ASSIGNMENT OF INTELLECTUAL PROPERTY AGREEMENT

THIS ASSIGNMENT OF INTELLECTUAL PROPERTY AGREEMENT (“**Assignment**”) is entered into as of July 16, 2021, but effective as of December 31, 2019, by and between H2TRONICS, INC., a Texas corporation (“**H2TrOnics**”), H2T HOLDINGS, LLC, a Texas limited liability company (“**H2T Holdings**”), Franklin N. Lecrone, III, individually, in his capacity as the sole beneficial owner of H2T Holdings (“**Owner**” and, together with H2TrOnics and H2T Holdings, the “**Assignor**”), and AQUAPHOENIX SCIENTIFIC, INC., a Pennsylvania corporation (“**Assignee**”).

BACKGROUND:

Pursuant to a Stock Purchase Agreement dated on or about May 3, 2017, H2T Holdings purchased all of the stock of H2TrOnics. On or about March 27, 2018, H2T Holdings and H2TrOnics entered into an Agreement and Plan of Merger pursuant to which H2TrOnics was merged with and into H2T Holdings, with H2T Holdings being the surviving entity of the foregoing merger (the “**Merger**”) and, on or about the same date, the foregoing parties filed a Certificate of Merger with the Texas Secretary of State to effectuate the Merger. A copy of the Certificate of Merger is attached hereto as Exhibit A.

At the time of the Merger, H2TrOnics was the owner of certain intellectual property, including the trademarks identified on Schedule A (the “**Trademarks**”), the patents identified on Schedule B (the “**Patents**”), the copyrights identified on Schedule C (the “**Copyrights**”) and the domains listed on Schedule D (the “**Websites**” and, together collectively with the Trademarks, Patents and Copyrights, the “**Intellectual Property**”). By operation of law resulting from the Merger, H2T Holdings became the beneficial owner of the H2TrOnics Intellectual Property.

Pursuant to a Bill of Sale, Assignment and Assumption Agreement effective as of December 31, 2019 (the “**Bill of Sale**”), H2T Holdings assigned, transferred and conveyed to Assignee all of H2T Holdings’ assets, including, without limitation, all of the Intellectual Property. Owner desired to consolidate the operations of Assignor with and into Assignee, which is why he effected the Merger and executed the Bill of Sale. Accordingly, Assignor has elected to transfer all of its right, title, and interest in and to the Intellectual Property to Assignee.

AGREEMENT:

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, Assignor hereby irrevocably conveys, transfers and assigns unto Assignee all of Assignor’s right, title, and interest in and to the Intellectual Property as follows:

- (a) the Trademarks set forth on Schedule A hereto and all issuances, extensions, and renewals thereof, together with the goodwill of the business connected with the use of, and symbolized by, the Trademarks;
- (b) the Patents set forth on Schedule B hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, and renewals thereof;

- (c) the Copyrights set forth on Schedule C hereto and all issuances, extensions, and renewals thereof;
- (d) the Websites set forth in Schedule D hereto whether in the United States or any foreign jurisdiction, including all internet traffic to the Websites and all content on the Websites;
- (e) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;
- (f) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and
- (g) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

Assignor hereby warrants and represents to Assignee, its successors, legal representatives, and assigns, that, as of the effective date of this Assignment, Assignor is the sole beneficial owner of the entire unencumbered, right, title, and interest in and to the Intellectual Property; and that no other party has been granted any rights in the Intellectual Property by Assignor.

Assignor agrees that it shall execute and/or deliver any additional instrument, and shall take any additional steps, reasonably requested by Assignee in order to effect, evidence, perfect, or enforce Assignee's rights in and to the Intellectual Property.

This Assignment is made and shall be governed by and construed in accordance with the laws of the Commonwealth of Pennsylvania exclusive of any conflicts of law principle that would apply the law of another jurisdiction.

This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this Assignment delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.

This Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.
