TRADEMARK ASSIGNMENT

This Trademark Assignment (this "Assignment"), effective as of July 27, 2021 (the "Effective Date"), is by and between BIN SCIENCE, LLC, a Delaware limited liability company ("Assignee"), and VITASPAN CORPORATION, a Virginia corporation ("Assignor"). Assignor and Assignee are sometimes referenced individually herein as a "Party" and together as the "Parties."

WHEREAS, Assignor is the owner of all rights, title and interest in and to the trademark and trademark registrations set forth in Schedule 1 incorporated herein by reference, together with all goodwill associated therewith (the "Marks");

WHEREAS, pursuant to that certain Asset Purchase Agreement, dated as of July 27, 2021, by and among the Assignee, Assignor, Courtenay Betz and Michael Betz ("Asset Purchase Agreement"), Assignor has agreed to assign and transfer to Assignee all of Assignor's rights, title and interest in and to the Marks; and

WHEREAS, it is the purpose of this Assignment to memorialize the assignment and transfer of all of Assignor's rights, title and interest in and to the Marks to Assignee, in a form suitable for recording in the United States Patent and Trademark Office.

NOW, THEREFORE, in consideration of the foregoing premises, and for other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, the Parties agree as follows:

1. Assignment. Assignor hereby sells, assigns, transfers, conveys and delivers to Assignee, all of Assignor's rights, title and interest in, to, and under, the Marks together with the goodwill of the business associated with the Marks, and in and to all income, royalties, damages, claims and payments now or hereafter due or payable with respect hereto, and in and to all causes of action, either in law or in equity for past, present or future infringement of the Marks. Such rights, title and interest shall be held and enjoyed by Assignee, for its own use and benefit and for the use and benefit of its successors and assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignor if this Assignment had not been made.

2. No Future Use by Assignor. Assignor acknowledges that, subsequent to the date hereof, Assignor shall not claim to possess any right, title or interest in and to such Marks and shall take no actions jeopardizing the existence or enforceability of the Marks or Assignee's rights therein. Assignor will not adopt or use or register or seek to register any name or mark anywhere in the world which is identical in word or design to the Marks or so similar thereto as to constitute a colorable imitation thereof or to suggest some association between Assignor and Assignee or sponsorship and/or endorsement of Assignor by Assignee.

3. Recordals/Further Assurances. Assignee shall have the right to record this Assignment with the United States Patent and Trademark Office. Assignor shall execute and deliver to Assignee all such further instruments, assignments, assurances and other documents, and perform such other acts, as Assignee may reasonably request or as may be necessary to more fully assign and convey to and vest in Assignee the rights herein assigned.

4. Originals/Counterparts. This Assignment may be executed in multiple counterparts and delivered by electronic means, each of which when executed shall be deemed to be an original but all of which taken together shall constitute one and the same agreement.

IN WITNESS WHEREOF, the Parties have caused this Assignment to be executed by their duly authorized representative as of the Effective Date.
