INTELLECTUAL PROPERTY TRANSFER AGREEMENT

This Intellectual Property Transfer Agreement (the "Agreement") is made and entered into as of December 31, 2021 (the "Effective Date"), by and between HN LA, Inc., a California corporation ("Transferor"), and HN IP, LLC, a Delaware limited liability company ("Transferee").

WHEREAS, Transferor is the owner and beneficiary of all rights, title, and interest in and to the trademarks listed by Trademark Registrations on Exhibit A hereto, and other trademarks, service marks, trade names, logo types and commercial symbols associated with the operation of "HEALTH NUT" restaurants and ancillary businesses, all goodwill associated therewith, and the products and services offered and sold in connection therewith, in each case excluding the trademarks, service marks, trade names, logo types and commercial symbols listed on Exhibit B (collectively, the "Marks").

WHEREAS, Transferor owns other related intellectual property, including goodwill, operating methods, know how, trade secrets, recipes, copyrights (which may include artwork, specimen advertisements, menus, and other literature), operating manuals and related materials associated with the operation of "HEALTH NUT" restaurants and ancillary businesses, and the products and services offered and sold in connection therewith (together with the Marks, the "Intellectual Property").

WHEREAS, Transferor desires to transfer and Transferee desires to acquire all right, title, and interest, and all goodwill associated therewith, in and to the Intellectual Property, and all registrations, and common law rights therein.

NOW THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties, intending to be legally bound, agree as follows:

1. Consideration. In full consideration of the transaction contemplated hereby, Transferee shall pay Transferor the sum of \$ [REDACTED]

2. Transfer.

a. Transferor hereby irrevocably sells, conveys, transfers, assigns, and delivers to Transferee, and Transferee hereby acquires and accepts the sale, grant, transfer and assignment of, all of Transferor's rights, title, and interest, in the United States of America and all foreign countries, in, to, and under the Intellectual Property, including all common law rights connected therein; together with the goodwill symbolized thereby and associated therewith, and any registrations of the Marks; and all income, royalties, fees, damages, and payments now or hereafter due or payable in respect to the Intellectual Property, and in and to any and all causes of action (either in law or in equity), and the right to enforce any rights and file any causes of action, including the right to recover damages, for any past, present, or future infringement or misappropriation of the Intellectual Property, as part of the entire business or portion thereof to which the Intellectual Property pertains as required by 15 U.S.C. § 1060 and any other relevant statutory provisions or law.

b. Transferor further covenants that it will execute all documents, papers, forms, and authorizations and take all other actions that may be necessary for securing, completing, or vesting in Transferee full rights, title, and interest in and to the intellectual property listed on Exhibit B and any other the Intellectual Property not transferred hereby.

2. Developments. As of the Effective Date, all Intellectual Property and any and all supplements, additions, alterations or derivations thereof, whether created or modified by Transferee, Transferor or any of their respective licensees, will be deemed property of Transferee. Without limiting

Intellectual Property Transfer Agreement

the generality of the above, if Transferor or any of its employees, contractors or licensees, develops, creates, invents, conceives or otherwise devises any intellectual property, works, ideas, concepts, inventions, formulas, trade secrets, know how, methods, techniques, copyrights, patents, trademarks, logos, or commercial symbols relating to the operation of "HEALTH NUT" restaurants or any ancillary "HEALTH NUT" business, or the products or services offered or sold in connection therewith (collectively, "Developments"), all such Developments shall be the sole property of Transferee and Transferee shall be the sole owner of all worldwide rights in connection therewith. Transferor agrees that all Developments developed, created, invented, conceived or otherwise devised by Transferor (or its employees, contractors or licensees) shall be considered "works made for hire" on behalf of Transferee under 17 U.S.C. Section 101. To the extent that any Developments do not qualify as "work made for hire," Transferor hereby assigns and agrees to assign all right, title and interest, including without limitation, all copyrights, patents, trademarks and all other intellectual property and proprietary rights in and to the Developments (and all renewals, extensions, reissues and the like thereof) to Transferee without any restrictions on, and without any obligation to pay additional consideration for, the use or exploitation thereof, including the right to modify such Developments and the right to sue for past and future infringement of any of such rights. Hereafter, all Developments will be deemed "Intellectual Property" under this Agreement, and be subject to this Agreement. Transferor shall not retain any right, title or interest whatsoever in the Developments, including, without limitation: (i) rights of attribution; (ii) claims based on Transferor's "moral rights" and similar theories; and (iii) liens, encumbrances and the like, and Transferor hereby irrevocably waives any claims based on (i)-(iii). Transferor shall execute all documents that Transferee requires to effect the intent of this provision and shall assist Transferee in every proper way to obtain and enforce patents, copyrights, trademarks or other proprietary rights in such Developments. If Transferee is unable for any reason whatsoever to secure Transferor's signature to any lawful and necessary document required to apply for or execute any application with respect to such Developments, Transferor hereby irrevocably designates and appoints Transferee and its duly authorized officers and agents, as Transferor's agents and attorneys-in-fact to act for and in its behalf and to execute and file any such application and to do all other lawfully permitted acts to further the prosecution and issuance of patents, copyrights, trademarks or other rights therein, with the same legal force and effect as if executed by Transferor. If and to the extent Transferor has or acquires any rights in the Developments, Transferor hereby grants to Transferee a non-exclusive, royalty-free, transferable, sub-licensable, irrevocable, perpetual, worldwide license in, to and under its rights to make, have made, modify, create derivative works of, use, sell, import, export, license, publicly display, market, distribute, grant security interests in or otherwise commercially exploit the Developments. Transferor will fully and promptly disclose to Transferee all Developments conceived or developed by Transferor, its employees, licensees or contractors, until the parties expressly otherwise agree in writing.

3. Further Assurances. Transferor further covenants that it will execute all documents, papers, forms, and authorizations and take all other actions that may be necessary for securing, completing, or vesting in Transferee full rights, title, and interest in and to the Intellectual Property.

4. Government Authorization. Transferor hereby authorizes all appropriate governments to record this Agreement, and to issue or transfer all Intellectual Property, including specially the Marks, to the Transferee as the legal and beneficial owner of all right, title, benefit, entitlement and interest therein, or otherwise as the Transferee may direct, in accordance with the terms of this Agreement.

5. Successors and Assigns. This Agreement shall be binding upon and inure to the benefit of the parties and their successors and assigns. This Agreement documents Transferor's and Transferee's agreement of the Effective Date and thereafter it is made solely for the benefit of the parties and their successors and assigns and no third party shall have any rights hereunder, including without limitation any third party beneficiary rights.

Intellectual Property Transfer Agreement

6. Amendments. This Agreement shall not be amended or modified except by a written instrument executed by the parties.

7. Governing Law. This Agreement shall be construed and governed by the laws of the State of California, exclusive of its conflict of law rules.

8. Counterparts. This Agreement may be executed in any number of counterparts, any of which may be transmitted by facsimile or via portable document format by other electronic means, each of which shall be deemed to be an original and all of which together shall be deemed to be one and the same instrument. However, this Agreement shall be ineffective for any purposes whatsoever unless or until executed by all parties hereto.

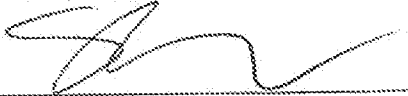

IN WITNESS WHEREOF, Transferor and Transferee have duly executed this Agreement, effective as of the Effective Date.
