INTELLECTUAL PROPERTY SECURITY AGREEMENT

This Intellectual Property Security Agreement (“Agreement”) dated as of November 22, 2022 is entered into by and between Eastward Fund Management, LLC., a Delaware limited liability company with an address at 432 Cherry St., West Newton, MA 02465 (“Lender”) and Udisense Inc., a Delaware corporation with an address at 244 Fifth Ave., 2nd Floor #2702, New York, NY 10001 (“Grantor”).

RECITALS

A. Lender has agreed to make certain advances of money and to extend certain financial accommodation to Grantor (the “Loans”) in the amounts and manner set forth in that certain Loan and Security Agreement by and between Lender and Grantor dated the Effective Date (as the same may be amended, modified or supplemented from time to time, the “Loan Agreement”; capitalized terms used herein are used as defined in the Loan Agreement). Lender is willing to make the Loans to Grantor, but only upon the condition, among others, that Grantor shall grant to Lender a security interest in certain Copyrights, Trademarks, Patents, and Mask Works (as each term is described below) to secure the obligations of Grantor under the Loan Agreement.

B. Pursuant to the terms of the Loan Agreement, Grantor has granted to Lender a security interest in all of Grantor’s right, title and interest, whether presently existing or hereafter acquired, in, to and under all of the Collateral.

NOW, THEREFORE, for good and valuable consideration, receipt of which is hereby acknowledged, and intending to be legally bound, as collateral security for the prompt and complete payment when due of its obligations under the Loan Agreement, Grantor hereby represents, warrants, covenants and agrees as follows:

AGREEMENT

1. Grant of Security Interest. To secure its obligations under the Loan Agreement, Grantor grants and pledges to Lender a security interest in all of Grantor’s right, title and interest in, to and under its intellectual property (all of which shall collectively be called the “Intellectual Property Collateral”), including, without limitation, the following:

(a) Any and all copyright rights, copyright applications, copyright registrations and like protections in each work or authorship and derivative work thereof, whether published or unpublished and whether or not the same also constitutes a trade secret, now or hereafter existing, created, acquired or held, including without limitation those set forth on Exhibit A attached hereto (collectively, the “Copyrights”);

(b) Any and all trade secrets, and any and all intellectual property rights in computer software and computer software products now or hereafter existing, created, acquired or held;

(c) Any and all design rights that may be available to Grantor now or hereafter existing, created, acquired or held;

(d) All patents, patent applications and like protections including, without limitation, improvements, divisions, continuations, renewals, reissues, extensions and continuations-in-part of the same, including without limitation the patents and patent applications set forth on Exhibit B attached hereto and any patents and patent applications claiming the priority benefit of the patents and patent applications set forth on Exhibit B attached hereto (collectively, the "Patents");

(e) Any trademark and servicemark rights, whether registered or not, applications to register and registrations of the same and like protections, and the entire goodwill of the business of Grantor connected with and symbolized by such trademarks, including without limitation those set forth on Exhibit C attached hereto (collectively, the "Trademarks");

(f) All mask works or similar rights available for the protection of semiconductor chips, now owned or hereafter acquired, including, without limitation those set forth on Exhibit D attached hereto (collectively, the "Mask Works");

(g) Any and all claims for damages by way of past, present and future infringements of any of the rights included above, with the right, but not the obligation, to sue for and collect such damages for said use or infringement of the intellectual property rights identified above;

(h) All licenses or other rights to use any of the Copyrights, Patents, Trademarks, or Mask Works and all license fees and royalties arising from such use to the extent permitted by such license or rights;

(i) All amendments, renewals and extensions of any of the Copyrights, Trademarks, Patents, or Mask Works; and

(j) All proceeds and products of the foregoing, including without limitation all payments under insurance or any indemnity or warranty payable in respect of any of the foregoing.

Notwithstanding the foregoing, the term "Intellectual Property Collateral" shall not include "intent-to-use" trademarks at all times prior to the first use thereof, whether by the actual use thereof in commerce, the recording of a statement of use with the United States Patent and Trademark Office or otherwise, but only to the extent the granting of a security interest in such "intent-to-use" trademarks would be contrary to applicable law.

