## ASSIGNMENT OF INTELLECTUAL PROPERTY

This Assignment of Intellectual Property (this “Assignment”), effective as of August 26, 2022, is entered into by and between Fitness Anywhere LLC, a Delaware limited liability company, dba TRX and TRX Training (the “Debtor”), and JFXD TRX ACQ LLC, a Florida limited liability company (the “Assignee”).

**WHEREAS**, the Debtor and TRX Holdco, LLC, a Delaware limited liability company (“Holdco”) filed for bankruptcy protection under chapter 11 of the United States Code, 11 U.S.C. §§ 101 *et seq.* (the “Bankruptcy Code”), on June 8, 2022, in the United States Bankruptcy Court for the Central District of California, Santa Ana Division (the “Bankruptcy Court”), and were assigned Lead Case No.: 8:22-bk-10948-SC (for Holdco) being jointly administered with Case No.: 8:22-bk-10949-SC (for the Debtor).

**WHEREAS**, on August 25, 2022, the Bankruptcy Court entered an order approving, among other things, the sale of certain of the Debtor’s assets to the Assignee (the “Sale Order”) pursuant to the terms and conditions of that certain Asset Purchase Agreement by and among the Debtor, Holdco and JFXD Capital, LLC, a Florida limited liability company, dated as of August 26, 2022 (as amended, modified, or supplemented in accordance with its terms, the “Purchase Agreement”), pursuant to which, among other things, the Debtor agreed to assign all of its right, title and interest in certain Intellectual Property Rights to the Assignee, including: those certain patents and patent applications identified on Schedule A attached hereto (the “Assigned Patents”); those certain trademark registrations and applications identified on Schedule B attached hereto (the “Assigned Trademarks”); those certain copyright registrations and applications identified on Schedule C attached hereto (the “Assigned Copyrights”); and those certain internet domain name registrations identified on Schedule D attached hereto (the “Assigned Domain Names” and, together with the Assigned Patents, the Assigned Trademarks and the Assigned Copyrights, the “Assigned Intellectual Property”);

**NOW THEREFORE**, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, and in consideration of the mutual promises and the representations, warranties, covenants and agreements contained in this Assignment, and intending to be legally bound hereby, the parties hereto agree as follows:

1. Definitions. All capitalized terms not otherwise defined herein shall have the respective meanings ascribed to such terms in the Purchase Agreement.

2. Conveyance and Acceptance of Assigned Patents. The Debtor hereby sells, transfers, assigns, conveys and delivers to the Assignee, and the Assignee hereby purchases and acquires, all of the Debtor’s right, title and interest in and to the Assigned Patents, any and all patents and patent applications that claim priority to the Assigned Patents, including continuations, divisions, continuations-in-part, reissues and reexaminations thereof, all rights of action pertaining to the Assigned Patents, including the right to sue and recover for past, present and future infringement thereof, the right to secure registration of the Assigned Patents and of this Assignment, the right to initiate other proceedings before all governmental entities with respect to the Assigned Patents and the right to claim priority, file foreign counterparts and make applications for reissue and reexamination with respect to the Assigned Patents.

3. Conveyance and Acceptance of Assigned Trademarks. The Debtor hereby sells, transfers, assigns, conveys and delivers to the Assignee, and the Assignee hereby purchases and acquires, all of the Debtor's right, title and interest in and to the Assigned Trademarks, the goodwill of the business connected with the use of and symbolized by the Assigned Trademarks, the right to sue and recover for past, present and future infringement thereof, the right to secure registration of the Assigned Trademarks and of this Assignment and the right to initiate other proceedings before all governmental entities with respect to the Assigned Trademarks. Debtor and Assignee acknowledge that with respect to the United States intent-to-use trademark applications included in the Assigned Trademarks, the transfer of such applications accompanies, pursuant to the Purchase Agreement, the transfer of Sellers' business, or that portion of the business to which the trademarks pertain, which business is ongoing and existing.

4. Conveyance and Acceptance of Assigned Copyrights. The Debtor hereby sells, transfers, assigns, conveys and delivers to the Assignee, and the Assignee hereby purchases and acquires, all of the Debtor's right, title and interest in and to the Assigned Copyrights, the right to sue and recover for past, present and future infringement thereof, the right to secure registration of the Assigned Copyrights and of this Assignment and the right to initiate other proceedings before all governmental entities with respect to the Assigned Copyrights.

