INTELLECTUAL PROPERTY SECURITY AGREEMENT

THIS INTELLECTUAL PROPERTY SECURITY AGREEMENT is made as of September 29, 2021 (this “IP Security Agreement”), by **REACH MUSIC PUBLISHING, INC.**, a Virginia corporation (“Grantor”), in favor of **PINNACLE BANK**, as collateral and administrative agent (in such capacity, the “Agent”) for the Lenders (as defined below) from time to time party to the Loan Agreement (as defined below).

RECITALS

Pursuant to a Loan and Security Agreement dated as of the date hereof (as amended, amended and restated, modified, supplemented and restated from time to time, the “Loan Agreement”) among Grantor, the other Credit Parties party thereto from time to time, the financial institutions party thereto from time to time (the “Lenders”) and Agent, Lenders are providing financial accommodations to Grantor. To secure Grantor’s obligations to Lenders, Grantor granted Agent for the benefit of Lenders a Lien and security interest in substantially all of Grantor’s property and assets.

It is a condition precedent to Agent’s and Lenders’ making credit available to Grantor under the Loan Agreement and to make any loans or otherwise extend credit to Grantor under the Loan Documents (as such term is defined in the Loan Agreement), that Grantor execute and deliver to Agent an intellectual property security agreement; and

Grantor wishes to grant a security interest in favor of the Agent for the benefit of Lenders as herein provided.

AGREEMENT

NOW, THEREFORE, in consideration of the promises contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound, Grantor hereby represents, warrants, covenants and agrees with Agent, as follows:

1. **DEFINED TERMS.** When used in this IP Security Agreement the following terms shall have the following meanings (such meanings being equally applicable to both the singular and plural forms of the terms defined):

1.1 “Copyright License” means any written agreement in which Grantor now holds or hereafter acquires any right, title or interest, which agreement grants any right in or to any Copyright or Copyright registration (whether Grantor is the licensee or the licensor thereunder) including, without limitation, licenses pursuant to which Grantor has obtained the exclusive right to use a copyright owned by a third party, a sublicense to use a copyright, a distribution agreement regarding copyrighted works and the right to prepare for sale, sell or advertise for sale, all of the inventory now or hereafter owned by Grantor and now or hereafter covered by such license agreements.

1.2 “Copyrights” means all of the following in which Grantor now holds or hereafter acquires any right, title or interest: (a) all copyrights, whether registered or unregistered, held or existing pursuant to the laws of the United States, any State thereof or any other country; (b) registrations, applications and recordations in the United States Copyright Office or in any similar office or agency of the United States, any State thereof or any other country; (c) any continuations, renewals or extensions of any copyright; (d) any registrations to be issued in any pending applications; (e) any prior versions of works covered by copyright and all works based upon, derived from or incorporating such works; (f) any original embodiments of a work that are necessary for the manufacture or production of a copyrighted work including, without limitation, molds, master tapes, master film reels, master CDs, master DVDs, master disks or other master magnetic or electronic media; (g) any income, royalties, damages, claims and payments now and hereafter due and/or payable with respect to copyrights, including, without limitation, damages, claims and recoveries for past, present or future infringement; (h) any rights to sue for past, present and future infringements of any copyright; and (i) any other rights corresponding to any of the foregoing rights throughout the world.

1.8 “Patent License” means any written agreement in which Grantor now holds or hereafter acquires any right, title or interest, which agreement grants any right in or to any Patent (whether Grantor is the licensee or the licensor thereunder) including licenses pursuant to which Grantor has obtained the exclusive right to use a patent owned by a third party, a sublicense to use a patent, a distribution agreement regarding one or more patented products or processes and the right to prepare for sale, sell or advertise for sale, all of the inventory now or hereafter owned by Grantor and now or hereafter covered by such license agreements.

