INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT (the “IP Assignment”), effective as of May 31, 2022 (the “Effective Date”), by and between Pro-Mark, LLC, a Utah limited liability company (the “Assignor”), and Husqvarna AB, a Swedish aktiebolag (the “Assignee”) (collectively, the “Parties”).

WITNESSETH

WHEREAS, Assignee is desirous of acquiring all right, title, and interest in and to the intellectual property and applications for registration of intellectual property set forth in Schedule A, including the patents and patent applications set forth in Schedule A (collectively, the “Patents”), the registered and pending trademarks, service marks, and trade dresses (if any) set forth in Schedule A, including common law rights to the extent available under applicable law (collectively, the “Trademarks”), the copyright registrations and applications set forth in Schedule A (collectively, the “Copyrights”), and the residual IP (“Residual IP”) set forth in Schedule A; and

WHEREAS, the Parties wish to execute and deliver this IP Assignment for the purpose of assigning all of Assignor’s right, title, and interest in and to the Patents, Trademarks, Copyrights, and Residual IP from Assignor to Assignee pursuant to an Agreement to Transfer Intellectual Property effective as of May 31, 2022 (the “Agreement to Transfer”); and

NOW, THEREFORE, for good and valuable consideration, including at least the consideration specified in the Agreement to Transfer and the promises made, the receipt and sufficiency of which are hereby acknowledged, the Parties hereby agree as follows:

1. Assignor does hereby irrevocably sell, convey, assign, deliver, and transfer to Assignee, its successors and assigns, and Assignee purchases and accepts from Assignor, all of Assignor’s right, title and interest in and to the Patents, including (i) any and all rights of priority thereto and renewals thereof; (ii) all patents and patent applications to which any of the Patents claim priority and all patents and patent applications claiming priority to any of the Patents; and (iii) all causes of action related to the Patents whether arising before, during, or after the present transfer, including the right to sue for past, present, and future infringement of the Patents and the right to collect monetary amounts of any type (e.g., profits and compensatory damages) for past, present, or future infringement thereof. Assignor further consents to recordation of this IP Assignment by Assignee in the pertinent governmental intellectual property offices throughout the world.

2. Assignor does hereby irrevocably sell, convey, assign, deliver, and transfer to Assignee, its successors and assigns, and Assignee purchases and accepts from Assignor, all of Assignor’s right, title and interest in and to the Trademarks, including (i) all goodwill associated therewith and symbolized thereby; (ii) any and all rights of priority thereto and renewals thereof; and (iii) all causes of action related to the Trademarks whether arising before, during, or after the present transfer, including the right to sue for past, present, and future infringement of the Trademarks and the right to collect monetary amounts of any type (e.g., profits and compensatory damages) for past, present, or future infringement thereof. Assignor further consents to recordation of this IP Assignment by Assignee in the pertinent governmental intellectual property offices throughout the world.

3. Assignor does hereby irrevocably sell, convey, assign, deliver, and transfer to Assignee, its

successors and assigns, and Assignee purchases and accepts from Assignor, all of Assignor's right, title and interest in and to the Copyrights, including the right to renew such Copyrights, and all causes of action related to the Copyrights whether arising before, during, or after the present transfer, including the right to sue for past, present, and future infringement of the Copyrights and the right to collect monetary amounts of any type (e.g., due or accrued profits, and statutory or other damages) for past, present, or future infringement thereof. Assignor further consents to recordation of this IP Assignment by Assignee in the pertinent governmental intellectual property offices throughout the world.

4. Assignor does hereby irrevocably sell, convey, assign, deliver, and transfer to Assignee, its successors and assigns, and Assignee purchases and accepts from Assignor, all of Assignor's right, title and interest in and to the Residual IP, including (i) all goodwill associated therewith and symbolized thereby; (ii) any and all rights of priority thereto and renewals thereof; (iii) all patents and patent applications included within the Residual IP ("Residual Patents"), including any and all patents and applications to which any of the Residual Patents claim priority and all patents and patent applications claiming priority to any of the Residual Patents; (iv) including the right to renew, maintain, retain and utilize any domain names included within the Residual IP ("Residual Domain Names"), and all other rights and privileges associated with ownership of the Residual Domain Names; and (v) all causes of action related to the Residual IP whether arising before, during or after the present transfer, including the right to sue for past, present, and future infringement of the Residual IP and the right to collect monetary amounts of any type (e.g., profits and compensatory damages) for past, present, or future infringement thereof. Assignor further consents to recordation of this IP Assignment by Assignee in the pertinent governmental intellectual property offices throughout the world.

5. Assignor hereby authorizes the United States Patent and Trademark Office and/or the appropriate empowered officials in relevant jurisdictions outside the United States to transfer all ownership rights in and to the Patents, Trademarks, Copyrights, and Residual IP to Assignee as assignee of Assignor's entire right, title and interest therein or otherwise as Assignee may direct, in accordance with this IP Assignment.

6. The above-granted rights, titles, and interests are to be held and enjoyed by the Assignee, for its own use and benefit and the use and benefit of its successors and assigns, as fully and entirely as the same were held and enjoyed by the Assignor prior to the Effective Date of this IP Assignment.

7. Each of the Parties agree to execute and deliver such further conveyance instruments and take such further actions as may be necessary to evidence more fully the transfer of the Patents, Trademarks, Copyrights, and Residual IP contemplated herein, including, without limitation (i) completing all automated procedures and documentation as may be reasonably required to effectuate the transfer of the Intellectual Property, and (ii) providing testimony in connection with any proceeding affecting the right, title, or interest of Assignee in the Intellectual Property. Further, each of the Parties additionally agree to execute such further conveyances and corrections of this IP Assignment, as deemed appropriate by the Parties.

8. The individuals that execute this IP Assignment on behalf of Assignor are authorized to bind and obligate the entity defined herein as Assignor. The individuals that execute this IP Assignment on behalf of Assignee are authorized to bind and obligate the entity defined herein as Assignee.

9. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, and all such counterparts collectively shall constitute one and the same agreement. The Parties further agree that any counterpart bearing an electronic copy of a signature or an electronically applied signature shall be enforceable as though the counterpart bore an original signature.