5. Conveyance and Acceptance of Assigned Domain Names. The Debtor hereby sells, transfers, assigns, conveys and delivers to the Assignee, and the Assignee hereby purchases and acquires, all of the Debtor's right, title and interest in and to the Assigned Domain Names, the goodwill of the business connected with the use of and symbolized by the Assigned Domain Names, the right to sue and recover for past, present and future infringement thereof, the right to secure registration of the Assigned Domain Names and of this Assignment and the right to initiate other proceedings before all Registering Authorities and governmental entities with respect to the Assigned Domain Names.

6. Recordation.

a. Authorization. The Debtor hereby authorizes and requests that the Commissioner for Patents, the Commissioner for Trademarks, the Register of Copyrights and any other sovereign official holding a corresponding position of authority in any other jurisdiction record this Assignment. The Debtor will, at the Assignee's request, take any and all reasonable actions, including the execution, acknowledgment and delivery of any and all documents, that the Assignee may reasonably request to record and perfect the Assignee's interest in and to the Assigned Patents, the Assigned Trademarks and the Assigned Copyrights.

b. Domain Names. The Debtor hereby authorizes each internet domain name registrar (the "Registering Authority") of the Assigned Domain Names to transfer and record in the name of the Assignee ownership of and administrative contact for all of the Assigned Domain Names. The Debtor will, at the Assignee's request, take any and all reasonable actions, including the execution, acknowledgment and delivery of any and all documents, that the Assignee may reasonably request to record and perfect the Assignee's interest in and to the Assigned Domain Names. Without limiting the foregoing, at the Assignee's request, the Debtor will cooperate with the Assignee to (i) complete any registrant name change agreement or other form required by any applicable Registering Authority to effect or record the assignment

contemplated by this Assignment; (ii) submit those registrant name change agreements or other forms to the Registering Authority in accordance with the Registering Authority's policies and rules; and (iii) take any further actions required by the Registering Authority's policies and rules to transfer the Assigned Domain Names to the Assignee.

7. Further Assurances. Without limiting the Debtor's obligations in Section 6, each party hereto shall do and perform all such further acts and things, and shall execute and deliver all such other agreements, certificates, instruments and documents, as the other party hereto may reasonably request in order to carry out and accomplish the purpose of this Assignment and all actions contemplated hereby.

8. Terms of the Purchase Agreement. The terms of the Purchase Agreement, including, but not limited to, the Debtor's and the Assignee's representations, warranties, covenants, agreements and indemnities, are incorporated herein by this reference. The provisions of this Assignment are subject to the terms and conditions of the Purchase Agreement. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement shall govern, supersede and prevail.

9. Amendment; Modification. Neither this Assignment nor any of the terms hereof may be terminated, amended, supplemented or modified orally, but only by an instrument in writing signed by the Debtor and the Assignee.

10. Governing Law. This Assignment shall be governed by and construed in accordance with the Bankruptcy Code, to the extent applicable, and, where state law is implicated, the internal laws of the state of California, without giving effect to any principles of conflicts of law. Without limiting any party's right to appeal any Order of the Bankruptcy Court, the parties agree that if any dispute arises out of or in connection with this Assignment or any of the documents executed hereunder or in connection herewith, the Bankruptcy Court shall have exclusive personal and subject matter jurisdiction and shall be the exclusive venue to resolve any and all disputes relating to this Assignment. The Bankruptcy Court shall have sole jurisdiction over such matters and the parties affected thereby, and Assignee and Debtor each hereby consent and submit to such jurisdiction; provided, however, that if the Bankruptcy Cases have closed and cannot be reopened, the parties agree to unconditionally and irrevocably submit to the exclusive jurisdiction of the United States District Court for the district in which the Bankruptcy Court is located and any appellate court thereof, for the resolution of any such claim or dispute. The parties hereto hereby irrevocably waive, to the fullest extent permitted by applicable law, any objection which they may now or hereafter have to the laying of venue of any such dispute brought in such court or any defense of inconvenient forum for the maintenance of such dispute. Each of the parties hereto agrees that a judgment in any such dispute may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by law. In the event any such action, suit or proceeding is commenced, the parties hereto hereby agree and consent that service of process may be made, and personal jurisdiction over any party hereto in any such action, suit or proceeding may be obtained, by service of a copy of the summons, complaint and other pleadings required to commence such action, suit or proceeding upon the party at the address of such party set forth in Section 12.8 of the Purchase Agreement, unless another address has been designated by such party in a notice given to the other party in accordance with the provisions of Section 12.8 of the Purchase Agreement.

11. Counterparts. This Assignment may be executed in separate counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. This Assignment shall become effective when counterparts have been signed by each of the parties and delivered by facsimile or other means to the other party. Signatures transmitted by facsimile or electronically shall be deemed to have the same force and effect as original signatures.