1.9 “Patents” means all of the following in which Grantor now holds or hereafter acquires any right, title or interest: (a) all United States or foreign patents (including utility, design and plant patents), all registrations and recordations thereof and all applications for United States or foreign patents, including registrations, recordations and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any State thereof or any other country; (b) all reissues, divisions, continuations, renewals, continuations in part or extensions of any patent; (c) all petty patents, divisionals and patents of

1.10 “Secured Obligations” means solely to the extent arising under the Loan Agreement, any other Loan Document or pursuant to this IP Security Agreement, all Loans, all advances, debts, liabilities, obligations, covenants and duties owing by any Grantor to Agent or any Lender of every kind and description (whether or not evidenced by any note or other instrument and whether or not for the payment of money or the performance or non-performance of any act), direct or indirect, absolute or contingent, due or to become due, contractual or tortious, liquidated or unliquidated, whether existing by operation of law or otherwise now existing or hereafter arising, including all interest (including interest accruing at the then applicable rate provided in the Loan Agreement after the maturity of the Loans and interest accruing at the then applicable rate provided in the Loan Agreement after the filing of any petition in bankruptcy, or the commencement of any insolvency, reorganization or like proceeding, whether or not a claim for post-filing or post-petition interest is allowed in such proceeding).

1.11 “Trademark License” means any written agreement in which Grantor now holds or hereafter acquires any right, title or interest, which agreement grants any license right in and to any Trademark (whether Grantor is the licensee or the licensor thereunder) including licenses pursuant to which Grantor has obtained the exclusive right to use a trademark owned by a third party, a sublicense to use a trademark, a distribution agreement relating to goods or services covered by one or more trademarks and the right to prepare for sale, sell or advertise for sale, all of the inventory now or hereafter owned by Grantor and now or hereafter covered by such license agreements.

1.12 “Trademarks” means any of the following in which Grantor now holds or hereafter acquires any right, title or interest: (a) any United States or foreign trademarks, trade names, corporate names, company names, business names, trade styles, trade dress, service marks, logos, other source or business identifiers, designs and general intangibles of like nature, now existing or hereafter adopted or acquired, all registrations and recordations thereof and any applications in connection therewith, including registrations, recordations and applications in the United States Patent and Trademark Office or in any similar office or agency of the United States, any State thereof or any other country (collectively, the “Marks”); (b) any reissues, extensions or renewals of any Marks, (c) the goodwill of the business symbolized by or associated with the Marks, (d) all domain names incorporating the Marks, (e) all means of manufacturing goods or offering services covered by the Marks, including trade secrets, formulas, recipes, customer lists, manufacturing processes, molds, designs, plans and prototypes, (f) any income, royalties, damages, claims and payments now and hereafter due and/or payable with respect to the Marks, including payments under all Trademark Licenses and damages, claims, payments and recoveries for past, present or future infringement, and (g) any rights to sue for past, present and future infringements of the Marks.

1.13 “UCC” means the Uniform Commercial Code as the same may, from time to time, be in effect in the State of New York; provided, however, in the event that, by reason of mandatory provisions of law, any or all of the attachment, perfection or priority of Agent’s security interest in any Collateral is governed by the Uniform Commercial Code as in effect in a jurisdiction other than the State of New York, the term “UCC” shall mean the Uniform Commercial Code as in effect in such other jurisdiction for purposes of the provisions hereof relating to such attachment, perfection or priority and for purposes of definitions related to such provisions.

1.14 In addition, the following terms shall be defined terms having the meaning set forth for such terms in the UCC: “accounts,” “account debtor,” “deposit account,” “general intangibles,” and “proceeds”. Each of the foregoing defined terms shall include all of such items now owned or existing, or hereafter arising or acquired by Grantor.

1.15 All capitalized terms used herein and not otherwise defined herein shall have the respective meanings given to them in the Loan Agreement.

