## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement (this "Assignment Agreement") is duly made, executed and delivered as of May 31, 2022, by and between Hayward Industries, Inc., a New Jersey corporation ("Assignee"), J&J Electronics, LLC, a California limited liability company ("J&J") and Halco Lighting Technologies, LLC, a Delaware limited liability company ("Halco" and, together with J&J, the "Assignors"). Capitalized terms used but not defined herein shall have the meanings ascribed to such terms in the Asset Purchase Agreement, dated as of the date hereof (as amended or otherwise modified from time to time, the "Purchase Agreement"), by and among Assignee and the Assignors.

### RECITALS:

A. Pursuant to, and subject to the terms and conditions of, the Purchase Agreement, each Assignor desires to sell, convey, transfer, deliver and assign to Assignee all of its right, title, and interest in and to the Purchased Intellectual Property including the Purchased Intellectual Property listed on Exhibit A hereto.

B. Pursuant to the Purchase Agreement, the execution and delivery of this Assignment Agreement is a condition precedent to the closing of the transactions contemplated by the Purchase Agreement.

C. Each Assignor is willing to assign all right, title, and interest it has in and to the Purchased Intellectual Property owned by, licensed to, or used or held for use by such Assignor on the terms and subject to the conditions set forth in this Assignment Agreement.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Assignors and Assignee agree as follows:

1. Assignment. Effective as of the date hereof, each Assignor hereby irrevocably sells, conveys, transfers, delivers and assigns to Assignee, its successors and assigns, in perpetuity, all of such Assignor's worldwide right, title, and interest in and to all Purchased Intellectual Property including the following (collectively the "Assigned IP"):

- a. the patents and patent applications listed in Exhibit A and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations and renewals thereof;
- b. the trademark registrations, trademark applications, and domain names listed in Exhibit A and all issuances, extensions and renewals thereof (the "Trademarks"), together with the goodwill of the business connected with the use of, and symbolized by, all the Trademarks provided that, with respect to the United States intent-to-use trademark applications listed in Exhibit A, the transfer of such applications accompanies, pursuant to the Purchase Agreement, the transfer, for the Assignor who is the owner of such application, of such Assignor's business or that portion of such Assignor's business to which the trademark that is the subject of such application, pertains and that business is ongoing and existing;
- c. all rights of any kind whatsoever of Assignors accruing under any of the foregoing provided by applicable law of any jurisdiction, by international treaties and conventions and otherwise throughout the world;

- d. any and all royalties, fees, income, payments and other proceeds now or hereafter due or payable with respect to any and all of the foregoing; and
- e. any and all claims and causes of action with respect to any of the foregoing, whether accruing before, on, or after the date hereof, including all rights to and claims for damages, restitution, and injunctive and other legal and equitable relief for past, present, and future infringement, dilution, misappropriation, violation, misuse, breach, or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Assurances. The Assignors shall provide Assignee, its successors and assigns with all such assistance as it may reasonably request, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, powers of attorney or other document, as may be necessary to effect, evidence, perfect, confirm or give full effect the assignment of the Assigned IP granted in Section 1 above. Each Assignor acknowledges and agrees that Assignee or any of Assignee's Affiliates may record and perfect this Assignment Agreement at the sole cost of Assignee, and each Assignor shall reasonably cooperate therewith. Each Assignor hereby authorizes the Commissioner for Patents and the Commissioner for Trademarks in the United States Patent and Trademark Office and the officials of corresponding entities or agencies in any applicable jurisdiction to record and register this Assignment Agreement upon request by Assignee. Without limiting the foregoing, Assignors will do all things necessary, proper or advisable to reasonably assist Assignee in transferring all domain names that are Assigned IP, including as applicable, placing each of the domain names in "unlocked" status and provide to Assignee the Internet domain name registrars' transfer authorization codes for each of the domain names and any other information required to effectuate the transfer of Assignors' right, title and interest in the domain names to Assignee. The Assignors shall not assert any right, title or interest in or to any of the Assigned IP and shall not use any of the Assigned IP except as otherwise expressly authorized by Assignee in writing.

3. Terms of the Purchase Agreement. The terms of the Purchase Agreement, including, but not limited to, the representations, warranties, covenants, agreements and indemnities relating to the Assigned IP are incorporated herein by this reference. The parties hereto acknowledge and agree that the representations, warranties, covenants, agreements and indemnities contained in the Purchase Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms hereof, the terms of the Purchase Agreement shall govern.

4. Controlling Law and Jurisdiction. This Assignment Agreement shall be construed in accordance with and governed by the laws of the State of New York notwithstanding its conflict of laws provisions and be subject to the governing law, jurisdiction and venue and waiver of jury trial provisions in Sections 7.11 and 7.12 of the Purchase Agreement.

5. Entire Agreement; Amendment. This Assignment Agreement, together with Exhibit A attached hereto, the Purchase Agreement and the other agreements contemplated thereby, constitute the entire agreement between the parties with respect to the subject matter hereof, and supersede any and all other understandings and agreements, either oral or written, between the parties hereto with respect to such subject matter. This Assignment Agreement may not be altered, amended or modified, except by written instrument signed by the parties hereto.

6. Non-Waiver of Rights. The failure of a party hereto to enforce any of the provisions of this Assignment Agreement or any rights with respect thereto shall in no way be considered to be a waiver of such provisions or rights or in any way affect the validity of this Assignment Agreement. In

order to be enforceable, a waiver must be in writing and signed by the party against whom the waiver is to be enforced. The failure of any party to exercise any of said provisions or rights shall not preclude or prejudice such party from later enforcing or exercising the same or any other provisions or rights that it may have under this Assignment Agreement.

7. Headings. The headings and captions used in this Assignment Agreement are intended and shall for all purposes be deemed to be for convenience only and shall have no force or effect whatsoever in the interpretation of this Assignment Agreement.

8. Counterparts. This Agreement may be executed in counterparts, each of which will be considered an original instrument and will become binding when each of the counterparts has been signed by each of the parties and delivered to the other parties. The exchange by the parties of copies of this Agreement and executed signature pages hereto by facsimile or other electronic transmission shall constitute effective execution and delivery of the Agreement and may be used in lieu of the original thereof for all purposes. In making proof of this Agreement, it shall not be necessary to produce or account for more than one such counterpart executed by the party against whom enforcement of this Agreement is sought.

9. Invalid Provisions. If any term, provision, covenant or condition of this Assignment Agreement is held by a court of competent jurisdiction to be invalid, void or unenforceable, the parties desire the remainder of the provisions to remain in full force and effect and not to be affected, impaired or invalidated.
