PATENT AND TRADEMARK SECURITY AGREEMENT

PATENT AND TRADEMARK SECURITY AGREEMENT dated as of December 1, 2020 (this "Agreement"), among The Men's Wearhouse, LLC, a Texas limited liability company (the "Borrower"), the other Loan Parties from time to time party hereto and Wilmington Savings Fund Society, FSB, as administrative agent (the "Administrative Agent").

Reference is made to (a) the Senior Term Credit Agreement dated as of December 1, 2020 (as amended, restated, supplemented or otherwise modified from time to time, the "Credit Agreement"), among Parent, the Borrower, the other Loan Parties from time to time party thereto, the Lenders from time to time party thereto and the Administrative Agent, and (b) the Guarantee and Collateral Agreement dated as of December 1, 2020 (as amended, restated, supplemented or otherwise modified from time to time, the "Collateral Agreement"), among Parent, the Borrower, the other Loan Parties from time to time party thereto and the Administrative Agent. The Lenders have agreed to extend credit to the Borrower subject to the terms and conditions set forth in the Credit Agreement. The obligations of the Lenders to extend such credit are conditioned upon, among other things, the execution and delivery of this Agreement. The Loan Parties party hereto are Affiliates of the Borrower, will derive substantial benefits from the extension of credit to the Borrower pursuant to the Credit Agreement and are willing to execute and deliver this Agreement in order to induce the Lenders to extend such credit. Accordingly, the parties hereto agree as follows:

SECTION 1. Terms. Each capitalized term used but not otherwise defined herein shall have the meaning specified in the Credit Agreement or the Collateral Agreement, as applicable. The rules of construction specified in Section 1.03 of the Credit Agreement also apply to this Agreement, mutatis mutandis.

SECTION 2. Grant of Security Interest. As security for the payment or performance, as the case may be, in full of the Secured Obligations, each Grantor pursuant to the Collateral Agreement did, and hereby does, grant to the Administrative Agent, its successors and assigns, for the benefit of the Secured Parties, a security interest in all right, title and interest in, to and under any and all of the following assets now owned or at any time hereafter acquired by such Grantor or in, to or under which such Grantor now has or at any time hereafter may acquire any right, title or interest (collectively, the "Patent and Trademark Collateral");

(a) (i) all letters patent of the United States of America or the equivalent thereof in any other country, all registrations and recordings thereof, and all applications for letters patent of the United States of America or the equivalent thereof in any other country, including registrations, recordings and pending applications in the United States Patent and Trademark Office or any similar office in any other country, including those listed on Schedule I, (ii) all reissues, continuations, divisions, continuations-in-part, renewals or extensions thereof, and the inventions disclosed or claimed therein, including the right to make, use and/or sell the inventions disclosed or claimed therein, (iii) all income, royalties, damages, and payments now or hereafter due and/or payable under any of the foregoing, including damages or payments for past or future infringements for any of the foregoing, (iv) the right to sue for past, present, and future infringements of any of the foregoing, and (v) all rights corresponding or equivalent to any of the foregoing subsections (i) through (iv) anywhere in the world;

(b) (i) all trademarks, service marks, trade names, corporate names, company names, business names, fictitious business names, trade styles, trade dress, logos, common law marks, other source or business identifiers, designs and general intangibles of like nature, all registrations

and recordings thereof, and all registration and recording applications filed in connection therewith, including registrations and registration applications in the United States Patent and Trademark Office or any similar offices in any State of the United States of America or any other country or any political subdivision thereof, and all extensions or renewals thereof, including those listed on Schedule II, (ii) all goodwill associated therewith or symbolized thereby, (iii) all other assets, rights and interests that uniquely reflect or embody such goodwill, (iv) all income, royalties, damages, and payments now or hereafter due and/or payable under any of the foregoing, including damages or payments for past or future infringements for any of the foregoing, (v) the right to sue for past, present, and future infringements of any of the foregoing, and (vi) all rights corresponding or equivalent to any of the foregoing subsections (i) through (v) anywhere in the world; and

(c) all exclusive licenses of Trademarks or Patents under which any Grantor is a licensee, including those listed on Schedule I.

Notwithstanding the foregoing in no event shall Patent and Trademark Collateral include "intent-to-use" trademark or service mark applications prior to the filing of a "Statement of Use" or "Amendment to Allege Use" with respect thereto.

SECTION 3. Collateral Agreement. The security interests granted to the Administrative Agent herein are granted in furtherance, and not in limitation of, the security interests granted to the Administrative Agent pursuant to the Collateral Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of the Administrative Agent with respect to the Patent and Trademark Collateral are more fully set forth in the Collateral Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Collateral Agreement, the terms of the Collateral Agreement shall govern.

SECTION 4. Counterparts. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic imaging shall be effective as delivery of a manually executed counterpart of this Agreement.
