INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement (“**IP Assignment**”), dated as of September 1, 2021, is made by Aristech Surfaces LLC, a Kentucky limited liability company, located at c/o SK AA Holdings, LLC, 1515 N Federal Highway, Suite 405, Boca Raton, Florida 33432 (“**Assignor**”), in favor of Trinseo Europe GmbH, a Swiss corporation, having a place of business at 1000 Chesterbrook Boulevard, Suite 300, Berwyn, Pennsylvania 19312 (“**Assignee**”), pursuant to the Purchase and Sale Agreement, dated as of July 19, 2021, by and among Assignee, Trinseo US Holding, Inc. (“**Buyer**”) and Trinseo S.A., on the one hand, and Assignor and SK AA Holdings, LLC (“**Seller**”), on the other hand (the “**Purchase Agreement**”).

WHEREAS, Assignor has entered into that certain Intellectual Property Agreement, dated as of August 30, 2021, by Assignor, Seller and David Schwartz (“**Schwartz**”, and together with Seller, the “**Economic Owners**”), pursuant to which the Economic Owners contractually agreed to beneficially own the Assigned IP (as defined below) 99.757265% by Seller and 0.242735% by Schwartz, which represents their respective ownership percentage interest in Assignor, with Assignor continuing to own record title to the Assigned IP; and

WHEREAS, the Economic Owners and Assignor have agreed to cause Assignor to execute and deliver this IP Assignment to assign the Transferred IP Assets, as defined in the Purchase Agreement, to Assignee and for recording with the United States Patent and Trademark Office, the United States Copyright Office, and corresponding entities or agencies in any applicable jurisdictions, in accordance with the Purchase Agreement.

NOW THEREFORE, the parties hereto agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor (for itself and on behalf of the Economic Owners, which agree to, consent to, and accept the terms of this IP Assignment) hereby irrevocably conveys, transfers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor’s (and Economic Owners’) right, title, and interest, in each case arising anywhere in the world, in and to any (i) patents and patent applications (the “**Patents**”); (ii) trademarks, service marks, and trademark and service mark applications and registrations, trade dress, logos, trade names, and domain names (the “**Trademarks**”); (iii) goodwill, including the good reputation or brand identification enjoyed by Assignor, whether or not associated with one or more Trademarks; (iv) copyrights, together with all present or future applications, registrations, and renewals therefor (“**Copyrights**”); and (v) trade secrets, in each case (i) – (v) whether registered or unregistered (the “**Assigned IP**”), including without limitation the following:

(a) any know-how, including any and all technical information, trade secrets, formulas, prototypes, specifications, directions, instructions, test protocols, procedures, results, studies, analyses, raw material sources, data, manufacturing data, formulation or production technology, quality control measures, production facility maintenance logs and schedules, conceptions, ideas, innovations, discoveries, inventions, processes, methods, materials, machines, devices, formulae, equipment, enhancements, modifications, technological developments, techniques, systems, tools, designs, drawings, plans, software, documentation, data, programs, and other knowledge, information, skills, and materials that are licensed to and held by the Company;

(b) the Patents set forth on Schedule 1 hereto and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, and renewals, together with all equivalents of the foregoing arising in any jurisdiction worldwide, thereof;

(c) the Trademarks set forth on Schedule 2 hereto and all issuances, extensions, and renewals, together with all equivalents of the foregoing arising in any jurisdiction worldwide, thereof, together with the goodwill of the business connected with the use of, and symbolized by, the Trademarks; provided that, with respect to the United States intent-to-use trademark applications set forth on Schedule 2 hereto, the transfer of such applications accompanies, pursuant to the Purchase Agreement, the transfer of Assignor's business, or that portion of the business to which the trademark pertains, and that business is ongoing and existing;

(d) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(e) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(f) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents and the Commissioner for Trademarks in the United States Patent and Trademark Office, the Register of Copyrights in the United States Copyright Office, and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this IP Assignment upon request by Assignee. Following the date hereof, Assignor and each Economic Owner shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns, and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be necessary to effect, evidence, or perfect the assignment of the Assigned IP to Assignee, or any assignee or successor thereto; provided, however, that any fees and expenses incurred by Assignor in connection with the foregoing shall be borne solely by Assignee.

3. Terms of the Purchase Agreement. The parties hereto acknowledge and agree that this IP Assignment is entered into pursuant to the Purchase Agreement, to which reference is made for a further statement of the rights and obligations of Assignor and Assignee with respect to the Assigned IP. The representations, warranties, covenants, agreements, and indemnities contained in the Purchase Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement shall govern.

4. Counterparts. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this IP Assignment delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment.

5. Successors and Assigns. This IP Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

6. Governing Law. This IP Assignment and any claim, controversy, dispute, or cause of action (whether in contract, tort, or otherwise) based upon, arising out of, or relating to this IP Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the United States and the State of Delaware, without giving effect to any choice or conflict of law provision or rule (whether of the State of Delaware or any other jurisdiction).