2. GRANT OF SECURITY INTEREST. As collateral security for the prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of all the Secured Obligations and in order to induce Agent and Lenders to enter into the Loan Agreement, Grantor hereby grants to Agent for the benefit of Lenders a security interest in all of Grantor’s right, title and interest, if any, in, to and under the following, whether now owned or existing or hereafter arising or acquired and wheresoever located (collectively, the “IP Collateral”):

2.1 All Copyrights, Patents and Trademarks including the Copyrights, Patents and Trademarks that are the subject of any registration or application listed in Schedule A in which the Grantor has, in whole or in part, an ownership interest, administration interest or income participation interest; all Licenses, and any presently pending Litigation with respect thereto;

2.2 All accounts, contract rights and general intangibles arising under or relating to each and every License (including, without limitation, (i) all monies due and to become due under any License, (ii) any damages arising out of or for breach or default in respect of any such License, (iii) all other amounts from time to time paid or payable under or in connection with any such License, and (iv) the right of Grantor to terminate any such License or to perform and to exercise all remedies thereunder); and

2.3 To the extent not otherwise included, all proceeds of each of the foregoing and all accessions to, substitutions and replacements for and rents, profits and products of each of the foregoing.

Notwithstanding the foregoing, the IP Collateral shall not include any Excluded Property.

3. RIGHTS OF SECURED PARTY; COLLECTION OF ACCOUNTS.

3.1 Notwithstanding anything contained in this IP Security Agreement to the contrary, Grantor expressly agrees that it shall remain liable under each of its Licenses to observe and perform in all material respects all the conditions and obligations to be observed and performed by it thereunder and that it shall perform all of its duties and obligations thereunder, all in

accordance with and pursuant to the terms and provisions of each such License. Agent shall not have any obligation or liability under any License by reason of or arising out of this IP Security Agreement or the granting to Agent for the benefit of Lenders of a Lien therein or the receipt by Agent of any payment relating to any License pursuant hereto, nor shall Agent be required or obligated in any manner to perform or fulfill any of the obligations of Grantor under or pursuant to any License, or to make any payment, or to make any inquiry as to the nature or the sufficiency of any payment received by it or the sufficiency of any performance by any party under any License, or to present or file any claim, or to take any action to collect or enforce any performance or the payment of any amounts which may have been assigned to it or to which it may be entitled at any time or times. Grantor agrees that any rights granted under this IP Security Agreement to Agent for the benefit of Lenders with respect to all of the IP Collateral shall be without any liability for royalties or other related charges from Agent to Grantor.

3.2 Agent authorizes Grantor to, at any time no Event of Default exists, collect its accounts related to the sale, license, settlement, judgment or other disposition of, or otherwise arising from, any of the IP Collateral, provided that such collection is performed in a commercially reasonable manner, and Agent may, upon the occurrence and during the continuation of any Event of Default and with prior written notice to Grantor, limit or terminate said authority.

3.3 Agent may at any time, upon the occurrence and during the continuation of any Event of Default, with prior written notice to Grantor of its intention to do so, notify any account debtors of Grantor or any parties to the Licenses of Grantor that the accounts and the right, title and interest of Grantor in and under such Licenses have been assigned to Agent for the benefit of Lenders and that payments shall be made directly to Agent. Promptly after receipt of Agent's written request therefor at any time after the occurrence and during the continuation of an Event of Default, Grantor shall so notify such account debtors and parties to such Licenses. Upon the occurrence and during the continuation of any Event of Default, Agent may, in its name or in the name of others, communicate with such account debtors and parties to such Licenses to verify with such parties, to Agent's reasonable satisfaction, the existence, amount and terms of any such accounts or Licenses.

4. COVENANTS. Grantor covenants and agrees with Agent that from and after the date of this IP Security Agreement and until the Secured Obligations have been performed and paid in full (other than Secured Obligations that constitute contingent indemnification obligations that expressly survive repayment by their terms and that shall continue on an unsecured basis):

4.1 **Disposition of IP Collateral.** Grantor shall not sell, lease, assign, transfer or otherwise dispose of any of the IP Collateral, or contract to do so (which restriction shall not, for the avoidance of doubt, otherwise affect the ability of Grantor to license the IP Collateral in the ordinary course of business so long as such licensing is not a transaction in the nature of a disposition), except as permitted by the Loan Agreement.

