IP ASSIGNMENT AGREEMENT

This IP Assignment Agreement (“**IP Assignment**”), dated as of February 1, 2022, is made by Fiskars Finland OY AB (“**Seller**”), in favor of Lawn & Garden, LLC (“**Buyer**”), the purchaser of certain assets of Seller pursuant to the Asset Purchase Agreement by and among the Seller, the Buyer and Fiskars Brands, Inc. (as amended, modified or supplemented in accordance with its terms, the “**Purchase Agreement**”).

RECITALS

WHEREAS, in connection with the Purchase Agreement, Seller has agreed to sell, transfer, convey, assign and deliver to Buyer, and Buyer has agreed to purchase and acquire from Seller, among other assets, the patents listed on the attached Schedule A hereto and the trademarks listed on Schedule B hereto, together and all goodwill, issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, and renewals thereof (together, the “**Assigned IP**”). The capitalized terms in this IP Assignment are as defined in the Purchase Agreement, unless expressly defined otherwise in this IP Assignment.

NOW, THEREFORE, for and in consideration in the Purchase Agreement and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, and intending to be legally bound hereby, the parties agree as follows:

AGREEMENT

1. Patent Assignment. Effective as of the Closing, Seller hereby irrevocably sells, transfers, conveys, assigns, and delivers to Buyer and its successors and assigns, and Buyer hereby purchases and acquires from Seller, (a) all of Seller’s present and future right, title, and interest in and to the patents listed on Schedule A hereto, (b) all rights of any kind whatsoever of Seller accruing under any of the foregoing provided by applicable Law, (c) all rights to and claims for damages, restitution and injunctive relief for past, present and future infringement, dilution, misappropriation, unlawful imitation, misuse or default, with the right but no obligation to sue for such legal and equitable relief, and to collect, or otherwise recover, any such damages, all rights of priority and protection of interests therein under the Laws of any jurisdiction and (d) all rights to receive all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing, whether known or unknown, contingent or non-contingent.
2. Trademark Assignment. Assignor hereby sells, assigns, transfers, conveys and delivers to the Assignee, and the Assignee hereby accepts the sale, assignment, transfer, conveyance and delivery of, all of such Assignor’s right, title and interest in, to and under the trademarks listed on Schedule B, together with all the goodwill associated with the use of or symbolized by the Assigned Trademarks, all rights of enforcement and the rights, interests, claims and demands recoverable in law or equity, that Assignor has or may have in profits and damages for past, present, and future infringements, unfair competition, passing off or other conflicts relating to the Assigned Trademarks, including the right to compromise, sue for and collect such profits and damages, all rights of priority resulting from the filing of the Assigned Trademarks, and all other rights, including common law rights, relating to the Assigned Trademarks, to the extent such rights

exist or may exist in the future, each to be held and enjoyed by the Assignee for its own use and benefit and for the use and benefit of its successors, assigns and legal representatives as said rights would have been held and enjoyed by such Assignor had this Assignment not been made.

3. Recordation. Seller hereby authorizes the Commissioner for Patents in the United States Patent and Trademark Office, Commissioner for Trademarks in the United States Patent and Trademark Office and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this IP Assignment upon request by Buyer.

4. Further Assurances. Without limiting Seller's obligations pursuant to the Purchase Agreement, Seller acknowledges and agrees that, at any time and from time to time after the Closing, it will execute and deliver to Buyer such further conveyances or assignments as Buyer may reasonably request to perfect Buyer's title to the Assigned IP. If Buyer is unable for any reason to secure Seller's signature to any document it is entitled to under this section, Seller hereby irrevocably designates and appoints Buyer, and Buyer's duly authorized officers, agents and representatives, as its agents and attorneys-in-fact with full power of substitution to act for and on the behalf and instead of Seller, to execute and file any such document and to do all other lawfully permitted acts to further the purposes of this Assignment with the same legal force and effect as if executed by the Seller.

5. Terms of the Purchase Agreement. The parties hereto acknowledge and agree that the representations, warranties, covenants, agreements and indemnities contained in the Purchase Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of a conflict or an apparent conflict between the provisions of this IP Assignment and the provisions of the Purchase Agreement, the provisions of the Purchase Agreement shall control.

6. Governing Law; Venue. This Agreement shall be governed by and construed and enforced in accordance with the Legal Requirements of the State of Delaware without application of choice of law or conflicts of law principles. The parties hereby irrevocably and unconditionally consent to submit to the exclusive jurisdiction of the courts of the Delaware Court of Chancery and any state appellate court therefrom within the State of Delaware (or, if the Delaware Court of Chancery declines to accept jurisdiction over a particular matter, then any state or federal court within the State of Delaware) for any actions, suits or proceedings arising out of or relating to this Agreement and the transactions contemplated hereby (and agree not to commence any action, suit or proceeding relating thereto except in such courts). The parties hereby irrevocably and unconditionally waive any objection to the laying of venue on any action, suit or proceeding arising out of this Agreement or the transactions contemplated hereby in the courts of the Delaware Court of Chancery and any state appellate court therefrom within the State of Delaware (or, if the Delaware Court of Chancery declines to accept jurisdiction over a particular matter, then any state or federal court within the State of Delaware), and hereby further irrevocably and unconditionally waive and agree not to plead or claim in any such court that any such action, suit or proceeding brought in any such court has been brought in an inconvenient forum. Service of process with respect thereto may be made upon the parties hereto by mailing a copy thereof by registered or certified mail, postage prepaid, to that party at the applicable address provided in Section 12.2 **Error! Reference source not found.** of the Purchase Agreement.

7. Successors and Assigns. This IP Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and assigns.

8. Amendments; No Waivers. This IP Assignment may be amended or modified only by an instrument in writing duly executed by the parties hereto. Seller and Buyer may extend the time for the performance of any of the obligations or other acts of the other party. Any agreement to any such extension or waiver will be valid only if set forth in a writing signed by the party waiving or extending the applicable provision.

9. Counterparts. This IP Assignment may be executed in separate counterparts (including by facsimile or .pdf format), each of which will be deemed an original but all of which will constitute but one instrument.
