TRADEMARK ASSIGNMENT

This TRADEMARK ASSIGNMENT (this "Assignment") is made effective as of July 30, 2021 ("Effective Date"), by and between Samsonite IP Holdings S. à r. l, a *société à responsabilité limitée* (private limited liability company) governed by the laws of the Grand-Duchy of Luxembourg ("Assignor"), and Speculative Product Design, LLC, a California limited liability company with an address of 177 Bovet Rd. Suite 200, San Mateo, California 94402 US (hereinafter, "Assignee"). Assignor and Assignee are referred to herein collectively as the "Parties" and each of them individually as a "Party." Capitalized terms not otherwise defined herein shall have the meaning set forth in the Agreement.

WHEREAS, Assignor and Assignee have entered into a Membership Interest and Asset Purchase Agreement dated as of July 30, 2021 (the "Agreement"); and

WHEREAS, in accordance with the Agreement, Assignor desires to convey, assign and transfer to Assignee, and Assignee desires to acquire and accept, all of Assignor's rights, titles and interests in, to, and under the trademark applications and registrations set forth on Schedule A hereto (the "Trademark Rights"), and any goodwill of the Business associated with and symbolized by said Trademark Rights.

NOW THEREFORE, in consideration of the foregoing premises and the mutual covenants and agreements contained herein and in the Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound, do hereby agree as follows:

All capitalized terms used but not otherwise defined in this Assignment shall have the meanings given to such terms in the Agreement.

Assignor hereby conveys, assigns and transfers to Assignee (and to Assignee's successors and assigns) "as is" and "where is", and Assignee hereby acquires and accepts any of such Assignor's rights, titles and interests in, to and under the Trademark Rights together with all benefits, privileges, causes of action, and remedies arising out of or relating to such Trademark Rights or the exploitation thereof, including, without limitation, the right to apply for and maintain any applications, registrations or renewals therefor, all rights to bring an action, whether at law or in equity, for infringement, dilution, or other violation of such Trademark Rights, against any third party, all rights to recover damages, profits and injunctive relief for all past, present or future infringement, dilution, or other violation of such Trademark Rights, and any goodwill of the Business associated with and symbolized by such Trademark Rights.

Assignor agrees to execute, acknowledge and deliver such assignments, transfers, consents, assumptions and other documents and instruments and take such other commercially reasonable actions as may reasonably be requested to more effectively assign, convey or transfer to or vest in the Assignee and/or its designees the Trademark Rights in accordance with and subject to the limits of the Agreement.

Nothing in this Assignment, express or implied, is intended to or shall be construed to modify, expand, supersede or limit in any way the terms, conditions or obligations of the Agreement. In the event that any provision of this Assignment shall be construed to conflict with a provision in the Agreement, the provision in the Agreement shall control.

This Assignment shall be effective as of the Effective Date.

This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, and together shall constitute one and the same assignment, it being understood that the parties hereto need not sign the same counterpart.

This Assignment shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to the conflicts of law principles or rules of such state, to the extent such principles or rules are not mandatorily applicable by statute and would permit or require the application of the laws of another jurisdiction.

Assignee hereby accepts this assignment of Trademarks Rights.
