This REGISTERED IP ASSIGNMENT AGREEMENT (this "Assignment") is made as of December 19, 2022 (the "Effective Date"), by and between Invitae Corporation, a Delaware corporation ("Invitae"), ArcherDX, LLC (together with its predecessor entity, ArcherDX, Inc., "Archer" and collectively with Invitae, the "Assignors"), and Integrated DNA Technologies, Inc., a Delaware corporation (the "Assignee").

RECITALS

WHEREAS, Invitae and the Assignee are parties to that certain Asset Purchase Agreement, dated as of the Effective Date (the "Purchase Agreement"), pursuant to which Invitae has agreed to, and to cause Archer to, sell, transfer, assign and deliver to the Assignee, and the Assignee has agreed to purchase from the Assignors, all of the Assignors' right, title and interest in, to and under the Purchased Assets (as defined in the Purchase Agreement), upon the terms and subject to the conditions set forth in the Purchase Agreement; and

WHEREAS, the Purchased Assets include the trademarks, service marks, trade dress, logos, slogans, trade names, corporate names, internet domain names and/or social media accounts listed on Exhibit A hereto, and all applications, registrations and renewals in connection therewith (collectively, the "Transferred Intellectual Property").

AGREEMENT

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Assignors and the Assignee hereby agree as follows:

1. Assignment. Each Assignor hereby irrevocably and unconditionally sells, transfers, assigns and delivers to the Assignee, and its successors and assigns, effective as of the Effective Date, all of such Assignor's right, title and interest in and to the Transferred Intellectual Property, including all claims, causes of action, remedies and rights to sue for and collect damages for future (post-Effective Date) infringement, misappropriation, or other violation thereof, any and all goodwill connected with the use thereof and symbolized thereby, all royalties, fees, income, payments, and other proceeds hereafter due or payable with respect thereto, and all rights to prosecute, register, maintain and defend the Transferred Intellectual Property before any public or private agency, office or registrar; in each case to the extent such right, title and interests arise from and after the Effective Date.

2. Further Actions. Each Assignor shall, from time to time, promptly at the request of the Assignee (and its successors and assigns), and without further consideration, execute and deliver such instruments of transfer, conveyance and assignment, powers of attorney and affidavits, in addition to those delivered, and take such other actions, as may be necessary or advisable to assign, transfer, convey and vest in the Assignee (and its successors and assigns), and to put the Assignee (and its successors and assigns) in possession of, the Transferred Intellectual Property, which shall include the recording of any other short-form assignment agreement or other documentation necessary to perfect, record or otherwise confirm the rights of the Assignee (and its successors and assigns) in the Transferred Intellectual Property in any jurisdiction. The Assignors shall, on the Effective Date, cause the applicable WHOIS database to identify the

Assignee as the registrant of the domain names included in the Transferred Intellectual Property and provide to the Assignee all administrative rights and administrative and technical access to such domain names as may be required to take sole possession and control thereof.

3. Recordation. Each Assignor hereby authorizes the Assignee to record this Assignment with any relevant governmental authority so as to perfect its ownership of the Transferred Intellectual Property. Each Assignor hereby authorizes and requests the Commissioner for Trademarks of the United States Patent and Trademark Office and other empowered officials of the United States Patent and Trademark Office, and the applicable domain name registrars, officials of corresponding entities or agencies in any applicable jurisdictions, and any other relevant authority, to transfer all registrations and applications for the Transferred Intellectual Property to the Assignee as assignee of all of each Assignor's right, title and interest therein, thereto and thereunder, and to issue to the Assignee all registrations which may issue with respect to any applications included in the Transferred Intellectual Property.

4. Miscellaneous.

(a) Binding Effect and Assignments. This Assignment shall be binding upon and shall inure to the benefit of the parties hereto and their respective successors and permitted assigns. No provision of this Assignment is intended to confer any rights, benefits, remedies, obligations or liabilities of any nature whatsoever under or by reason of this Assignment upon any person or entity other than the parties hereto and their respective successors and permitted assigns. No party hereto may assign this Assignment or any of its rights, interests, or obligations hereunder without the prior written approval of the other parties (except by the Assignee in connection with its assignment or transfer of applicable Transferred Intellectual Property); which approval shall not be unreasonably withheld, conditioned or delayed. No assignment shall relieve the assigning party of any of its obligations hereunder.