2. Recordation. Grantor authorizes the Commissioner for Patents, the Commissioner for Trademarks and the Register of Copyrights and any other government officials to record and register this Agreement upon request by Lender.

3. Authorization. Grantor hereby authorizes Lender to (a) modify this Agreement unilaterally by amending the exhibits to this Agreement to include any Intellectual Property Collateral which Grantor obtains subsequent to the date of this Agreement, and (b) file a duplicate

original of this Agreement containing amended exhibits reflecting such new Intellectual Property Collateral.

4. Loan Documents. This Agreement has been entered into pursuant to and in conjunction with the Loan Agreement, which is hereby incorporated by reference. The provisions of the Loan Agreement shall supersede and control over any conflicting or inconsistent provision herein. The rights and remedies of Lender with respect to the Intellectual Property Collateral are as provided by the Loan Agreement and related documents, and nothing in this Agreement shall be deemed to limit such rights and remedies.

5. Execution in Counterparts. This Agreement may be executed in counterparts (and by different parties hereto in different counterparts), each of which shall constitute an original, but all of which when taken together shall constitute a single contract. Delivery of an executed counterpart of a signature page to this Agreement by facsimile or in electronic (i.e., “pdf” or “tif” format) shall be effective as delivery of a manually executed counterpart of this Agreement.

6. Successors and Assigns. This Agreement will be binding on and shall inure to the benefit of the parties hereto and their respective successors and assigns.

7. Governing Law. This Agreement and any claim, controversy, dispute or cause of action (whether in contract or tort or otherwise) based upon, arising out of or relating to this Agreement and the transactions contemplated hereby and thereby shall be governed by, and construed in accordance with, the laws of the United States and the Commonwealth of Massachusetts, without giving effect to any choice or conflict of law provision or rule (whether of the Commonwealth of Massachusetts or any other jurisdiction).

[Signature page follows.]

IN WITNESS WHEREOF, the parties have caused this Intellectual Property Security Agreement to be duly executed by its officers thereunto duly authorized as of the first date written above.

Infant wear; children's and infant's apparel, namely, jumpers, overall sleepwear, pajamas, rompers and one-piece garments; waist bands; infant wearable blankets; infant sleepers being clothing; infant and toddler one piece clothing. 35 Int. Retail store services featuring a wide variety of consumer electronics and goods; online retail store services featuring a wide variety of consumer electronics and goods; data processing services; systemization of data in computer databases; compiling of information into computer databases; systemization of information into computer databases; updating and maintenance of data in computer databases; computerized database management; database management. 42 Int. Software as a service (SAAS) services featuring software for viewing, monitoring, and analyzing video streams and for receiving alert notifications; hosting a website featuring technology that allows subscribers to view, monitor, and analyze video streams and to receive notifications; hosting a web site featuring technology that enables internet users to share documents, images and videos; providing online non-downloadable software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, sharing, streaming, receiving, playing and viewing images, audio, video and data files; providing online non-downloadable software for sleep tracking and management; providing online non-downloadable software using artificial intelligence for machine learning; cloud storage services for electronic data and files; providing online non-downloadable cloud computing software for use in electronic storage of data; providing an online network environment that features technology that enables users to share data; technical support services, namely, troubleshooting in the nature of diagnosing computer software and hardware problems; providing online non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; providing online non-downloadable augmented and virtual reality software for navigating an augmented reality environment; providing online non-downloadable augmented and virtual reality software for object tracking, motion control and content visualization; providing online non-downloadable machine learning software; providing online non-downloadable neural network software; providing online non-downloadable software for facilitating data transmission, data collection, data analysis, and decision-making; providing online non-downloadable software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; providing online non-downloadable software for data management, analytics and pattern and activity recognition; providing online non-downloadable software, namely, knowledge-

based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; providing online non-downloadable software for the storage of electronic data; providing online non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; troubleshooting in the nature of diagnosing problems with consumer electronics. 44 Int. Consulting services in the field of child and infant sleep management; providing information and advice in the field of child and infant sleep management.

