## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT ("**IP Assignment**"), dated as of January 1, 2022 ("**Effective Date**"), is made by Gas Monkey Holdings, LLC ("**Assignor**"), a California limited liability company, located at 2330 Merrell Road, Dallas, Texas 75229, in favor of Gas Monkey Holdings, LLC ("**Assignee**"), a Texas limited liability company, located at 2330 Merrell Road, Dallas, Texas 75229.

WHEREAS, under the terms of a separate Agreement, Assignor has conveyed, transferred, and assigned to Assignee, among other assets, certain intellectual property of Assignor, and Assignor has agreed to execute and deliver this Intellectual Property Assignment Agreement, for recording with the United States Patent and Trademark Office, the United States Copyright Office, and any other corresponding entities or agencies in any other applicable foreign jurisdictions.

NOW THEREFORE, the parties agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby irrevocably conveys, transfers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor's right, title, and interest in and to the following (collectively, the "**Assigned IP**"):

(a) All general intellectual property rights associated with the Gas Monkey Brand (the "**Business IP**"), including any patents, utility models, rights to inventions, copyright and related rights, moral rights, trademarks, trade names, service marks and domain names, rights in get-up and trade dress, goodwill and the rights to sue for passing off or unfair competition, design rights, semi-conductor topography rights, database rights, confidential information (including know-how and trade secrets and the rights to use and protect confidential information) and all other intellectual property rights, in each case whether registered or unregistered and including all applications, registrations granted pursuant to any of the applications and rights to apply for and be granted, renewals or extensions of and rights to claim priority from such rights, and all similar or equivalent rights or forms of protection which subsist or will subsist now or in the future in any part of the world.

(b) any trademark rights, trademark registrations, and trademark applications set forth on Schedule 1 hereto and all issuances, extensions, and renewals thereof (the "**Trademarks**"), together with the goodwill of the business connected with the use of, and symbolized by, the Trademarks; provided that, with respect to the United States intent-to-use trademark applications set forth on Schedule 1 hereto, the transfer of such applications accompanies, pursuant to the Agreement: (i) the transfer of Assignor's business; (ii) the transfer of that portion of Assignor's business to which the trademark pertains; and/or (iii) the assignment or transfer of Assignor's license agreement(s) to which the trademark pertains, and that business, portion of the business, and/or license agreement(s) is ongoing and existing;

(c) any copyrights, registrations, applications for registration, and exclusive copyright licenses set forth on Schedule 2 hereto and all issuances, extensions, and renewals thereof (the "**Copyrights**");

(d) all rights of any kind whatsoever of Assignor accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions, and otherwise throughout the world;

(e) any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and

(f) any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Moral Rights. Assignor irrevocably and unconditionally waives, in favor of the Assignee, any and all moral or equivalent rights which the Assignor may now or at any time possess in respect of the works comprised within the Assigned IP in so far as legally possible in any part of the world.

3. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents and the Commissioner for Trademarks in the United States Patent and Trademark Office and the Register of Copyrights in the United States Copyright Office to record and register this IP Assignment upon request by Assignee. Following the date hereof, upon Assignee's reasonable request, and at Assignee's sole cost and expense, Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns, and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney, or other documents, as may be reasonably necessary to effect, evidence, or perfect the assignment of the Assigned IP to Assignee, or any assignee or successor thereto.

4. Terms of Agreement. The parties hereto acknowledge and agree that this IP Assignment is entered into pursuant to the Agreement, to which reference is made for a further statement of the rights and obligations of Assignor and Assignee with respect to the Assigned IP. The representations, warranties, covenants, agreements, and indemnities contained in the Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Agreement and the terms hereof, the terms of the Agreement shall govern.
