WHEREAS, Assignee desires to acquire from Assignor, and Assignor desires to assign to Assignee, all of Assignor's rights, titles, and interests, throughout the world, in and to all Trademark Assets, all of the goodwill associated with the use of and symbolized by the Trademark Assets, and all other rights, titles, and interests set forth hereinbelow.

NOW, THEREFORE, in consideration of the mutual promises and covenants and agreements contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound, hereby agree as follows:

1. Assignor hereby irrevocably assigns, transfers, conveys and delivers to Assignee, and Assignee hereby accepts, all of Assignor's rights, titles, and interests, throughout the world, in and to the following (collectively, the "*Assigned Trademark Rights*"): (a) all Trademark Assets, together with all of the goodwill associated with the use of, and symbolized by, any and all of the Trademark Assets (and, further, with respect to each United States intent-to-use application for any mark (as listed on Schedule A hereto), the assignment, transfer, conveyance and delivery hereunder of any such intent-to-use application includes or otherwise accompanies the assignment, transfer, conveyance and delivery of at least that portion of Assignor's business to which such mark pertains, which business is ongoing and existing); (b) all applications for registration which have been or may be filed in the United States, internationally or in any foreign country(ies), for or in connection with, or that otherwise claim or may claim priority to or the benefit of, any of the Trademark Assets, and all registrations issuing therefrom in the United States, internationally and in any foreign country(ies), and all recordations, amendments, certificates of correction, extensions and renewals thereof or therefor; (c) all rights to file, prosecute, receive and secure, exclusively and directly in the name of Assignee, each of the Trademark Assets, registrations, applications for registration, recordations, amendments, certificates of correction, extensions and renewals referenced in Sections 1(a) and 1(b) hereof, and to claim any benefits, priority rights or other rights to which any of the foregoing are or may be entitled, in each case under the trademark laws of the United States, the trademark laws of any foreign country(ies), the Paris Convention for the Protection of Industrial Property, the Madrid Protocol, or any other international agreement, treaty, law or convention, or the domestic rules, laws, statutes or regulations of any country(ies); and (d) all of Assignor's other rights, titles, interests, privileges and protections of any kind or nature whatsoever, that, in each case, have accrued, are accruing, or may accrue under any of the foregoing pursuant to any applicable law, rule, statute, regulation, convention or treaty, and that, in each case, existed, exists, or may come into existence, anywhere in the world.

2. Assignor hereby irrevocably assigns, transfers, conveys and delivers to Assignee, and Assignee hereby accepts, all of Assignor's rights, titles, and interests, throughout the world, to sue or to bring any action or to assert any claim, whether at law or in equity, against any person(s) or entity(ies) with regard to any of the Assigned Trademark Rights (including, without limitation, for past, present or future infringement, misappropriation, violation, or unauthorized use of any of the Assigned Trademark Rights), to obtain injunctive relief therefor, and to recover or collect royalties, damages, and profits in connection therewith.

3. All Assigned Trademark Rights are to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as they would have been held and enjoyed by Assignor had this Assignment not been made. Assignor will do, and will cause to be done, all acts serving to ensure that the Assigned Trademark Rights are held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as they would have been held and enjoyed by Assignor had this Assignment not been made. Without limiting the generality of the foregoing, at the request of Assignee or its successors or assigns, Assignor shall: (a) execute and deliver, and cause to be executed and delivered, to Assignee all lawful documents (including, without limitation, any and all petitions, affidavits, declarations, oaths, assignments, affirmations of assignment, powers of attorney, deeds, bills of sale, instruments of assumption, instruments of recordation, or other instruments, in form and in substance as requested by Assignee), and take all such other actions, as may be necessary or prudent to (i) effect, evidence, affirm, perfect, register, or record this Assignment, or the assignment to Assignee (or any of its successors or assigns) of any of the Assigned Trademark Rights, (ii) prosecute, register, maintain, administrate, or enforce any of the Assigned Trademark Rights, or (iii) effect the intent and purposes of this Assignment (including without limitation the implementation and recordation of the transactions as contemplated by this Assignment), in each case for the benefit of Assignee or any of its successors or assigns; (b) furnish to Assignee (and, as applicable, any of its successors or assigns) all facts relating to the Assigned Trademark Rights and all file histories therefor, and all documents, information, specimens, and other evidence establishing or otherwise pertaining to the use of any of the Assigned Trademark Rights; and (c) fully cooperate with and otherwise assist Assignee (and, as applicable, any of its successors or assigns) in any proceedings relating to any such Assigned Trademark Rights (including, without limitation, by providing any documents, testimony or other evidence in any such proceedings), whether before the United States Patent and Trademark Office, any foreign office, any governmental office or administrative agency, or any other legal entity or body whatsoever.

4. Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents as its agents and attorneys in fact, coupled with an interest, to act for and on its behalf and in its stead to execute and file any documents and to do all other lawfully permitted acts to effect, evidence, affirm, perfect, register, or record Assignee's rights under this Assignment, with the same legal force and effect as if executed by Assignor or any of its successors, legal representatives or assigns. To that end, Assignor hereby grants Assignee and its duly authorized representatives the power to insert on this Assignment any further identification which may be necessary or prudent in order to comply with the rules of the United States Patent and Trademark Office, any foreign office, any governmental office or administrative agency, or any other legal entity or body whatsoever, for recordation and enforcement of this Assignment.

5. Assignor hereby authorizes and requests the United States Commissioner for Trademarks, and all similarly situated foreign officials, to issue any and all registration(s) resulting from any and all application(s) for registration (of, for, or otherwise pertaining to, any of the Assigned Trademark Rights) to Assignee, pursuant to the terms of this Assignment.

6. Assignor hereby covenants that it has the full right and authority to assign, transfer, convey and deliver to Assignee the Assigned Trademark Rights, and that Assignor has not executed, and

will not execute, any agreement(s) in conflict herewith. To that end, Assignor hereby further covenants that the Assigned Trademark Rights are not encumbered by any grant, license, or other right heretofore given. To the extent any of the Assigned Trademark Rights have been sold, assigned, transferred, conveyed and delivered to Assignee via another instrument, this Assignment shall operate as an affirmation of such sale, assignment, transfer, conveyance and delivery of the Assigned Trademark Rights to Assignee.

7. This Assignment, and the rights, titles, interests, duties and obligations hereunder, are freely assignable by Assignee in whole or in part. The duties and obligations of Assignor under this Assignment may not be assigned, delegated or transferred without the prior written consent of Assignee. This Assignment shall inure to the benefit of Assignee and its successors, assigns and other legal representatives, and shall be binding upon Assignor and its successors, assigns and other legal representatives.

8. This Assignment may be executed in one or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. The execution and delivery of counterparts of this Assignment, whether by facsimile or by scanned and emailed signatures or by original manual signature, and regardless of the variation in pagination or appearance, shall be binding upon the Parties executing this Assignment.
