INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT, dated as of July 20, 2022, is made by each of the entities listed on the signature pages hereof (each a “Grantor” and, collectively, the “Grantors”), in favor of CALLODINE COMMERCIAL FINANCE, LLC, in its capacity as Administrative Agent and collateral agent for the Credit Parties (as defined in the Term Loan Agreement defined below) pursuant to the Term Loan Agreement, as a pledgee, assignee and secured party (in such capacities and together with any successors in such capacities, the “Administrative Agent”).

W I T N E S S E T H:

WHEREAS, pursuant to the Term Loan Agreement, dated as July 20, 2022 (as the same may be amended, restated, supplemented or otherwise modified from time to time, the “Term Loan Agreement”), by and among Basin Industries LLC, a Delaware limited liability company, as the Lead Borrower (as defined therein) and as a Borrower (as defined therein), the other Borrowers from time to time party thereto, the Guarantors (as defined therein) from time to time party thereto, the lenders from time to time party thereto (the “Lenders”) and the Administrative Agent, the Lenders have agreed to extend credit and make certain other financial accommodations to the Borrowers upon the terms and subject to the conditions set forth therein;

WHEREAS, all of the Grantors are party to the Security Agreement, dated as of July 20, 2022 (as such agreement may be amended, restated, supplemented or otherwise modified from time to time, the “Security Agreement”), in favor of Administrative Agent and pursuant to which the Grantors are required to execute and deliver this Intellectual Property Security Agreement; and

NOW, THEREFORE, in consideration of the premises and to induce the Credit Parties to enter into the Term Loan Agreement and to extend credit and provide other financial accommodations to the Borrowers pursuant thereto, each Grantor hereby agrees with Administrative Agent as follows:

1. Defined Terms. Capitalized terms used herein without definition are used as defined in the Security Agreement or Term Loan Agreement, as applicable.

2. Grant of Security Interest in Intellectual Property. Each Grantor, as collateral security for the prompt and complete payment and performance when due (whether at stated maturity, by acceleration or otherwise) of the Secured Obligations of such Grantor, hereby mortgages, pledges and hypothecates to Administrative Agent for the benefit of the Credit Parties, and grants to Administrative Agent for the benefit of the Credit Parties a Lien on and security interest in, all of its right, title and interest in, to and under the following Collateral of such Grantor, whether now owned or hereafter acquired or arising (the “Intellectual Property Collateral”):

(a) (i) all of its Copyrights and all related Licenses providing for the grant by or to such Grantor of any right under any Copyright, including, without limitation, those referred to on Schedule 1 hereto; (ii) all renewals, reversions and extensions of the foregoing; and (iii) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover

at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

(b) (i) all of its Patents and all related Licenses providing for the grant by or to such Grantor of any right under any Patent, including, without limitation, those referred to on Schedule 1 hereto; (ii) all reissues, reexaminations, continuations, continuations-in-part, divisionals, renewals and extensions of the foregoing; and (iii) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

(c) (i) all of its Trademarks and all related Licenses providing for the grant by or to such Grantor of any right under any Trademark, including, without limitation, those referred to on Schedule 1 hereto; (ii) all renewals and extensions of the foregoing; (iii) all Goodwill of the business connected with the use of, and symbolized by, each such Trademark; and (iv) all income, royalties, proceeds and liabilities at any time due or payable or asserted under and with respect to any of the foregoing, including, without limitation, all rights to sue and recover at law or in equity for any past, present and future infringement, misappropriation, dilution, violation or other impairment thereof.

Notwithstanding anything to the contrary contained in clauses (a) through (c) above, the security interest created by this Security Agreement shall not extend to, and the term "Intellectual Property Collateral" shall not include, any Excluded Property.

3. Security for Secured Obligations. This Intellectual Property Security Agreement and the security interest created hereby secures the payment and performance of the Secured Obligations, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this Intellectual Property Security Agreement secures the payment of all amounts which constitute part of the Secured Obligations and would be owed by Grantors, or any of them, to Administrative Agent or the other members of the Credit Parties, whether or not they are unenforceable or not allowable due to the existence of an insolvency proceeding involving any Grantor.

4. Security Agreement. The security interest granted pursuant to this Intellectual Property Security Agreement is granted in conjunction with the security interest granted to the Administrative Agent pursuant to the Security Agreement and each Grantor hereby acknowledges and agrees that the rights and remedies of Administrative Agent with respect to the security interest in the Intellectual Property made and granted hereby are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. To the extent there is any inconsistency between this Intellectual Property Security Agreement and the Security Agreement, the Security Agreement shall control.

5. Authorization to Supplement.

(a) If any Grantor shall obtain rights to any new Intellectual Property Collateral, the provisions of this Intellectual Property Security Agreement shall automatically apply thereto.

(b) Without limiting Grantors' obligations under this section, Grantors hereby authorize Administrative Agent unilaterally to modify this Intellectual Property Security Agreement by amending Schedule I to include any such new Intellectual Property Collateral. Notwithstanding the foregoing, no failure to so modify this Intellectual Property Security Agreement or amend Schedule I shall in any way affect, invalidate or detract from Administrative Agent's continuing security interest in all Intellectual Property Collateral, whether or not listed on Schedule I.

6. Counterparts. This Intellectual Property Security Agreement is a Loan Document. This Intellectual Property Security Agreement may be executed in any number of counterparts and by different parties on separate counterparts, each of which, when executed and delivered, shall be deemed to be an original, and all of which, when taken together, shall constitute but one and the same Intellectual Property Security Agreement. Execution of any such counterpart may be by means of (a) an electronic signature that complies with the federal Electronic Signatures in Global and National Commerce Act, state enactments of the Uniform Electronic Transactions Act, or any other relevant and applicable electronic signatures law; (b) an original manual signature; or (c) a faxed, scanned, or photocopied manual signature. Each electronic signature or faxed, scanned, or photocopied manual signature shall for all purposes have the same validity, legal effect, and admissibility in evidence as an original manual signature. Administrative Agent reserves the right, in its sole discretion, to accept, deny, or condition acceptance of any electronic signature on this Intellectual Property Security Agreement. Any party delivering an executed counterpart of this Intellectual Property Security Agreement by telefacsimile or other electronic method of transmission also shall deliver an original executed counterpart of this Intellectual Property Security Agreement but the failure to deliver an original executed counterpart shall not affect the validity, enforceability, and binding effect of this Intellectual Property Security Agreement.

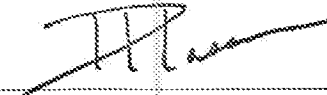

7. Governing Law. This Intellectual Property Security Agreement and the rights and obligations of the parties hereto shall be governed by, and construed and interpreted in accordance with, the law of the State of New York.