NANIT: 09 Int. Baby monitors; cameras; video cameras; digital video cameras; video monitors; remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; computer hardware; wireless communication devices for voice, data or image transmission; apparatus for transmission of communication; apparatus for recording, transmission or reproduction of sound; sound and video recording and playback machines; electronic devices for detecting movement and measuring height; breath monitoring apparatus, other than for medical purposes; sensors, cameras, and monitors; temperature, humidity, and sleep tracking sensors; downloadable and recorded software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, sharing, streaming, receiving, playing and viewing images, audio, video and data files; downloadable and recorded computer application software for mobile phones and other wireless devices, namely, software for viewing, monitoring, and analyzing video streams and receive alert notifications; downloadable and recorded software allowing subscribers to view, monitor, and analyze video streams and to receive notifications; downloadable and recorded software for sleep tracking and management; downloadable and recorded computer software using artificial intelligence for machine learning; downloadable and recorded software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; downloadable and recorded augmented and virtual reality software for navigating an augmented reality environment; downloadable and recorded augmented and virtual reality software for object tracking, motion control and content visualization; downloadable and recorded machine learning software; downloadable and recorded neural network software; downloadable and recorded software for facilitating data transmission, data collection, data analysis, and decision-making; downloadable and recorded software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; downloadable and recorded software for data management, analytics and pattern and

environment; downloadable and recorded augmented and virtual reality software for object tracking, motion control and content visualization; downloadable and recorded machine learning software; downloadable and recorded neural network software; downloadable and recorded software for facilitating data transmission, data collection, data analysis, and decision-making; downloadable and recorded software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; downloadable and recorded software for data management, analytics and pattern and activity recognition; downloadable and recorded software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; downloadable and recorded software for the storage of electronic data; downloadable and recorded software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; cases for baby monitors, video monitors, cameras, and video cameras; mounts for baby monitors, video monitors, cameras, and video cameras; stands for baby monitors, video monitors, cameras, and video cameras. 11 Int. Electric night lights. 18 Int. Travel cases; travel bags; carrying cases. 24 Int. Bed sheets; bed linen; crib sheets; sleeping bags; swaddling blankets; baby bedding, namely, fitted crib sheets and crib blankets. 25 Int. Infant wear; children's and infant's apparel, namely, jumpers, overall sleepwear, pajamas, rompers and onepiece garments; swaddling clothes; waste bands; infant wearable blankets; infant sleepers being clothing; infant and toddler one piece clothing; headwear and footwear. 35 Int. Retail store services featuring a wide variety of consumer electronics and goods; online retail store services featuring a wide variety of consumer electronics and goods; data processing services; systemization of data in computer databases; compiling of information into computer databases; systemization of information into computer databases; updating and maintenance of data in computer databases; computerized database management; database management. 42 Int. Software as a service (SAAS) services featuring software for viewing, monitoring, and analyzing video streams and for receiving alert notifications; providing a website featuring technology that allows subscribers view, monitor, and analyze video streams and to receive notifications; providing a web site featuring technology that enables internet users to share documents, images and videos; providing online non-downloadable software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, sharing, streaming, receiving, playing and viewing images, audio, video and data files; providing online non-downloadable software for sleep tracking and management; providing online non-downloadable software using artificial intelligence for

machine learning; cloud storage services for electronic data and files; providing online non-downloadable cloud computing software for use in electronic storage of data; providing an online network environment that features technology that enables users to share data; technical support services, namely, troubleshooting of computer software and hardware problems; providing online non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; providing online non-downloadable augmented and virtual reality software for navigating an augmented reality environment; providing online non-downloadable augmented and virtual reality software for object tracking, motion control and content visualization; providing online non-downloadable machine learning software; providing online non-downloadable neural network software; providing online non-downloadable software for facilitating data transmission, data collection, data analysis, and decision-making; providing online non-downloadable software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; providing online non-downloadable software for data management, analytics and pattern and activity recognition; providing online non-downloadable software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; providing online non-downloadable software for the storage of electronic data; providing online non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; troubleshooting in the nature of diagnosing problems with consumer electronics; Software as a service (SAAS) services featuring software for viewing, monitoring, and analyzing video streams and for receiving alert notifications; providing a website featuring technology that allows subscribers view, monitor, and analyze video streams and to receive notifications; providing a web site featuring technology that enables internet users to share documents, images and videos; providing online non-downloadable software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, sharing, streaming, receiving, playing and viewing images, audio, video and data files; providing online non-downloadable software for sleep tracking and management; providing online non-downloadable software using artificial intelligence for machine learning; cloud storage services for electronic data and files; providing online non-downloadable cloud computing software for use in electronic storage of data; providing an online network environment that features technology that enables users to share data; technical support services, namely, troubleshooting of computer software and

