INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement (this “Agreement”) is dated as of December 9, 2021 between MPUSA, LLC, a Delaware limited liability company (“Mission”), MPCG Holdings LLC, a Florida limited liability company (“MPCG”, together with Mission and each other Person party hereto as a grantor from time to time, collectively, “Grantors”), and STAR MOUNTAIN DIVERSIFIED CREDIT INCOME FUND III, LP, as agent for the Lenders (as defined below) (in such capacity, together with its successors and assigns, “Agent”).

WHEREAS, pursuant to that certain Term Loan and Security Agreement, dated as of the date hereof (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, including all exhibits and schedules thereto, the “Loan Agreement”) among Mission, MPCG (collectively with Mission and each other Person joined as a party thereto as a borrower in accordance with Section 6.12 thereof, all of their respective permitted successors and assigns, “Borrowers”, and each individually, a “Borrower”), each other Person from time to time joined as a party thereto as a guarantor or who may hereafter guarantee payment or performance of the whole or any part of the Obligations, and all of their respective permitted successors and assigns (“Guarantors”), the financial institutions which are now or which hereafter become a party thereto as lenders (collectively, the “Lenders”, and each individually a “Lender”) and Agent, the Lenders agreed to make certain financial accommodations available to Borrowers from time to time pursuant to the terms and conditions thereof; and

WHEREAS, pursuant to the Loan Agreement, each Grantor has granted to Agent a lien and security interest in substantially all of its assets to secure the Obligations; and

WHEREAS, each Grantor has agreed to execute and deliver this Agreement and to have a copy of this Agreement filed with the United States Patent and Trademark Office and/or the United States Copyright Office (as applicable) in order to perfect and/or protect all of Agent’s Liens in the Intellectual Property of each Grantor.

**NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees as follows:**

1. DEFINED TERMS. All capitalized terms used but not otherwise defined herein have the meanings given to them in the Loan Agreement.

2. GRANT AND REAFFIRMATION OF SECURITY INTEREST. To secure the prompt payment and performance to Agent of the Obligations under the Loan Agreement, each Grantor hereby collaterally assigns, pledges and grants to Agent for its benefit and for the ratable benefit of Revolving Agent and each Lender, a continuing security interest in and to and Lien on all of each Grantor’s Collateral, including all right, title and interest of each Grantor in, to and under the following, whether now existing or hereafter arising or created and whether now owned or hereafter acquired and wherever located (collectively, the “IP Collateral”):

(a) All of such Grantor’s (i) copyrights, copyright registrations and recordings thereof and all applications in connection therewith including those listed on Schedule 1, (ii) income, license fees, royalties, damages, and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past, present, or future infringements thereof, (iii) the

right to sue for past, present, and future infringements thereof, and (iv) all of such Grantor's rights corresponding thereto throughout the world (all of the foregoing, collectively, the "Copyrights");

(b) All of such Grantor's patents and patent applications, including (i) the patents and patent applications listed on Schedule 2, (ii) all continuations, divisionals, continuations-in-part, re-examinations, reissues, and renewals thereof and improvements thereon, (iii) all income, royalties, damages and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past, present, or future infringements thereof, (iv) the right to sue for past, present, and future infringements thereof, and (v) all of such Grantor's rights corresponding thereto throughout the world (collectively, the "Patents");

(c) All of such Grantor's trademarks, trade names, registered trademarks, trademark applications, service marks, registered service marks and service mark applications, including (i) the trade names, registered trademarks, trademark applications, registered service marks and service mark applications listed on Schedule 3, (ii) all renewals thereof, (iii) all income, royalties, damages and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past or future infringements or dilutions thereof, (iv) the right to sue for past, present and future infringements and dilutions thereof, (v) the goodwill of such Grantor's business symbolized by the foregoing or connected therewith, and (vi) all of such Grantor's rights corresponding thereto throughout the world (collectively, the "Trademarks"); provided that no security interest shall be granted in United States intent-to-use trademark applications, prior to the filing and acceptance of a "Statement of Use" or an "Amendment to Allege Use" with respect thereto, solely to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications or any registrations that issue therefrom under applicable federal law), and all reissues, continuations or extensions of the foregoing (as applicable); and

(d) all products and proceeds of the foregoing, including without limitation any claim by such Grantor against third parties for any infringement of any Intellectual Property.

