## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment (this "*Assignment*") is entered into as of January 20, 2023, by and among Cloudfinder Sweden AB ("*Assignor*") and eFolder, Inc., a Delaware corporation ("*Assignee*").

**WHEREAS**, Assignor has agreed to transfer to Assignee all worldwide intellectual property or proprietary rights owned by Assignor as of the effective date of this Assignment, including, but not limited to, the registered and unregistered trademarks including those listed on **Schedule A** attached hereto ("*Trademarks*"), the copyrights including those listed on the same **Schedule A** ("*Copyrights*"), the patents and patent applications including those listed on the same **Schedule A** ("*Patents*"), and collectively with the Trademarks, Copyrights, Patents, and all other worldwide intellectual property or proprietary rights owned by Assignor as of the effective date of this Assignment, the "*Intellectual Property Assets*"; and

**WHEREAS**, Assignor and the Assignee desire that the assignment of said rights in Trademarks and Patents be made of record in the United States Patent and Trademark Office (where applicable), the applicable state trademark offices (where applicable), and all foreign trademark offices and any other appropriate governmental or administrative offices (where applicable) as the case may be, and that the assignment of the Copyrights be made of record in the United States Copyright Office, all foreign copyright offices and any other appropriate governmental or administrative office.

**NOW, THEREFORE**, for one hundred dollars (\$100) cashed paid by Assignor to Assignee, and all other good and valuable consideration, the full receipt and sufficiency of which is hereby acknowledged, and intending to be legally bound hereby, the parties hereby agree as follows:

### ARTICLE I ASSIGNMENT

Assignor hereby irrevocably sells, assigns, transfers, conveys, and delivers to the Assignee and its successors and assigns all of Assignor's worldwide right, title and interest in and to all Intellectual Property Assets, including the following assignments:

(a) Assignor hereby assigns, transfers and delivers to the Assignee, all right, title and interest in and to Trademarks, including all of Assignor's state and common law rights and rights in foreign jurisdictions, together with the goodwill of the business of Assignor as symbolized by Trademarks, and the registrations and applications therefor, including all rights to damages and profits, due or accrued, arising out of past infringements of said Trademarks, and the right to sue for and recover the same, free and clear of all liens, claims, security interests and other encumbrances.

(b) Assignor hereby assigns, transfers and delivers to the Assignee all right, title, and interest in and to Copyrights including all registrations and applications therefor, as well as all copyrightable work disclosed or described in any such copyright registrations or applications, and any and all copyrights or similar rights, recognized under the laws of the United States of America or any other jurisdiction in said Copyrights, including all rights to damages and profits, due or accrued, arising out of past infringements of said Copyrights, and the right to sue for and recover the same, free and clear of all liens, claims, security interests and other encumbrances. Assignor hereby waives any claim that Assignor has or may have under any theory of moral or natural rights or any rights of attribution under the copyright laws of any jurisdiction with respect to said Copyrights to the extent such waiver is recognizable under the law of the controlling jurisdiction.

(c) Assignor hereby assigns, transfers and delivers to the Assignee the full, exclusive, and entire right, title, and interest in and to Patents, including any provisional rights therein, in and to any divisions, continuations, continuations-in-part, reexaminations, and reissues thereof, and in and to all inventions disclosed and described in said application and improvements thereof, preparatory to obtaining Letters Patent of the United States therefor, including all rights to damages and profits, due or accrued, arising out of past infringements of said Patents, and the right to sue for and recover the same, free and clear of all liens, claims, security interests and other encumbrances. Assignors hereby request the Director of Patents and Trademarks to issue any and all Letters Patent of the United States resulting from said application, or from a division, continuation, continuation-in-part, reexamination, or reissue thereof, to the

Assignee, as the Assignee, for its interest and for the sole use and benefit of the Assignee and its assigns and legal representatives.

(d) Assignor hereby assigns, transfers and delivers unto the Assignee the full, exclusive and entire right, title, and interest in and to any foreign patent or application or applications corresponding to said patent or application described in clause (c) above, in whole or in part, including any provisional rights therein, in countries other than the United States in part, in and to any Letters Patent and similar protective rights granted on said foreign patents or applications, and in and to the right to claim any applicable priority rights arising from or required for said foreign applications under the terms of any applicable conventions, treaties, statutes, or regulations, and hereby request said foreign applications to be filed and issued in the name of the Assignee, or its designee insofar as permitted by applicable law, including all rights to damages and profits, due or accrued, arising out of past infringements of said Patents, and the right to sue for and recover the same, free and clear of all liens, claims, security interests and other encumbrances.

## **ARTICLE II COOPERATION AND RECORDATION.**
