THIS INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (this “Agreement”), dated and effective as of April 16, 2021 (the “Effective Date”), is entered into by and between The Hillman Group, Inc., a Delaware corporation (“Assignee”), and OZ Post International, LLC, a Texas limited liability company (“Assignor”).

RECITALS

WHEREAS, subject to the terms and conditions of that certain Asset Purchase Agreement, dated as of the date hereof (the “Purchase Agreement”), by and among the Assignor, Assignee, Fortress Iron, LP, a Texas limited partnership, Ian and Rae Hill, and Blake Bassett, Assignee shall purchase, acquire, and accept from Assignor all right, title, and interest of Assignor, in, to and under the Purchased Assets, which include the Intellectual Property Assets, including, without limitation, the Intellectual Property identified on Exhibit A hereto (all of the foregoing collectively, the “Purchased IP”); and

WHEREAS, this Agreement is being delivered in connection with the Closing on the Effective Date.

NOW, THEREFORE, in consideration of the representations, warranties, covenants and agreements set forth in the Purchase Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, Assignor and Assignee hereby agree as set forth below.

AGREEMENT

1. Purchase Agreement; Capitalized Terms. This Agreement is executed in connection with the Purchase Agreement. All capitalized terms used, but not defined, herein shall have the respective meanings given to them in the Purchase Agreement.

2. Assignment. Assignor hereby sells, assigns, transfers, conveys and delivers to Assignee, and Assignee hereby purchases, acquires, and accepts from Assignor, free and clear of all Encumbrances, all right, title and interest, including all copyright rights and all other Intellectual Property rights, in, to and under the Purchased IP. For clarity, the foregoing assignment of the Purchased IP includes: (a) all goodwill associated with the Purchased IP, as applicable; (b) all rights to file for and maintain registrations, as applicable, for the Purchased IP; and (c) all legal actions and rights and remedies at law or in equity for past, current and future infringement, misappropriation and any other violations of the Purchased IP, and the right to sue for, collect, recover and receive all damages, profits, costs, fees, proceeds and other remedies associated therewith, the same to be held and enjoyed by the Assignee, and its successors and assigns. This Agreement shall be deemed effective for all purposes at the Closing on the Closing Date.

3. Excluded Assets Not Assigned. Notwithstanding anything herein or in the Purchase Agreement to the contrary, the Excluded Assets are specifically excluded from the Purchased IP and shall be retained by Assignor at and following the Closing.

4. Excluded Liabilities Not Assumed. Assignee assumes no Excluded Liabilities hereunder, and the parties hereto agree that all such Excluded Liabilities shall be retained by Assignor at and following the Closing.

5. No Conflict. The assignment and assumption of the Purchased IP made hereunder are made in accordance with and subject to the Purchase Agreement (including, without limitation, the representations, warranties, covenants, and agreements contained therein), which is incorporated herein by reference. In the event of a conflict between the terms and conditions of this Agreement and the terms and conditions of the Purchase Agreement, the terms and conditions of the Purchase Agreement shall govern, supersede, and prevail, solely with respect to and to the extent of any such conflicting terms. Notwithstanding anything to the contrary in this Agreement, nothing herein is intended to, nor shall it, extend, amplify, or otherwise alter the representations, warranties, covenants, and obligations of the parties hereto contained in the Purchase Agreement or any Transaction Document or the survival thereof.

6. No Third-Party Beneficiaries. The terms and provisions of this Agreement are intended solely for the benefit of the parties hereto and their respective successors and permitted assigns, and it is not the intention of the parties hereto to confer third-party beneficiary rights, and this Agreement does not confer any such rights, upon any other Person.

7. Further Assurances; Recordation. Assignor, for no additional consideration, for itself and its successors and assigns, will execute and deliver to Assignee such reasonable instruments of sale, transfer, conveyance, and such consents, assurances, powers of attorney and other instruments and will take such other action as may be reasonably requested and prepared by Assignee, at Assignee's sole cost and expense, in order to vest in Assignee all right, title and interest of Assignor in and to the Purchased IP and otherwise to carry out the purpose and intent of this Agreement. Without limiting the generality of the foregoing, to the extent applicable, Assignor authorizes and requests the Secretary of the State of Delaware, Registrar of the United States Copyright Office, the Commissioner of Patents and Trademarks of the United States of America, and the empowered officials of all other governments to issue or transfer all Purchased IP to Assignee, as assignee of the entire right, title, and interest therein or otherwise as the Assignee may direct. Assignor, for no additional consideration, shall take all reasonable steps as may be necessary or reasonably requested by Assignee to effect the assignment and transfer of any Domain Name(s) included in the Purchased IP in accordance with the domain name transfer procedures of the applicable domain name registrar and registry, including (a) executing any requested domain name registrar transfer agreements or documents, assignments, lawful oaths, and other papers which Assignee may deem necessary or desirable and that Assignee prepares, delivers, registers, as applicable, at Assignee's sole cost and expense, (b) arranging for each Domain Name to be "unlocked" in preparation for transfer to Assignee, and (c) providing Assignee with the EPP domain authorization codes and any other authorization codes that Assignee may need to initiate the transfer of each Domain Name to Assignee.

8. Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of Assignor and Assignee and their respective successors and permitted assigns.

9. Governing Law. Sections 9.11 and 9.12 of the Purchase Agreement shall apply hereto *mutatis mutandis* and are incorporated herein by reference.

10. Notices. Any notice, request, or other document to be given hereunder to any party shall be given in the manner specified in Section 9.03 of the Purchase Agreement.

11. Amendments; Waivers. This Agreement may not be amended or modified except by an instrument in writing signed by, or on behalf of, Assignor and Assignee. Any waiver of rights hereunder must be set forth in writing. A waiver of any breach or failure to enforce any of

the terms or conditions of this Agreement shall not in any way affect, limit or waive any party's rights at any time to enforce strict compliance thereafter with every term or condition of this Agreement.

12. Entire Agreement. This Agreement, together with the Purchase Agreement, the Transaction Documents, and the other exhibits and documents referred to in the Purchase Agreement and the Transaction Documents, contains the entire understanding and agreement of the parties hereto with regard to the subject matter contained herein, and supersedes all prior agreements between or among the parties hereto regarding the same subject matter. This Agreement shall not be amended, modified or supplemented except by a written instrument signed by an authorized representative of each of the parties hereto.

13. Execution in Counterparts. This Agreement may be executed in two (2) or more counterparts, by original, facsimile or "portable document format" (".pdf") signature, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Signatures to this Agreement transmitted by facsimile, by email, or by any other electronic means intended to preserve the original graphic and pictorial appearance of this Agreement shall have the same effect as physical delivery of the paper document bearing the original signature.
