all rights related to paternity, integrity, disclosure, and withdrawal, may not be assignable under applicable law and to the extent the following is allowed by the laws in the various countries where moral rights exist, Assignor hereby irrevocably waives such moral rights and consents to any action of the Assignee that would violate such moral rights in the absence of such consent.

**3. Recordation and Further Actions.** Assignor hereby authorizes the Canadian Intellectual Property Office, the Commissioner for Patents, the Commissioner for Trademarks and the Register of Copyrights

and any other governmental officials to record and register this Assignment upon request by Assignee. Assignor shall take such reasonable steps and actions following the date hereof, including the execution of any documents, files, registrations, or other similar items, to ensure the Intellectual Property is properly assigned to Assignee, or any assignee or successor thereto.

**4. Assignee's Ownership.** Assignor hereby acknowledges Assignee will own all right, title and interest in and to the Intellectual Property.

This Assignment is subject to and controlled by the terms of the Purchase Agreement.
