INTELLECTUAL PROPERTY SECURITY AGREEMENT

This INTELLECTUAL PROPERTY SECURITY AGREEMENT (as amended, restated, amended and restated, supplemented or otherwise modified in writing from time to time, the “IP Security Agreement”) dated as of November 30, 2022, is made by the Persons listed on the signature pages hereof (collectively, the “Grantors”) in favor of TRUIST BANK, as collateral agent (in such capacity, the “Notes Collateral Agent”) for the Notes Secured Parties. Capitalized terms used but not otherwise defined herein have the meanings specified in the Security Agreement (as defined below).

WHEREAS, United Rentals (North America), Inc., a Delaware corporation (the “Company”), is party to an Indenture, dated as of November 30, 2022, with Truist Bank, as trustee (in such capacity, the “Trustee”) and Notes Collateral Agent, United Rentals, Inc., a Delaware corporation (“Holdings”) and the other Grantors party thereto (as amended, restated, amended and restated, supplemented or otherwise modified in writing prior to the date hereof, the “2022 Secured Notes Indenture”);

WHEREAS, pursuant to the 2022 Secured Notes Indenture, the Company is party to a Notes Security Agreement, dated as of November 30, 2022, with the Trustee and Notes Collateral Agent, Holdings and the other Grantors party thereto (as amended, restated, amended and restated, supplemented or otherwise modified in writing prior to the date hereof, the “Security Agreement”);

WHEREAS, under the terms of the Security Agreement, the Grantors have granted to the Notes Collateral Agent, for the ratable benefit of the Notes Secured Parties, a security interest in, among other property, certain Collateral (as defined in the Security Agreement), including certain intellectual property of the Grantors, and have agreed as a condition thereof to execute this IP Security Agreement for recording with the U.S. Patent and Trademark Office (“USPTO”);

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor agrees as follows:

SECTION 1. Grant of Security. Each Grantor hereby grants to the Notes Collateral Agent for the ratable benefit of the Notes Secured Parties a security interest in all of such Grantor’s right, title and interest in and to the following (the “IP Collateral”):

- (A) the patents and patent applications set forth in Schedule A hereto;
- (B) the trademark and service mark registrations and applications set forth in Schedule B hereto (provided that no security interest shall be granted in any “intent-to-use” application for registration until such time that a statement of use has been filed with the USPTO for such application), together with the goodwill symbolized thereby;
- (C) all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations of any of the foregoing, and, to the extent applicable, all rights in the foregoing;

(D) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages; and

(E) any and all proceeds of, collateral for, income, royalties and other payments now or hereafter due and payable with respect to, and supporting obligations relating to, any and all of the IP Collateral of or arising from any of the foregoing.

SECTION 2. Security Agreement; Termination. This IP Security Agreement has been entered into in furtherance, and not in limitation, of the security interests granted pursuant to the Security Agreement. Each Grantor hereby acknowledges and affirms that the grant of the security interest hereunder to, and the rights and remedies of, the Notes Collateral Agent with respect to the IP Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. This IP Security Agreement and the security interest granted herein shall terminate with respect to all of a Grantor's Indenture Obligations and any lien arising therefrom shall be automatically released upon termination of the Security Agreement or release of such Grantor's Indenture Obligations thereunder or as otherwise provided in the Security Agreement. The Notes Collateral Agent shall, in connection with any termination or release herein or under the Security Agreement, execute and deliver to the applicable Grantor(s), upon request, an instrument in writing releasing the security interest in the IP Collateral granted pursuant to this Agreement. Additionally, upon such payment (and when otherwise contemplated by the Security Agreement), the Notes Collateral Agent shall reasonably cooperate with any efforts made by a Grantor to make of record or otherwise confirm such satisfaction including, but not limited to, the release and termination of this IP Security Agreement and any security interest in, to or under the IP Collateral. In the event of any conflict between the terms of this IP Security Agreement and the Security Agreement, the terms of the Security Agreement shall govern.

SECTION 3. Recordation. Each Grantor authorizes and requests that the Commissioner for Patents and the Commissioner for Trademarks record this IP Security Agreement.

SECTION 4. Execution in Counterparts. This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement.

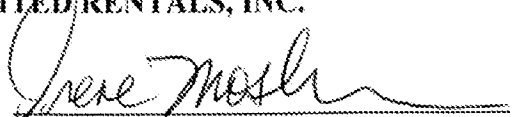

SECTION 5. Governing Law. This IP Security Agreement shall be governed by, and construed in accordance with, the laws of the State of New York without regard to conflict of laws principles thereof that would result in the application of any other laws.

[Remainder of This Page Intentionally Left Blank]