4.2 **Limitation on Liens on IP Collateral.** Grantor shall not, directly or indirectly, create, permit or suffer to exist, and shall defend the IP Collateral against and take such other action as is necessary to remove, any Lien on the IP Collateral other than Permitted Liens.

4.3 Registration and Maintenance of Intellectual Property Rights. Except as could not reasonably be expected to have a materially adverse effect on the value or enforceability of, or any rights of Grantor or Agent in, any IP Collateral, Grantor shall: (i) use commercially reasonable efforts to prosecute any Patent, Trademark or Copyright for use in the United States pending as of the date hereof or thereafter, (ii) promptly make applications for, register or cause to be registered in the United States (to the extent not already registered and consistent with good faith business judgment) any such Copyright, Patent or Trademark or any Copyright License, Patent License or Trademark License related thereto, which is (a) owned or held by Grantor or (b) is individually or in the aggregate, material to the conduct of Grantor's business, with the United States Copyright Office or Patent and Trademark Office, as applicable, including, without limitation, in all such cases the filing and payment of maintenance, registration and/or renewal fees, the filing of applications for renewal, affidavits of use, affidavits of noncontestability, the filing and diligent prosecution of opposition, interference and cancellation proceedings, and promptly responding to all United States Copyright Office or Patent and Trademark Office requests and inquiries. Except as could not reasonably be expected to have a Material Adverse Effect on the value or enforceability of, or any rights of Grantor or Agent in, any IP Collateral, Grantor also agrees to take commercially reasonable steps to preserve and maintain all rights in the IP Collateral. Any reasonable and documented out-of-pocket expenses incurred in connection with prosecution, registration and maintenance shall be borne by Grantor. Except as could not reasonably be expected to have a Material Adverse Effect on the value or enforceability of, or any rights of Grantor or Agent in, any IP Collateral, Grantor shall not, without Agent's prior written consent, which consent shall not be unreasonably withheld or denied, abandon any rights in or fail to pay any maintenance or renewal fee for any Patent, Trademark or Copyright owned or held by Grantor or breach, terminate, fail to renew or extend, or fail to perform any duties or obligations for any License held by Grantor. If Grantor fails to comply with any of the foregoing provisions of this IP Security Agreement, Agent shall have the right (but shall not be obligated) to do so on behalf of Grantor to the extent permitted by law, but at Grantor's expense, and Grantor hereby agrees to reimburse Agent in full for all reasonable and documented out-of-pocket expenses, including the reasonable fees and disbursements of counsel incurred by Agent in procuring, protecting, defending and maintaining the IP Collateral. In the event that Grantor shall fail to pay when due any fees required to be paid by it hereunder, or shall fail to comply with any other duty under this IP Security Agreement, Agent may, but shall not be required to, pay, satisfy, discharge or bond the same for the account of Grantor, and all monies so paid out shall be Secured Obligations of Grantor repayable on demand, together with interest at the rate in effect pursuant to the Loan Agreement at such time.

4.4 Further Assurances; Pledge of Instruments. At any time and from time to time, upon the written request of Agent, and at the sole expense of Grantor, Grantor shall promptly and duly execute and deliver any and all such further instruments and documents and take such further action as Agent may reasonably deem necessary to obtain the full benefits of this IP Security Agreement.

4.5 Intent-to-Use Trademark Applications. To the extent that any of the Trademarks consist of intent-to-use based trademark applications, if at any time Grantor commences using such Trademark in its business, Grantor shall take such actions as may be reasonably requested by Agent to convert, within the time provided by the United States Patent and Trademark Office, such intent-to-use trademark application to a use-based application.

