INTELLECTUAL PROPERTY SECURITY AGREEMENT SUPPLEMENT

(Patents and Patent Applications) (Trademark, Trademark Registrations and Trademark Applications)

WHEREAS, MECS, Inc., a Delaware corporation (herein referred to as the "Relevant Grantor") owns, or in the case of licenses is a party to, the Intellectual Property Collateral (as defined below);

WHEREAS, pursuant to (i) a Security Agreement dated as of December 14, 2021 (as amended, supplemented or otherwise modified from time to time, the "Security Agreement") entered into between, among others, the Relevant Grantor and Madison Pacific Trust Limited as Security Agent and (ii) certain other Security Agreement Document(s) (including this Intellectual Property Security Agreement Supplement), the Relevant Grantor has secured the Secured Obligations (as defined in the Security Agreement) by granting to the Security Agent as security trustee for the Secured Parties a continuing security interest in personal property of the Relevant Grantor, including all right, title and interest of the Relevant Grantor in, to and under the Intellectual Property Collateral (as defined below);

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Relevant Grantor hereby grants to the Security Agent, for the benefit of the Security Agent and each other Secured Party to secure the Secured Obligations, a security interest in and mortgage on and pledges to the Security Agent, its successors and assigns, all of the Relevant Grantor's rights, title and interests in and to the following (all of the following items or types of property being herein collectively referred to as the "Intellectual Property Collateral"), whether now owned or existing or hereafter acquired or arising:

(i) each Patent and Trademark owned by the Relevant Grantor, including, without limitation, each Patent and Trademark registration and application referred to in Schedule 1 hereto, and all of the goodwill of the business connected with the use of, or symbolized by, each such Trademark; and

(ii) all proceeds of and revenues from the foregoing, including, without limitation, all proceeds of and revenues from any claim by the Relevant Grantor against third parties for past, present or future unfair competition with, or violation of, intellectual property rights in connection with any injury to, or infringement or dilution of any Patent or Trademark owned by the Relevant Grantor (including, without limitation, any Patent or Trademark identified in Schedule 1 hereto) or for the goodwill associated with any of the foregoing.

The foregoing security interest is granted in conjunction with the security interests granted by the Relevant Grantor to the Security Agent pursuant to the Security Agreement. The Relevant Grantor acknowledges and affirms that the rights and remedies of the Security Agent with respect to the security interest in the Intellectual Property Collateral granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein.

This Intellectual Property Security Agreement Supplement shall be governed by, and construed in accordance with, the laws of the State of New York. The Relevant Grantor agrees that any suit for the enforcement of this Intellectual Property Security Agreement Supplement may be brought in the courts of the State of New York or any federal court sitting therein and consents to the non-exclusive jurisdiction of such court and to service of process in any such suit being made upon the Relevant Grantor by mail at the address specified in the Security Agreement. The Relevant Grantor hereby waives any objection that it may now or hereafter have to the venue of any such suit or any such court or that such suit is brought in an inconvenient court.

This Intellectual Property Security Agreement Supplement may be executed in two or more separate counterparts, each of which shall constitute an original and all of which shall collectively and separately constitute one and the same agreement.

Terms and expressions defined in or construed for the purposes of the Security Agreement shall have the same meaning in this Intellectual Property Security Agreement Supplement.

In case of any inconsistencies between the terms of this Intellectual Property Security Agreement Supplement and those of the Security Agreement, the Security Agreement shall prevail.

[Remainder of page left blank intentionally; signatures follow.]

IN WITNESS WHEREOF, the Relevant Grantor has caused this Intellectual Property Security Agreement Supplement to be duly executed by its officer thereunto duly authorized as of the 29th day of March, 2022.
