**SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT**

Notwithstanding anything herein to the contrary, (i) the liens and security interests granted to the Second Lien Agent (as defined in the Intercreditor Agreement referred to below) pursuant to this IP Security Agreement are expressly subject and subordinate to the liens and security interests of each First Lien Agent and the other First Lien Claimholders (each as defined in the Intercreditor Agreement defined below), including the liens and security interests granted to Ally Bank (“Ally”), as administrative agent and collateral agent, pursuant to and in connection with that certain First Lien Credit Agreement, dated as of February 1, 2022 (as amended, restated, amended and restated, supplemented, modified, refinanced, renewed, extended or replaced from time to time in accordance with the terms thereof), by and among Ally Bank, as administrative agent and collateral agent and a lender thereunder, the other lenders from time to time party thereto, Current Lighting Holdco, Inc., a Delaware corporation, as borrower thereunder and the guarantors from time to time party thereto and (ii) the exercise of any right or remedy by the Second Lien Agent or any other secured party hereunder is subject to the limitations and provisions contained in that certain Intercreditor Agreement, dated as of February 1, 2022 (as amended, restated, amended and restated, supplemented, modified, refinanced or replaced from time to time in accordance with the terms thereof, the “Intercreditor Agreement”), by and among Ally Bank, as the First Lien Credit Agreement Agent, Atlantic Park Strategic Capital Fund, L.P., as the Second Lien Credit Agreement Agent, Current Lighting HoldCo, Inc., a Delaware corporation, as borrower thereunder and the guarantors from time to time party thereto. In the event of any conflict between the terms of the Intercreditor Agreement and the terms of this IP Security Agreement, the terms of the Intercreditor Agreement shall govern and control.

This SECOND LIEN INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “IP Security Agreement”), dated as of February 1, 2022, is among the Persons listed on the signature pages hereof (collectively, the “Grantors”) and Atlantic Park Strategic Capital Fund, L.P., as collateral agent (the “Collateral Agent”) for the Secured Parties (as defined in the Credit Agreement referred to below).

WHEREAS, CURRENT LIGHTING HOLDCO, INC., a Delaware corporation and CURRENT LIGHTING HOLDCO INTERMEDIATE, INC., a Delaware corporation have entered into the Second Lien Credit Agreement, dated as of February 1, 2022 (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “Credit Agreement”), with each lender from time to time party thereto and ATLANTIC PARK STRATEGIC CAPITAL FUND, L.P., as Administrative Agent and Collateral Agent. Capitalized terms defined in the Credit Agreement or in the Security Agreement (as defined below) and not otherwise defined herein are used herein as defined in the Credit Agreement or the Security Agreement, as the case may be (and in the event of a conflict, the applicable definition shall be the one given to such term in the Security Agreement).

WHEREAS, as a condition precedent to the making of the Loans by the Lenders from time to time, each Grantor has executed and delivered that certain Second Lien Security Agreement, dated as of February 1, 2022 (as amended, restated, amended and restated, supplemented or

otherwise modified from time to time, the “Security Agreement”), among the Grantors from time to time party thereto and the Collateral Agent.

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Collateral Agent, for the benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantors, and have agreed thereunder to execute this IP Security Agreement for recording with the USPTO and/or the USCO, as applicable.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

Section 1. Grant of Security. Each Grantor hereby collaterally assigns and pledges to the Collateral Agent (and its successors and permitted assigns), for the benefit of the Secured Parties, and each Grantor hereby grants to the Collateral Agent (and its successors and permitted assigns), for the benefit of the Secured Parties, a security interest in and to all of such Grantor’s right, title and interest in and to the following, whether now owned or existing or hereafter acquired or arising by the undersigned (the “Collateral”):

all Patents, including the patents and patent applications set forth in Schedule A hereto;

- i. all Trademarks, including the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in United States intent-to-use trademark applications prior to the filing of a “Statement of Use” pursuant to Section 1(d) of the Lanham Act or an “Amendment to Allege Use” pursuant to Section 1(c) of the Lanham Act with respect thereto, to the extent that, and solely during the period, if any, in which, the grant of a security interest therein or the assignment thereof would impair the validity or enforceability of any registration that issues from such intent-to-use application under applicable federal law), together with the goodwill symbolized thereby;
- ii. all Copyrights, whether registered or unregistered, including, without limitation, the copyright registrations and applications set forth in Schedule C hereto;
- iii. all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, all rights in the foregoing provided by international treaties or conventions, all rights corresponding thereto throughout the world and all other rights of any kind whatsoever of such Grantor accruing thereunder or pertaining thereto;
- iv. any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and
- v. any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the Collateral of or arising from any of the foregoing;

- vi. provided that notwithstanding anything to the contrary contained in the foregoing clauses (i) through (vi), the security interest created hereby shall not extend to, and the term "Collateral" shall not include, any property which is not "Collateral" pursuant to the terms of the Security Agreement, and no property which is not "Collateral" need be listed on any schedule to this IP Security Agreement.

Section 2. Security for Obligations. The grant of a security interest in, the Collateral by each Grantor under this IP Security Agreement secures the payment of all Secured Obligations of such Grantor now or hereafter existing under or in respect of the Secured Documents (as such Secured Documents may be amended, restated, amended and restated, supplemented, replaced, refinanced or otherwise modified from time to time (including any increases of the principal amount outstanding thereunder)), whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, fees, indemnifications, contract causes of action, costs, expenses or otherwise. Without limiting the generality of the foregoing, this IP Security Agreement secures, as to each Grantor, the payment of all amounts that constitute part of the Secured Obligations that would be owed by such Grantor to any Secured Party under the Secured Documents but for the fact that they are unenforceable or not allowable due to the existence of a bankruptcy, or reorganization or similar proceeding involving a Loan Party.

Section 3. Recordation. Each Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks record this IP Security Agreement.

Section 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

Section 5. Grants, Rights and Remedies. This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. Each Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Collateral Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this IP Security Agreement and the terms of the Security Agreement, the terms of the Security Agreement shall govern.