5. **RIGHTS AND REMEDIES UPON DEFAULT.** If any Event of Default shall occur and be continuing, Agent may exercise in addition to all other rights and remedies granted to it under this IP Security Agreement and under any other instrument or agreement securing, evidencing or relating to the Secured Obligations, all rights and remedies of a secured party under the UCC.

6. **AGENT'S RIGHT TO SUE.** From and after the occurrence and during continuation of an Event of Default, Agent shall have a right, but shall in no way be obligated, to bring suit for past, present and future damages in its own name and for its own benefit to enforce the Copyrights, Patents, Trademarks and Licenses, and if Agent commences any such suit, Grantor shall, at the written request of Agent, use commercially reasonable efforts to do any and all lawful acts and execute any and all proper documents required by Agent in aid of such enforcement.

7. **LIMITATION ON AGENT'S DUTY IN RESPECT OF THE IP COLLATERAL.** Agent shall deal with the IP Collateral in the same manner as it deals with similar property for its own account. Agent shall be deemed to have acted reasonably in the custody, preservation and disposition of any of the IP Collateral if it takes such action as Grantor requests in writing, but failure of Agent to comply with any such request shall not in itself be deemed a failure to act reasonably and no failure of Agent to do any act not so requested shall be deemed a failure to act reasonably.

8. **MISCELLANEOUS.**

8.1 **No Waiver; Cumulative Remedies.**

8.1.1 Neither party shall by any act, delay, omission or otherwise be deemed to have waived any of its rights or remedies hereunder, nor shall any single or partial exercise of any right or remedy hereunder on any one occasion preclude the further exercise thereof or the exercise of any other right or remedy.

8.1.2 The rights and remedies hereunder provided are cumulative and may be exercised singly or concurrently and are not exclusive of any rights and remedies provided by law. Grantor acknowledges and agrees that this IP Security Agreement is not intended to limit or restrict in any way the rights and remedies of Agent but rather is intended to facilitate the exercise of such rights and remedies.

8.1.3 None of the terms or provisions of this IP Security Agreement may be waived, altered, modified or amended except by an instrument in writing, duly executed by Grantor and Agent.

8.2 **Releases.**

8.2.1 This IP Security Agreement is made for collateral purposes only. Subject to Section 8.2.2 below, at such time as the Secured Obligations shall have been paid and performed in full (other than Secured Obligations that constitute contingent indemnification obligations that expressly survive repayment by their terms and that shall continue on an unsecured basis) and Grantor has no further obligations under or with respect to the Loan Documents, the IP Collateral shall be released from the Liens created hereby, and this IP Security Agreement and all

obligations of Agent and Grantor hereunder shall automatically terminate, all without delivery of any instrument or performance of any act by any party, and all rights to the IP Collateral shall revert to Grantor. At the written request and sole expense of Grantor following any such termination, Agent shall deliver to Grantor all termination statements, releases or other instruments as may be necessary or proper to re-vest in Grantor (without recourse to or warranty by Agent, except for encumbrances created by Agent, provided that no such recourse or warranty shall apply to any IP Collateral sold or otherwise disposed of by Agent pursuant to this IP Security Agreement) full title to the IP Collateral granted in this IP Security Agreement, subject to any acceptance or disposition of IP Collateral which may have been made by Agent pursuant to this IP Security Agreement.

8.2.2 This IP Security Agreement and the security interests granted herein shall remain in full force and effect and continue to be effective if at any time payment and performance of the Secured Obligations, or any part thereof, is, pursuant to applicable law, avoided, rescinded or reduced in amount, or must otherwise be restored or returned by any obligee of the Secured Obligations, whether as a “voidable preference,” “fraudulent conveyance” or otherwise, all as though such payment or performance had not been made. In the event that any payment, or any part thereof, is voided, rescinded, reduced, restored or returned, the Secured Obligations and the security interests granted herein shall be reinstated and the Secured Obligations shall be deemed reduced only by such amount paid and not so voided, rescinded, reduced, restored or returned. The provisions of this Section 8.2.2 shall survive repayment of all of the Secured Obligations, and the termination of this IP Security Agreement in any manner.

