## INTELLECTUAL PROPERTY ASSIGNMENT

This **INTELLECTUAL PROPERTY ASSIGNMENT** (“**Assignment**”), effective as of 1 January 2022 (“**Effective Date**”), is by and between Standard Car Truck Company (individually and collectively the "**Assignor**"), and Transportation IP Holdings, LLC, a Delaware limited liability company ("**Assignee**").

WHEREAS, Assignor hereby desires to deliver and transfer, and cause each of its affiliates to deliver and transfer, to Assignee all of its right, title, and interest in, to, and under the patents and patent applications set forth on Appendix A hereto (the “**Standard Patents**”) and the trademark registrations and trademark applications set forth in Appendix B hereto (the “**Standard Trademarks**”), the Standard Patents and Standard Trademarks collectively referred to as “**Standard IP**”; and

WHEREAS, Assignee desires to acquire the Standard IP from Assignor.

NOW, THEREFORE, for good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged:

1. Assignor hereby sells, assigns, and transfers, and agrees to cause each of its affiliates to sell, assign, and transfer, to Assignee, its entire worldwide right, title and interest in, to and under the Standard Patents, in each case that Assignor (or its affiliate, as applicable) owns, the same to be held and enjoyed by Assignee for its own use and enjoyment and the use and enjoyment of its successors, assigns and other legal representatives as fully and entirely as the same would have been held and enjoyed by Assignor (or its affiliate, as applicable) if this assignment and sale had not been made, as assignee of its respective entire right, title and interest therein, including, without limitation, all rights in and to all income, royalties, damages and payments now or hereafter due or payable with respect thereto, all causes of action (whether in law or in equity) with respect thereto, and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment.
2. Assignor hereby sells, assigns, and transfers, and agrees to cause each of its affiliates to sell, assign, and transfer, to Assignee, its entire worldwide right, title and interest in, to and under the Standard Trademarks and associated goodwill, in each case that Assignor (or its affiliate, as applicable) owns, the same to be held and enjoyed by Assignee for its own use and enjoyment and the use and enjoyment of its successors, assigns and other legal representatives as fully and entirely as the same would have been held and enjoyed by Assignor (or its affiliate, as applicable) if this assignment and sale had not been made, as assignee of its respective entire right, title and interest therein, including, without limitation, all rights in and to all income, royalties, damages and payments now or hereafter due or payable with respect thereto, all causes of action (whether in law or in equity) with respect thereto, and the right to sue, counterclaim, and recover for past, present and future infringement of the rights assigned or to be assigned under this Assignment.

3. This Assignment is binding upon, and inures to the benefit of, the parties hereto and their respective legal representatives, successors, and assigns. It is understood that any finding of invalidity of one assignment as effected hereby shall not affect the assignment of other Standard IP. All questions concerning the construction, validity and interpretation of this Assignment and the performance of the obligations imposed by this Assignment shall be governed by, and construed in accordance with, the laws of the State of Delaware without regard to the choice of law principles thereof.

4. Upon reasonable request by Assignee, Assignor will, and will cause each of its affiliates to, execute additional documents and take other actions as may be necessary or desirable to record or memorialize the assignments of the Standard IP set forth herein, and to vest in Assignee such right, title, and interest in and to the Standard IP as sold, assigned, and transferred to Assignee hereunder.

5. Assignor hereby authorizes and requests the officials of the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign jurisdiction, to record Assignee as assignee and owner of the entire right, title, and interest in, to and under the Standard IP.

6. No waiver, modification or change of any of the provisions of this Assignment shall be valid unless in writing and signed by the party against whom such claimed waiver, modification or change is sought to be enforced.

7. This Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed to be one and the same agreement. A signed copy of this Assignment delivered by facsimile, e-mail or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this Assignment.

8. ALL ISSUES AND QUESTIONS CONCERNING THE CONSTRUCTION, VALIDITY, INTERPRETATION, AND ENFORCEABILITY OF THIS AGREEMENT AND THE APPENDIX ATTACHED HERETO, AND THE PERFORMANCE OF THE OBLIGATIONS IMPOSED HEREUNDER, SHALL BE INTERPRETED AND CONSTRUED IN ACCORDANCE WITH THE LAWS OF THE STATE OF DELAWARE.
