INTELLECTUAL PROPERTY ASSIGNMENT

THIS ASSIGNMENT OF INTELLECTUAL PROPERTY (“*Assignment Agreement*”) is made and entered as of August 6, 2021 (the “*Effective Date*”), by and between Luby's Fuddruckers Restaurants, LLC, a Texas limited liability company (“*Assignor*”), and Black Titan Franchise Systems LLC, a North Carolina limited liability company (“*Assignee*”). Assignor and Assignee are each referred to herein individually as a “*Party*” and collectively, as the “*Parties*.”

WHEREAS, pursuant to the terms and conditions of the Asset Purchase Agreement dated as of June 17, 2021 by and between Assignor and Assignee (the “*Purchase Agreement*”), Assignor has agreed to sell, assign, transfer, convey and deliver to Assignee, and Assignee has agreed to purchase, all of Assignor's right, title and interest in and to the intellectual property identified herein in paragraph 2 and set forth in the schedules attached hereto (collectively, the “*Assigned Property*”).

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and as more fully set forth in the Purchase Agreement and subject to the terms and conditions therein, the Parties, intending to be legally bound, hereby agree as follows:

1. Definitions. Capitalized terms used but not defined in this Assignment Agreement shall have the respective meanings ascribed to them in the Purchase Agreement.

2. Assignment. Effective as of the Closing Date, Assignor hereby irrevocably sells, assigns, transfers, conveys and delivers to Assignee, all of Assignor's legal and equitable right, title, and interest, of whatever nature throughout the world, in and to the Assigned Property and all registrations and applications for registrations of the Assigned Property, including:

(a) all United States, state and foreign trademarks and service marks, logos, designs, slogans, product and service names, product descriptions, trade dress, trade names, corporate names and other trade designations, whether the foregoing are registered or unregistered, and all United States, state and foreign registrations and applications to register the foregoing, identified in Schedule A attached hereto (the “Trademarks”), together with all goodwill symbolized by the Trademarks;

(b) all internet domain names and social media handles, account or user names, whether or not trademarks, all associated web addresses, URLs, websites and web pages, social media accounts and pages, and all content and data thereon or relating thereto, whether or not copyrights, identified in Schedule B attached hereto (the “Domain Names”);

(c) all United States and foreign copyrights and maskwork rights, whether registered or unregistered identified in Schedule C attached hereto (the “Copyrights”);

(d) all recipes necessary for the operation of the Business (the “Recipes”);

(e) all trade secret rights and other similar rights in confidential ideas, know-how, concepts, methods, processes, formulae, reports, data, customer lists, mailing lists, business plans, and other proprietary information, all of which derive value, monetary or otherwise, from being maintained in confidence and not known to Assignor's competitors;

(f) all of Assignor's right to file patent, trademark and copyright applications in the United States and throughout the world for the Assigned Property;

(g) all of Assignor's rights in the Assigned Property to (i) maintain all applications, registrations, renewals and extensions thereof and (ii) commercialize, exploit, grant licenses or other interests therein; and

(h) all rights to sue and prosecute for past, present and future infringement, misappropriation or other violation of rights related to the Assigned Property, and all rights corresponding thereto throughout the world for the Assigned Property rights assigned therein.

3. Authorization. Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States, the United States Copyright Office and the corresponding entities or agencies in any applicable foreign jurisdictions, whose duty is to issue trademark registrations, or other evidence or forms of industrial property protection on applications with respect to the Assigned Property, to issue the same to Assignee and to record Assignee as owner of the Trademarks, as assignee of the entire right, title and interest in, to and under the same, for the sole use and enjoyment of Assignee, its successors, assigns or other legal representatives.

4. Further Assurances. Assignor shall provide Assignee, its successors and assigns with such assistance as Assignee may reasonably request, and at Assignee's expense, to record Assignee as assignee of the Assigned Property, including, without limitation, upon request by Assignee by executing and if necessary, using commercially reasonable efforts to request current or former employees or contractors to execute, as applicable, all appropriate applications and any further recordable form assignments or other documents or instruments. Without limiting the foregoing, Assignor will, at Assignee's request and Assignee's sole cost, do all things necessary, proper or advisable to reasonably assist Assignee in transferring all Domain Names assigned herein, including as applicable, placing each of the Domain Names in "unlocked" status and providing to Assignee the Internet domain name registrars' transfer authorization codes for each of the Domain Names and any other information reasonably required to effectuate the transfer of Assignor's right, title and interest in the Domain Names to Assignee.

5. No Third-Party Beneficiaries. Nothing in this instrument, expressed or implied, is intended or shall be construed to confer upon or give to any person, firm, corporation or other entity, other than Assignee, Assignor and each of their respective successors and assigns, any remedy or claim under or by reason of this instrument or any agreement, term, covenant or condition hereof, and all of the agreements, terms, covenants and conditions contained in this instrument shall be for the sole and exclusive benefit of Assignee, Assignor and their respective successors and assigns.

6. No Additional Representations. This Assignment Agreement is subject in all respects to the provisions of the Purchase Agreement. This Assignment Agreement shall not be deemed to defeat, limit, alter, impair, enhance or enlarge any right, obligation, liability, claim or remedy created by the Purchase Agreement or any ancillary agreement thereto. In the event of any conflict or inconsistency between the terms and conditions set forth in this Assignment Agreement and the Purchase Agreement, the terms and conditions set forth in the Purchase Agreement shall control.

7. Modification. This Assignment Agreement may not be modified except by a writing executed by all the Parties hereto.

8. Assignment. The terms of this Assignment Agreement shall be binding upon, inure to the benefit of, and be enforceable by each of the Parties hereto and each of their respective successors and permitted assigns.

9. Governing Law. This Assignment Agreement and the legal relations among the parties hereto shall be governed by and construed in accordance with the laws of the State of New York (without regard to the laws of conflict that might otherwise apply) as to all matters.

10. Headings. The paragraph headings in this Assignment Agreement are for convenience only and such headings form no part of this Assignment Agreement and shall not affect its interpretation.

11. Filing. Assignor hereby agrees that this Assignment Agreement may be recorded with the United States Patent and Trademark Office and any other office deemed applicable by Assignee, and, accordingly, that Assignee will be reflected as the successor in title to the Assigned Property and all applications and registrations therefore.

IN WITNESS WHEREOF, the Assignment Agreement has been duly executed and delivered by the Parties as of the date set forth above.