Notwithstanding anything to the contrary contained in the foregoing clauses (a) through (d), the security interest created hereby shall not extend to, and the term "IP Collateral" shall not include, (i) any license, lease, contract or agreement to which such Grantor is a party and all software or related goods and/or databases licensed or provided thereunder, to the extent, but only to the extent, that such a grant would, under the terms of such license, lease contract or agreement, result in a breach of the terms of, or constitute a default under, such license, lease, contract or agreement (other than to the extent that any such term would be rendered ineffective pursuant to 9-406, 9-407 or 9-408 of the Uniform Commercial Code or other Applicable Law) (collectively, the "Specified Assets"), provided, however, that, upon Agent's reasonable request, such Grantor will use commercially reasonable efforts to obtain consent to the granting of a security interest in the Specified Assets to Agent (to the extent such prohibition is not otherwise unenforceable pursuant to the provisions of Article 9 of the UCC) and, if such consent is obtained, the lease, license or other agreement shall thereafter constitute "IP Collateral" hereunder and the security interest created hereunder shall extend to such lease, license or other agreement, in each case to the extent not rendered unenforceable pursuant to the applicable provisions of the UCC or other applicable law and so long as the applicable provision giving rise to such violation or invalidity or such right of termination was not incurred in anticipation of the entering

into of the Loan Agreement, or (ii) any rights or property, including, without limitation, any intent-to-use trademark applications, to the extent that any valid and enforceable law or regulation applicable to such rights or property prohibits the creation of a security interest in such rights or property or would otherwise result in a material loss of rights from the creation of such security interest therein (other than to the extent that any such term would be rendered ineffective pursuant to 9-406, 9-407 or 9-408 of the Uniform Commercial Code or other Applicable Law); provided, that, with respect to each of the foregoing clauses (i)–(ii), immediately upon the ineffectiveness, lapse or termination of any such restriction, the Collateral shall include, and such Credit Party shall be deemed to have granted a security interest in, all such rights and interests or other assets, as the case may be, as if such provision had never been in effect.

3. SECURITY FOR OBLIGATIONS. This Agreement and the security interest created hereby secure the payment and performance of all the Obligations under the Loan Agreement, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this Agreement secures the payment of all amounts which constitute part of the Obligations and would be owed by each Grantor to Agent, Revolving Agent, the Lenders or any of them pursuant to the Loan Agreement.

4. LOAN AGREEMENT. The security interests granted pursuant to this Agreement are granted in conjunction with the security interests granted to Agent, for the benefit of itself and the Lenders, pursuant to the Loan Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Agent with respect to the security interest in the IP Collateral made and granted hereby are more fully set forth in the Loan Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. To the extent there is any inconsistency between this Agreement and the Loan Agreement, the Loan Agreement shall control.

5. REPRESENTATIONS, WARRANTIES AND AGREEMENTS. Each Grantor hereby represents and warrants to, and agrees with Agent, Revolving Agent, and Lenders as follows: Schedule 1, Schedule 2 and Schedule 3 hereto accurately lists all registered IP Collateral as of the date hereof.

6. AUTHORIZATION TO SUPPLEMENT. If any Grantor shall obtain rights to any new or additional IP Collateral, this Agreement shall automatically apply thereto. Without limiting any Grantor's obligations under this Section 6, each Grantor hereby authorizes Agent unilaterally to modify this Agreement by amending Schedule 1, Schedule 2 or Schedule 3 to include any such new or additional IP Collateral of any Grantor identified in a written notice provided by such Grantor. Notwithstanding the foregoing, no failure to so modify this Agreement or amend any schedule hereto shall in any way affect, invalidate or detract from Agent's continuing security interest in all IP Collateral, whether or not listed on the schedules hereto.

7. GOVERNING LAW. This Agreement and all matters relating hereto or arising herefrom (whether arising under contract law, tort law or otherwise) shall, in accordance with Section 5-1401 of the General Obligations Law of the State of New York, be governed by and construed in accordance with the laws of the State of New York, applied to contracts to be performed wholly within the State of New York.

8. COUNTERPARTS. This Agreement may be executed in any number of and by different parties hereto on separate counterparts, all of which, when so executed, shall be deemed an original, but all such counterparts shall constitute one and the same agreement. Any signature delivered by a party by facsimile or electronic transmission (including email transmission of a PDF image) shall be deemed to be an original signature hereto.

9. CONSTRUCTION. All references herein to Sections and Schedules shall be construed to refer to Sections of and Schedules to this Agreement, except where the context clearly requires otherwise. Any reference herein to any Person shall be construed to include such Person's successors and assigns.

10. TERMINATION. The security interests, liens and rights granted to Agent and Lenders hereunder shall continue in full force and effect until all of the Obligations have been paid and performed in full and all commitments of Lenders to extend credit to Borrowers have expired or been terminated. Accordingly, each Credit Party waives any rights which it may have under the Uniform Commercial Code to demand the filing of termination statements with respect to the IP Collateral, and Agent shall not be required to send such termination statements to any Credit Party, or to file them with any filing office, unless and until this Agreement shall have been terminated in accordance with its terms and all Obligations have been paid in full in immediately available funds. All representations, warranties, covenants, waivers and agreements contained herein shall survive termination hereof until all Obligations are paid and performed in full.

IN WITNESS WHEREOF, each Grantor has caused this Intellectual Property Security Agreement to be executed and delivered by its duly authorized officer as of the date first set forth above.
