## INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Purchase Agreement ("Agreement") is effective January 19, 2023, and is between Tishcon Corp., a New York corporation ("Tishcon"), and Quten Research Institute, LLC, a Delaware series limited liability company ("Purchaser").

**WHEREAS**, Tishcon and Purchaser are parties to the Asset Purchase Agreement, dated as of January 5, 2023, by and among Purchaser, Tishcon, Raj K. Chopra, Bio-Enhance Holdings, LLC and Bio-Enhance Technologies, Inc. (the "Purchase Agreement"), pursuant to which Tishcon has transferred and agreed to transfer to Purchaser all right, title, and interest in and to certain intellectual property assets.

**WHEREAS**, in accordance with the Purchase Agreement, Tishcon wants to contribute, transfer, assign, set over and convey to Purchaser, and Purchaser wants to acquire, receive and accept all of Tishcon's right, title and interest in the trademark registrations and applications set forth on Exhibit A hereto and the trademarks covered thereby (the "Marks") together with all goodwill of the business symbolized by or associated with the Marks; the patents and patent applications set forth on Exhibit B hereto and the inventions disclosed therein (the "Patents"); and the copyright registrations and applications set forth on Exhibit C hereto and the copyrights and works of authorship covered thereby (the "Copyrights," and together with the Marks and Patents, the "Assigned IP").

**NOW, THEREFORE**, the parties agree as follows:

For good and valuable consideration as set forth in the Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, Tishcon hereby irrevocably assigns to Purchaser all of Tishcon's right, title and interest in and to the Assigned IP as it exists anywhere in the world and as may be created or acquired based thereon on any date in the future, along with all goodwill of the business symbolized by or associated with the Marks, and all claims arising out of or relating to the use or ownership of the Assigned IP. This assignment includes without limitation all applications for the Assigned IP, all priority rights or claims based on international conventions, all rights to proceeds of the Assigned IP, including income, royalties, damages, profits, and payments now or hereafter payable, and all rights of action of Tishcon, including the rights to initiate and maintain proceedings and to seek and recover damages and all other available remedies, against third parties for past, present, or future infringement of the Assigned IP.

The transfer and assignment of all applications for Marks that were filed based on an intent-to-use the mark and for which a statement of use or amendment to allege use has not yet been accepted by the United States Patent and Trademark Office is conditioned on the statement of use or amendment to allege use for such Mark being accepted by the United States Patent and Trademark Office or a finding that Purchaser is the successor to the portion of the business of Tishcon to which the Mark pertains.

Tishcon shall execute and deliver any other documents and perform any other reasonable acts Purchaser may request, that may be necessary and appropriate to effectuate the provisions of this Agreement.

Nothing in this Agreement, express or implied, is intended to or shall be construed to modify, expand, supersede or limit in any way the terms, conditions or obligations of the Purchase Agreement. In the event that any provision of this Agreement shall be construed to conflict with a provision in the Purchase Agreement, the provision in the Purchase Agreement shall control.

This Agreement may be executed in one or more counterparts, each of which shall be deemed an original, and together shall constitute one and the same Agreement, it being understood that the parties hereto need not sign the same counterpart.
