3. Representations and Warranties. Grantor represents and warrants that Grantor does not have any ownership interest in, or title to, any registered Patent, Trademark or Copyright material to the operation of its business except as set forth in Schedules I-III, respectively, hereto. This Intellectual Property Security Agreement is effective to create a valid and continuing Lien on and, upon the filing hereof with the United States Patent and Trademark Office and the United States Copyright Office and the filing of appropriate financing statements in the applicable filing office in the state of formation of Grantor, perfected security interests in favor of Agent for the benefit of Agent and each Lender Party in all of Grantor's Patents, Trademarks and Copyrights and such perfected security interests are enforceable as such as against any and all creditors of, and purchasers from, Grantor. Upon filing of this Intellectual Property Security Agreement with the United States Patent and Trademark Office and the United States Copyright Office and the filing of appropriate financing statements in the applicable filing office in the state of formation of Grantor all action necessary or desirable to protect and perfect Agent's lien on Grantor's Patents, Trademarks and Copyrights shall have been duly taken.

4. Covenants. Grantor covenants and agrees with Agent as follows:

(a) Grantor shall notify Agent promptly if it knows or has reason to know that any application or registration relating to any Patent, Trademark or Copyright (now or hereafter existing) material to the operation of its business may become abandoned or dedicated, or of any adverse determination or development (including the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office, the United States Copyright Office or any court) regarding Grantor's ownership of any Patent, Trademark or Copyright material to the operation of its business, its right to register the same, or to keep and maintain the same.

(b) Upon request of Agent, Grantor shall execute and deliver a supplement hereto (in form and substance reasonably satisfactory to Agent) to evidence Agent's Lien on new Intellectual Property Collateral.

(c) Grantor shall take all actions necessary or reasonably requested by Agent to enforce and protect the validity of the Intellectual Property Collateral, including

maintaining and pursuing each application, obtaining the relevant registration and maintaining the registration of each of the Patents or Trademarks material to the operation of its business (now or hereafter existing), except as may be disposed of in accordance with the terms of the Credit Agreement.

(d) In the event that any of the Intellectual Property Collateral material to the operation of Grantor's business is infringed upon, or misappropriated or diluted by a third party, Grantor shall, unless it shall reasonably determine that such Intellectual Property Collateral is not material to the conduct of its business or operations, promptly take such other actions as Grantor shall in its reasonable business judgment deem appropriate under the circumstances to protect such Intellectual Property Collateral.

5. Security Agreement. The security interests granted pursuant to this Intellectual Property Security Agreement are granted in conjunction with the security interests granted to Agent pursuant to the Credit Agreement. Grantor hereby acknowledges and affirms that the rights and remedies of Agent with respect to the security interest in the Intellectual Property Collateral made and granted hereby are more fully set forth in the Credit Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

6. Reinstatement. This Intellectual Property Security Agreement shall remain in full force and effect and continue to be effective should any petition be filed by or against Grantor for liquidation or reorganization, should Grantor become insolvent or make an assignment for the benefit of any creditor or creditors or should a receiver or trustee be appointed for all or any significant part of Grantor's assets, and shall continue to be effective or be reinstated, as the case may be, if at any time payment and performance of the Obligations, or any part thereof, is, pursuant to applicable law, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Obligations, whether as a "voidable preference," "fraudulent conveyance," or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is rescinded, reduced, restored or returned, the Obligations shall be reinstated and deemed reduced only by such amount paid and not so rescinded, reduced, restored or returned.

7. Notices. Whenever it is provided herein that any notice, demand, request, consent, approval, declaration or other communication shall or may be given to or served upon any of the parties by any other party, or whenever any of the parties desires to give and serve upon any other party any communication with respect to this Intellectual Property Security Agreement, each such notice, demand, request, consent, approval, declaration or other communication shall be in writing and shall be given in the manner, and deemed received, as provided for in the Credit Agreement.

8. Termination Of This Security Agreement. Subject to Section 6 hereof, this Intellectual Property Security Agreement shall terminate upon Payment in full of the Obligations and termination of the Credit Agreement.

IN WITNESS WHEREOF, each Grantor has caused this Intellectual Property Security Agreement to be executed and delivered by its duly authorized Designated Officer as of the date first set forth above.