(b) Construction. The parties hereto acknowledge and agree that the representations, warranties, covenants, agreements and indemnities contained in the Purchase Agreement shall not be changed, amended, altered or superseded hereby but shall remain in full force and effect to the full extent provided therein. Except for the last sentence of Section 2 herein, this Assignment does not create or establish liabilities or obligations not otherwise created or existing under or pursuant to the Purchase Agreement. The parties hereto have participated jointly in the negotiation and drafting of this Assignment. In the event an ambiguity or question of intent or interpretation arises, this Assignment shall be construed as if drafted jointly by the parties hereto and no presumption or burden of proof shall arise favoring or disfavoring any party hereto by virtue of the authorship of any of the provisions of this Assignment. As used herein, "include", "includes", and "including" are deemed to be followed by "without limitation".

(c) Amendment and Modification. This Assignment may only be amended or modified in writing signed by all parties hereto.

(d) Counterparts; Electronic Delivery. This Assignment may be executed and delivered in two or more counterparts and by email (including PDF

Each party hereto hereby agrees that this Assignment may be executed and entered into electronically and that any electronic signature (as defined below), whether digital or encrypted, used by any party is intended to authenticate this Assignment and to have the same legal force and effect as a manual signature. For purposes of this Section, the term "electronic signature" means any electronic symbol, designation or process attached to or logically associated with an agreement, document, instrument, record or contract and adopted by a party hereto with the intent to sign such agreement, document, instrument, record or contract (including through the use of DocuSign or similar software).

(e) Governing Law; Jurisdiction; Waiver of Jury Trial.

- i. This Assignment and all claims or causes of action (whether in contract or tort or otherwise) that may be based upon, arise out of or relate to this Assignment or the negotiation, execution or performance of this Assignment (including any claim or cause of action based upon, arising out of or related to any representation or warranty made as an inducement to enter into this Assignment), shall be governed by the internal laws of the State of Delaware, without giving effect to conflict-of-laws principles that would result in the application of the laws of any other jurisdiction.
- ii. The parties hereto hereby irrevocably submit to the exclusive jurisdiction of the state or federal courts located in New Castle County within the State of Delaware over all claims or causes of action (whether in contract or tort or otherwise) that may be based upon, arise out of or relate to this Assignment or the negotiation, execution or performance of this Assignment (including any claim or cause of action, whether in contract or tort or otherwise, based upon, arising out of or related to any representation or warranty made as an inducement to enter into this Assignment) and each party hereto hereby irrevocably agrees that all claims in respect of any such dispute or any suit, action or proceeding related thereto (whether in contract or tort or otherwise) shall be heard and determined in such courts. The parties hereto hereby irrevocably waive, to the fullest extent permitted by applicable law, any objection that they may now or hereafter have to the laying of venue of any such dispute brought in such courts or any defense of inconvenient forum for the maintenance of such dispute. Each of the parties hereto agrees that a judgment in any such dispute may be enforced in other jurisdictions by suit on the judgment or in any other manner provided by applicable law.
- iii. EACH OF THE PARTIES HERETO HEREBY EXPRESSLY WAIVES THE RIGHT TO A TRIAL BY JURY IN ANY CLAIM OR CAUSE OF ACTION (WHETHER IN CONTRACT OR TORT

OR OTHERWISE) BROUGHT BY OR AGAINST IT THAT MAY BE BASED UPON, ARISE OUT OF OR RELATE TO THIS ASSIGNMENT OR THE NEGOTIATION, EXECUTION OR PERFORMANCE OF THIS ASSIGNMENT (INCLUDING ANY CLAIM OR CAUSE OF ACTION BASED UPON, ARISING OUT OF OR RELATED TO ANY REPRESENTATION OR WARRANTY MADE AS AN INDUCEMENT TO ENTER INTO THIS ASSIGNMENT).
