## INTELLECTUAL PROPERTY ASSIGNMENT

This INTELLECTUAL PROPERTY ASSIGNMENT (this “**Assignment**”) is made and entered into as of April 26, 2022 (the “**Effective Date**”) by and between SkOUT Secure Intelligence, LLC, a limited liability company formed under the laws of New York (the “**Company**” or “**Assignor**”) and Barracuda Networks, Inc., a corporation formed under the laws of the State of Delaware and the sole member and owner of all of the issued and outstanding membership interests of Assignor (the “**Member**” or “**Assignee**”). Assignor and Assignee are individually referred to herein as a “**Party**,” and collectively as the “**Parties**.”

WHEREAS, pursuant to the Plan of Liquidation of the Company, effective as of April 26, 2022 (the “**Plan**”), as approved by written consent of the Member dated April 26, 2022, the Company shall be dissolved effective as of April 29, 2022 (the “**Dissolution**”), and the Member shall wind up the affairs of the Company in accordance with §§ 703 et. seq. of the New York Limited Liability Company Law (the “**NYLLCL**”) and Section 14 of the Limited Liability Company Agreement of the Company (the “**LLC Agreement**”);

WHEREAS, in connection with the Dissolution, the Parties hereto desire that Assignor transfer to Assignee all of the right, title and interest in and to the (i) trademarks and trademark applications (together with all goodwill associated therewith and symbolized thereby in each case) and (ii) domain names set forth on Attachment A attached hereto (the “**Assigned IP**”); and

WHEREAS, Assignee wishes to acquire all of Assignor’s right, title and interest in and to the Assigned IP, and Assignor wishes to assign such right, title and interest in and to such Assigned IP to Assignee.

NOW, THEREFORE, in considering of the foregoing and mutual covenants and agreements herein contained, and intending to be legally bound hereby, the Parties agree as follows:

1. Transfer of Assigned IP. Assignor does hereby irrevocably sell, transfer, convey, assign and deliver to Assignee and its successors and assigns, and Assignee does hereby unconditionally accept: (a) all of Assignor’s right, title and interest in and to the Assigned IP (but excluding in all cases all intent-to-use United States trademark applications for which an amendment to allege use or statement of use has not been filed under 15 U.S.C. § 1051(c) or 15 U.S.C. § 1051(d), respectively, or if filed, has not been deemed in conformance with 15 U.S.C. § 1051(a) or examined and accepted, respectively, by the United States Patent and Trademark Office, provided that upon such filing and acceptance, such intent-to-use applications shall be included in the definition of Assigned IP); (b) all licenses and similar contractual rights or permissions, whether exclusive or nonexclusive, to the extent such licenses, rights or permissions are (i) granted in respect of any of the Assigned IP and (ii) sublicenseable or assignable; (c) all royalties, fees, income, payments, and other proceeds now or hereafter due or payable to the Assignor with respect to any of the foregoing; (d) all claims, causes of action and enforcement rights, whether currently pending, filed, or otherwise, with respect to the Assigned IP, including all rights to damages, injunctive relief and other remedies for past, current and future infringement

of the Assigned IP; and (e) all other rights, privileges, protections or obligations, liabilities and responsibilities of any kind whatsoever of Assignor accruing under any of the foregoing.

2. Proxy Service and Electronic Transfer for Domain Names. Assignor hereby authorizes and requests, or will cause any proxy service that registered any of the assigned domain names on Assignor's behalf to authorize or request, the applicable registration authority to transfer the assigned domain names from Assignor or such proxy service, as the case may be, to Assignee. Assignor agrees to cooperate with Assignee to initiate and complete the transfer process in relation to the assigned domain names electronically from Assignor's account to Assignee's account and servers.

3. Further Assurances. Assignor covenants and agrees that, at any time and from time to time upon the request of Assignee, Assignor shall provide any further necessary documentation and do all further acts, including working with affiliates of Assignor as required to update all domain name registries, reasonably requested by Assignee to confirm and perfect title in and to the Assigned IP in Assignee, its successors and assigns. Assignor hereby authorizes the Commissioner for Patents and the Commissioner for Trademarks of the United States Patent and Trademark Office, and any other government authority to record and register this Agreement upon request by Assignee. If the Assignee is unable, after reasonable effort, to secure the Assignor's signature on any such documentation for any reason whatsoever, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents as such Assignor's agent and attorney-in-fact, to act for and in such Assignor's behalf and stead to execute and file any such documents and to do all other lawfully permitted acts to further the prosecution, issuance and perfection of trademark or other intellectual property registrations or any other legal protection thereon with the same legal force and effect as if executed by such Assignor.

4. Entire Agreement. This Assignment, and the Merger Agreement, reflect the entire understanding of the Parties relating to the sale, assignment, transfer, conveyance and delivery of the Assigned IP from Assignor to Assignee, and supersedes all prior agreements, understandings or letters of intent between or among the Parties regarding the subject matter of this Assignment and the Merger Agreement.

5. Successors and Assigns. This Assignment shall be binding upon and inure to the benefit of the Parties and their respective successors and assigns.

6. Governing Law and Venue. This Assignment and all disputes or controversies arising out of or relating to this Assignment or the transactions contemplated hereby shall be governed by, and construed in accordance with, the internal laws of the State of Delaware, without regard to the laws of any other jurisdiction that might be applied because of the conflicts of laws principles of the State of Delaware. Each of the Parties irrevocably agrees that any legal action or proceeding arising out of or relating to this Assignment brought by any Party or its successors or assigns against any other Party shall be brought and determined in the Court of Chancery of the State of Delaware, provided that if jurisdiction is not then available in the Court of Chancery of the State of Delaware, then any such legal action or proceeding may be brought in any federal court located in the State of Delaware. Each of the Parties hereby irrevocably submits to the exclusive jurisdiction of the aforesaid courts for itself and with respect to its property, generally and unconditionally, with regard to any such action or proceeding arising out of or relating to this

Assignment and the transactions contemplated hereby. Each of the Parties agrees not to commence any action, suit or proceeding relating thereto except in the course described above in Delaware, other than actions in any court of competent jurisdiction to enforce any judgment, decree or award rendered by any such court in Delaware as described herein. Each of the Parties further agrees that notice as provided herein shall constitute sufficient service of process and the parties further waive any argument that such service is insufficient. Each of the Parties hereby irrevocably and unconditionally waives, and agrees not to assert, by way of motion or as a defense, counterclaim or otherwise, in any action or proceeding arising out of or relating to this Assignment or the transactions contemplated hereby, (a) any claim that it is not personally subject to the jurisdiction of the courts in Delaware as described herein for any reason, (b) that it or its property is exempt or immune from jurisdiction of any such court or from any legal process commenced in such courts (whether through service of notice, attachment prior to judgment, attachment in aid of execution of judgment, execution of judgment or otherwise) and (c) that (i) the suit, action or proceeding is improper or (iii) this Assignment, or the subject matter hereof, may not be enforced in or by such courts.

7. Counterparts. This Assignment may be executed in two or more counterparts, all of which shall be considered one and the same instrument and shall become effective when one or more counterparts have been signed by each of the Parties and delivered to each of the Parties. This Assignment may be executed by facsimile or .pdf signature and a facsimile or .pdf signature shall constitute an original for all purposes.