8.3 **Successors and Assigns.** This IP Security Agreement shall be binding on Grantor, Agent, and each of their respective successors and permitted assigns. The right of each of Grantor and Agent to assign any rights or obligations under, or any interest in, this IP Security Agreement shall correspond to such party’s rights of assignment under the Loan Agreement, as stated therein.

8.4 **Notices.** All notifications and other communications permitted or required under this IP Security Agreement shall be in writing and shall be delivered in accordance with the terms of the Loan Agreement.

8.5 **Counterparts; Electronic Transmission.** This IP Security Agreement may be executed in any number of separate counterparts, each of which, when so executed, shall be deemed an original, and all of said counterparts taken together shall be deemed to constitute one and the same instrument.

8.6 **Severability; Conflict.** If any provision of this IP Security Agreement is held to be unenforceable under applicable law for any reason, it shall be adjusted, if possible, rather than voided in order to achieve the intent of the parties to the extent possible. In any event, all other provisions of this IP Security Agreement shall be deemed valid and enforceable to the fullest extent possible under applicable law. Any conflict between the terms of this IP Security Agreement and the Loan Agreement shall be resolved in favor of the Loan Agreement.

8.7 **Governing Law; Consent to Jurisdiction.** THIS IP SECURITY AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH,

THE LAWS OF THE STATE OF NEW YORK. Each party agrees that any suit for the enforcement of this IP Security Agreement may be brought in the courts of the State of New York sitting in New York County, or any federal court sitting therein, and consents to the non-exclusive jurisdiction of such courts and to service of process in any such suit being made upon such party, by mail, at the address specified on the signature page of this IP Security Agreement, or at any address specified for such party in any Loan Document. Each party hereby waives any objection that it may now or hereafter have to the venue of any such suit or any such court or that such suit is brought in an inconvenient court.

8.8 Waiver of Jury Trial. EACH PARTY HERETO WAIVES ITS RIGHT TO A JURY TRIAL WITH RESPECT TO ANY ACTION OR CLAIM ARISING OUT OF ANY DISPUTE IN CONNECTION WITH THIS IP SECURITY AGREEMENT, ANY RIGHTS OR OBLIGATIONS HEREUNDER OR THE PERFORMANCE OF ANY SUCH RIGHTS OR OBLIGATIONS. Except as prohibited by law, each party waives any right which it may have to claim or recover in any litigation referred to in the preceding sentence any special, exemplary, punitive or consequential damages or any damages other than, or in addition to, actual damages. Each party (i) certifies that neither the other party nor any representative, agent or attorney of the other party has represented expressly or otherwise, that such party would not, in the event of litigation, seek to enforce the foregoing waivers and (ii) acknowledges that, in entering into the Loan Agreement and the other Loan Documents to which the other party is a party, such party is relying upon, among other things, the waivers and certifications contained in this Section 8.8.

8.9 Advice of Counsel. Grantor and Agent each represent that their respective attorneys have reviewed this IP Security Agreement and that they have discussed this IP Security Agreement with their attorneys.

8.10 Section and Heading Titles. The section and heading titles are for convenience and reference only and shall not affect in any way the interpretation of any of the provisions of this IP Security Agreement.

8.11 Usage. For purposes of this IP Security Agreement: (i) the singular includes the plural and the plural includes the singular; (ii) the words “and” and “or” are used in the conjunctive or disjunctive as the sense and circumstances may require; (iii) any form of the word “include” shall be deemed to be followed by the words “without limitation”; and (iv) whenever a party is permitted or restricted from taking any action hereunder, such party shall also be permitted or restricted from directly or indirectly authorizing such action.

(Remainder of page intentionally left blank)

IN WITNESS WHEREOF, each of the parties hereto has caused this IP Security Agreement to be executed and delivered by its duly authorized officer on the date first set forth above.
