INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (this “Assignment”) is entered into as of December 1, 2021 by **Supreme Security Systems, Inc.**, a New Jersey corporation (“Assignor”) to **Securitas Electronic Security, Inc.**, a Delaware corporation (“Assignee”).

WHEREAS, this Assignment is entered into pursuant to that certain Asset Purchase Agreement, dated December 1, 2021, by and among Assignee, Assignor, and the controlling shareholders of the Assignor described therein (the “Purchase Agreement”). Capitalized terms used and not otherwise defined herein shall have the meanings given to such terms in the Purchase Agreement;

WHEREAS, Assignor is the owner of the Intellectual Property Assets, as defined in the Purchase Agreement and set forth and described in **Exhibit A**, attached hereto and incorporated by reference herein; (collectively, the “Transferred IP”); and

WHEREAS, Assignor desires to convey, transfer, assign, deliver, and contribute to Assignee all of its right, title, and interest in and to the Transferred IP and Assignee desires to acquire all of Assignor’s right, title and interest in and to the Transferred IP.

NOW, THEREFORE, in consideration of the transactions contemplated by the Purchase Agreement, the mutual covenants contained herein and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignor hereby irrevocably conveys, transfers, assigns, delivers, and contributes to Assignee: (i) all of Assignor’s right, title, and interest of whatever kind in and to the Transferred IP in the United States and all jurisdictions outside the United States (including, without limitation, the right to obtain renewals, reissues and extension of any registrations included in the Transferred IP, the right to apply for patent and trademark registrations within or outside the United States based in whole or in part upon the Transferred IP, and any priority right that may arise for the Transferred IP), (ii) all goodwill of the business connected with and symbolized by the Transferred IP and (iii) all rights to sue for and recover damages and profits based on any past, present or future infringement and/or dilution of any of Assignor’s rights in or to the Transferred IP or injury to the goodwill associated with the Transferred IP, whether known or unknown, the same to be held and enjoyed by Assignee as fully and entirely as said interest could have been held and enjoyed by Assignor had this Assignment not been made.

2. Assignor hereby covenants that it shall do, execute and deliver, or will cause to be done, executed and delivered, any and all such further acts, transfers, conveyances, powers of attorneys, assurances and instruments that Assignee may reasonably request in order to more fully effectuate Assignor’s sale and assignment of the Transferred IP to Assignee and the vesting of title to the Transferred IP in Assignee as set forth herein.

3. Assignor irrevocably authorizes the Commissioner of Patents and Trademarks of the United States and other empowered officials of the United States Patent and Trademark Office and in any applicable jurisdictions outside the United States to record the transfer of the

registrations and/or applications for registration set forth on Exhibit A to Assignee as assignee of Assignor's entire right, title, and interest therein, upon request by Assignee.

4. Assignor shall, at any time and from time to time after the date hereof, upon the reasonable request of Assignee, execute, acknowledge and deliver to Assignee all such further deeds, assignments, transfers, conveyances, powers of attorney and assurances, and take all such further actions, as Assignee deems reasonably necessary to give effect to the transactions contemplated by this Assignment. In the event Assignor does not promptly take such action as reasonably requested by Assignee, Assignor shall be deemed to have granted to Assignee as its true and lawful attorney-in-fact and agent with full power of substitution and reconstitution for him and in his name, place and stead in any and all capacities to execute in the name of Assignor any and all such further reasonable actions as Assignee deems necessary or desirable to give effect to the transactions contemplated by this Assignment, granting unto said attorney-in-fact and agent and full power and authority to do and perform each and every reasonable action required or necessary to be done to give effect to the transactions contemplated by this Assignment, as fully as Assignor might or could do in person, hereby ratifying and confirming all that said attorney-in-fact and agent or its substitute or substitutes, may lawfully do or cause to be done by thereof.

5. Nothing in this Assignment is intended to modify, amend or alter in any respect any of the rights, obligations, covenants, agreements, representations or warranties of the parties under the Purchase Agreement, which will remain in full force and effect notwithstanding the execution and delivery of this Assignment. This Assignment is intended only to effect the transfer and assignment of the Transferred IP by Assignor to Assignee, as contemplated in the Purchase Agreement.

6. This Assignment shall be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns under the Purchase Agreement. Further, nothing set forth herein shall be deemed to constitute any person or entity as a third party beneficiary of this Assignment.

7. This Assignment shall be governed by and construed in accordance with the internal laws of the State of New Jersey without giving effect to any choice or conflict of law provision or rule (whether of the State of New Jersey or any other jurisdiction) that would cause the application of laws of any jurisdiction other than those of the State of New Jersey.

8. This Assignment may be executed and delivered in two or more counterparts (including by facsimile or electronically with a scanned copy), each of which shall be deemed an original, but all of which, when taken together, shall constitute one and the same instrument.