hardware problems; providing online non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; providing online non-downloadable augmented and virtual reality software for navigating an augmented reality environment; providing online non-downloadable augmented and virtual reality software for object tracking, motion control and content visualization; providing online non-downloadable machine learning software; providing online non-downloadable neural network software; providing online non-downloadable software for facilitating data transmission, data collection, data analysis, and decision-making; providing online non-downloadable software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; providing online non-downloadable software for data management, analytics and pattern and activity recognition; providing online non-downloadable software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; providing online non-downloadable software for the storage of electronic data; providing online non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; troubleshooting in the nature of diagnosing problems with consumer electronics. 44 Int. Consulting services in the field of child and infant sleep management; Providing information and advice in the field of child and infant sleep management

NANIT: 09 Int. Baby monitors; computer application software for mobile phones and other wireless devices, namely, software for viewing, monitoring, and analyzing video streams and receive alert notifications; downloadable software allowing subscribers to view, monitor, and analyze video streams and to receive notifications. 42 Int. Software as a service (SAAS) services featuring software for viewing, monitoring, and analyzing video streams and for receiving alert notifications; Providing a website featuring technology that allows subscribers view, monitor, and analyze video streams and to receive notifications.

NANIT: 09 Int. Baby monitors; cameras; video cameras; digital video cameras; video monitors; remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; computer hardware; wireless communication devices for voice, data or image transmission; apparatus for transmission of communication; apparatus for recording, transmission or reproduction of sound; sound and video recording and

playback machines; electronic devices for detecting movement, monitoring breathing, and measuring height; day and night vision systems primarily comprised of day and night sensors, day and night cameras, and monitors; temperature, humidity, and sleep tracking sensors; downloadable and recorded software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, sharing, streaming, receiving, playing and viewing images, audio, video and data files; downloadable and recorded computer application software for mobile phones and other wireless devices, namely, software for viewing, monitoring, and analyzing video streams and receive alert notifications; downloadable and recorded software allowing subscribers to view, monitor, and analyze video streams and to receive notifications; downloadable and recorded software for sleep tracking and management; downloadable and recorded computer software using artificial intelligence for machine learning; downloadable and recorded software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; downloadable and recorded augmented and virtual reality software for navigating an augmented reality environment; downloadable and recorded augmented and virtual reality software for object tracking, motion control and content visualization; downloadable and recorded machine learning software; downloadable and recorded neural network software; downloadable and recorded software for facilitating data transmission, data collection, data analysis, and decision-making; downloadable and recorded software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; downloadable and recorded software for data management, analytics and pattern and activity recognition; downloadable and recorded software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; downloadable and recorded software for the storage of electronic data; downloadable and recorded software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; cases for baby monitors, video monitors, cameras, and video cameras; mounts for baby monitors, video monitors, cameras, and video cameras; stands for baby monitors, video monitors, cameras, and video cameras. 11 Int. Electric night lights. 18 Int. Travel cases; travel bags; carrying cases. 24 Int. Bed sheets; bed linen; crib sheets; sleeping bags; swaddling blankets; baby bedding, namely, fitted crib sheets and crib blankets. 25 Int. Infant wear; children's and infant's apparel, namely, jumpers, overall sleepwear, pajamas, rompers and onepiece garments; swaddling clothes; waist bands; infant wearable blankets; infant sleepers being clothing; infant and toddler one piece

