TRADEMARK ASSIGNMENT

This Trademark Assignment (“Trademark Assignment”) is entered into and executed effective as of April 30, 2022, by and between Nextremity Solutions, Inc., a Delaware corporation with a business address of 1195 Polk Drive, Warsaw, IN 46582 (“Transferor”) and Zimmer, Inc., a Delaware corporation with a business address of 345 East Main Street, Warsaw, IN 46580 (“Transferee” and, together with Transferor, the “Parties” and each a “Party”).

RECITALS

A. Pursuant to the terms of the Asset Purchase Agreement dated [April 29, 2022], by and between Transferee and Transferor (the “Agreement”), Transferee has purchased from Transferor all of its right, title and interest in and to the trademarks listed in Exhibit A attached hereto, whether registered or pending (collectively, the “Acquired Trademarks”); and

B. The Parties desire to memorialize the assignment of the Acquired Trademarks from Transferor to Transferee in a document separate from the Agreement.

NOW, THEREFORE, in consideration of the mutual promises and premises set forth in the Agreement and this Trademark Assignment and the sums paid and payable by Transferee to Transferor under the Agreement, the Parties hereby agree as follows:

1. Transferor hereby irrevocably sells, transfers, conveys, assigns and delivers to Transferee and Transferee’s successors and assigns, and Transferee hereby takes assignment and transfer thereof, all of Transferor’s worldwide rights, title and interest in, to and under the Acquired Trademarks, together with their common law rights, goodwill and the business associated with the Acquired Trademarks, and registrations thereof and any and all renewals and extensions thereof that may hereafter be secured under the laws now or hereafter in effect in the United States and in any other jurisdiction (including, without limitation, all proceeds thereof and the rights to sue for past, present and future infringements and damages), the same to be held and enjoyed by Transferee, for its own use and on behalf of its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Transferor had this Trademark Assignment not been made.

2. Transferor authorizes and requests any official in the countries or registering organizations listed on the attached Exhibit A whose duty it is to register and record ownership in trademark registrations and applications for registration of trademarks, to record Transferee as the Transferee and owner of any and all of Transferor’s right, title and interest in and to the Acquired Trademarks.

3. This Trademark Assignment shall be governed by and construed in accordance with the laws of the State of Indiana, regardless of the laws that might otherwise govern under applicable principles of conflicts of laws thereof.

4. This Trademark Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. Delivery of an executed counterpart of this Trademark Assignment by facsimile or electronic transmission shall be effective to the fullest extent permitted by applicable law.
