PATENT AND TRADEMARK SECURITY AGREEMENT dated as of April 13, 2022 (this “Agreement”), among the signatories hereto (each, a “Patent/Trademark Grantor”) and BLUE TORCH FINANCE LLC, a Delaware limited liability company (“Blue Torch”), as collateral agent for the Secured Parties (as defined in the Credit Agreement) (in such capacity, together with its successors and assigns in such capacity, the “Collateral Agent”).

Reference is made to (a) the Credit Agreement dated as of April 13, 2022, (as amended, restated, amended and restated, supplemented or otherwise modified from time to time, the “Credit Agreement”), among MEGALODON MIDCO LLC, a Delaware limited liability company (the “Parent”, together with each subsidiary of Parent listed as a “Borrower” on the signature pages thereto and any entity that may from time to time become party thereto as a Borrower, each a “Borrower” and collectively, the “Borrowers”), the Lenders from time to time party thereto, Blue Torch, as Collateral Agent, and Blue Torch, as Administrative Agent, and (b) the Security Agreement dated as of April 13, 2022 (as amended, supplemented or otherwise modified from time to time, the “Security Agreement”), among Parent, the other Loan Parties listed on the signature pages thereto, DURA AUTOMOTIVE TOPCO LIMITED, an England and Wales private limited company (solely with respect to its pledge of the Equity Interests of DUS OPERATING INC.), and Blue Torch, as Collateral Agent. The Lenders have agreed to extend credit to the Borrowers subject to the terms and conditions set forth in the Credit Agreement. The obligations of the Lenders to extend such credit are conditioned upon, among other things, the execution and delivery of this Agreement. Each Patent/Trademark Grantor party hereto (other than the Parent) is an Affiliate of the Parent, will derive substantial benefits from the extension of credit to the Borrowers pursuant to the Credit Agreement and are willing to execute and deliver this Agreement in order to induce the Lenders to extend such credit. Accordingly, the parties hereto agree as follows:

SECTION 1. Terms. Each capitalized term used but not otherwise defined herein shall have the meaning specified in the Credit Agreement or the Security Agreement, as applicable. The rules of construction specified in Section 1.04 of the Credit Agreement also apply to this Agreement, mutatis mutandis.

SECTION 2. Grant of Security Interest. As security for the payment or performance, as the case may be, in full of the Obligations, each Patent/Trademark Grantor pursuant to the Security Agreement did, and each Patent/Trademark Grantor hereby does, grant to the Collateral Agent, its successors and assigns, for the benefit of the Secured Parties, a security interest in all right, title and interest in, to and under any and all of the following assets now owned or at any time hereafter acquired by such Patent/Trademark Grantor or in, to or under which such Patent/Trademark Grantor now has or at any time hereafter may acquire any right, title or interest (collectively, the “Patent and Trademark Collateral”):

(a) all patents and patent applications within the United States, including (i) the patents and patent applications listed on Schedule I, (ii) all continuations, divisionals, continuations-in-part, re-examinations, reissues, and renewals thereof and improvements thereon, (iii) all income, royalties, damages and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past, present, or future infringements thereof, and (iv) the right to

sue for past, present, and future infringements thereof, and (v) all of each Patent/Trademark Grantor's rights corresponding thereto throughout the world; and

(b) any and all trademarks, trade names, registered trademarks, trademark applications, service marks, registered service marks, brand names, certification marks, collective marks, logos, symbols, trade dress, assumed names, fictitious names and service mark applications within the United States, including (i) the trade names, registered trademarks, trademark applications, registered service marks and service mark applications listed on Schedule II, (ii) all renewals thereof, (iii) all income, royalties, damages and payments now and hereafter due or payable under and with respect thereto, including payments under all licenses entered into in connection therewith and damages and payments for past or future infringements or dilutions thereof, (iv) the right to sue for past, present and future infringements and dilutions thereof, and (v) the goodwill of each Patent/Trademark Grantor's business symbolized by the foregoing or connected therewith; provided that the Patent and Trademark Collateral shall not include any Excluded Property.

SECTION 3. Security Agreement. The security interests granted to the Collateral Agent herein are granted in furtherance, and not in limitation of, the security interests granted to the Collateral Agent pursuant to the Security Agreement. Each Patent/Trademark Grantor hereby acknowledges and affirms that the rights and remedies of the Collateral Agent with respect to the Patent and Trademark Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are hereby incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this Agreement and the Security Agreement, the terms of the Security Agreement shall govern.

SECTION 4. Counterparts. This Agreement may be executed in counterparts (and by different parties hereto on different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page of this Agreement by facsimile or other electronic imaging shall be effective as delivery of a manually executed counterpart of this Agreement.

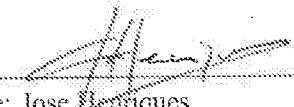

SECTION 5. Incorporation By Reference. The provisions of Article 8 and Sections 9.1, 9.3 and 9.6 of the Security Agreement are hereby incorporated into this Agreement, mutatis mutandis, and each party hereto agrees to be bound thereby, as if fully set forth herein.

SECTION 6. Recordation. The parties hereto authorize and request that the Commissioner for Patents and the Commissioner for Trademarks, as applicable, of the United States Patent and Trademark Office and any other applicable Governmental Authority record this Agreement.