clothing. 35 Int. Retail store services featuring a wide variety of consumer electronics and goods; online retail store services featuring a wide variety of consumer electronics and goods; data processing services; systemization of data in computer databases; compiling of information into computer databases; systemization of information into computer databases; updating and maintenance of data in computer databases; computerized database management; database management. 42 Int. Software as a service (SAAS) services featuring software for viewing, monitoring, and analyzing video streams and for receiving alert notifications; providing a website featuring technology that allows subscribers view, monitor, and analyze video streams and to receive notifications; providing a web site featuring technology that enables internet users to share documents, images and videos; providing online non-downloadable software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, sharing, streaming, receiving, playing and viewing images, audio, video and data files; providing online non-downloadable software for sleep tracking and management; providing online non-downloadable software using artificial intelligence for machine learning; cloud storage services for electronic data and files; providing online non-downloadable cloud computing software for use in electronic storage of data; providing an online network environment that features technology that enables users to share data; technical support services, namely, troubleshooting of computer software and hardware problems; providing online non-downloadable software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; providing online non-downloadable augmented and virtual reality software for navigating an augmented reality environment; providing online non-downloadable augmented and virtual reality software for object tracking, motion control and content visualization; providing online non-downloadable machine learning software; providing online non-downloadable neural network software; providing online non-downloadable software for facilitating data transmission, data collection, data analysis, and decision-making; providing online non-downloadable software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; providing online non-downloadable software for data management, analytics and pattern and activity recognition; providing online non-downloadable software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, unsupervised learning, data mining, predictive analytics, business intelligence, and computer vision; providing online non-downloadable software for the storage of electronic data; providing online non-downloadable software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning, unsupervised learning, data mining, predictive

analytics, business intelligence, and computer vision; troubleshooting in the nature of diagnosing problems with consumer electronics. 44 Int. Consulting services in the field of child and infant sleep management; Providing information and advice in the field of child and infant sleep management

NANIT: 09 Int. Baby monitors; cameras; video cameras; digital video cameras; video monitors; remote video monitoring system consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; computer hardware; wireless communication devices for voice, data or image transmission; apparatus for transmission of communication; apparatus for recording, transmission or reproduction of sound; sound and video recording and playback machines; electronic devices for detecting movement, monitoring breathing, and measuring height; day and night vision systems primarily comprised of day and night sensors, day and night cameras, and monitors; temperature, humidity, and sleep tracking sensors; downloadable and recorded software for processing, reproducing, synchronizing, recording, organizing, downloading, uploading, transmitting, sharing, streaming, receiving, playing and viewing images, audio, video and data files; downloadable and recorded computer application software for mobile phones and other wireless devices, namely, software for viewing, monitoring, and analyzing video streams and receive alert notifications; downloadable and recorded software allowing subscribers to view, monitor, and analyze video streams and to receive notifications; downloadable and recorded software for sleep tracking and management; downloadable and recorded computer software using artificial intelligence for machine learning; downloadable and recorded software for facilitating interaction and communication between humans and AI (artificial intelligence) platforms; downloadable and recorded augmented and virtual reality software for navigating an augmented reality environment; downloadable and recorded augmented and virtual reality software for object tracking, motion control and content visualization; downloadable and recorded machine learning software; downloadable and recorded neural network software; downloadable and recorded software for facilitating data transmission, data collection, data analysis, and decision-making; downloadable and recorded software for use in general purpose computation, manipulation of collections of data, data analysis, image content analysis, information analysis, data transformation, data input/output, communications, speech recognition, graphics display, modeling and testing for use in the fields of artificial intelligence, deep learning, high performance computing, distributed computing, virtualization and machine learning; downloadable and recorded software for data management, analytics and pattern and activity recognition; downloadable and recorded software, namely, knowledge-based artificial intelligence platforms, data analytics platforms, and automation platforms for use in the fields of advanced visualization, data acquisition, data analysis, data integration, artificial intelligence, machine learning, deep learning, high performance computing, distributed computing, virtualization, natural language generation, statistical learning, supervised learning, un-supervised learning, data mining, predictive analytics, business intelligence, and computer vision; downloadable and recorded software for the storage of electronic data; downloadable and recorded software for artificial
