The foregoing power of attorney is coupled with an interest and is irrevocable.

5. Covenants.

(a) Grantor (either itself or through licensees) will (A) provided that no Event of Default has occurred, have sole discretion over whether to continue to use each Trademark on or in connection with Grantor's applicable goods and/or services in order to maintain such Trademark in full force and effect, free from any claim of abandonment for non-use, except when discontinuing the use of a Trademark could reasonably be expected to have a Material Adverse Effect (as defined in the Loan Agreement), (B) maintain as in the past at least the same quality of products and services offered under each such Trademark, (C) employ each such Trademark with the appropriate notice of registration and ownership, (D) not adopt or use any mark which is confusingly similar to or a colorable imitation of any Trademark unless within 30 days after such use or adoption, Lender, for its benefit, shall obtain a perfected security interest in such mark pursuant to this Agreement, and (E) provided that no Event of Default has occurred, have sole discretion to do any act, or omit to do any act (and permit any licensee or sublicensee to do any act or omit to do any act) whereby any Trademark may become invalidated, abandoned, canceled, unenforceable, and/or weakened, except when such action or omission could reasonably be expected to have a Material Adverse Effect.

(b) Provided that no Event of Default has occurred, Grantor will have sole discretion

(except when the exercise of such discretion could reasonably be expected to have a Material Adverse Effect) to do any act, or omit to do any act, whereby any Patent may become abandoned, to timely pay all maintenance and annuity fees due in connection with each Patent, and to timely and properly prosecute any and all Patent applications.

(c) Grantor will not do or permit any act or omit to do any act whereby any Copyright or Copyright License may lapse or become invalid, canceled, unenforceable, or placed in the public domain except upon expiration at the end of an unrenovable term of a registration thereof.

(d) Grantor will promptly notify Lender if Grantor knows, or has reason to know, that any application relating to any Patent or any Copyright may become abandoned or dedicated, or of any adverse determination or material development regarding Grantor's Trademarks, Patents and Copyrights (including, without limitation, the institution of, or any such determination or development in, any proceeding in the United States Patent and Trademark Office, the United States Copyright Office or any court, tribunal, agency, office, administrative body, and/or other governing authority in any country, as the case may be) regarding Grantor's ownership of any Patent, Copyright or Trademark or its right to patent or register the same or to keep and maintain the same, if such event or occurrence could reasonably be expected to have a Material Adverse Effect.

(e) Within thirty (30) days following the end of each calendar year, Grantor, either by itself or through any agent, employee, licensee or designee, shall (i) provide to the Lender a list of all worldwide Patent, Trademark and Copyright applications filed by Grantor in such calendar year and all worldwide Patent, Trademark and Copyright registrations received, abandoned or otherwise still owned and maintained by Grantor as of the end of such calendar year, along with the current status thereof (e.g., pending, granted, abandoned, expired, active, etc.); and (ii) record Lender's security interest with any and all such offices and/or agencies in which applications have been filed during such calendar year as long as such office or agency allows for the recordation of a security interest. Upon request of Lender, Grantor shall execute and deliver any and all reasonably necessary agreements, instruments, documents, and papers as Lender may request to evidence Lender's security interest in any Patent, Copyright or Trademark application or registration and the goodwill and general intangibles of Grantor relating thereto or represented thereby, and Grantor hereby constitutes Lender its attorney-in-fact to execute and file all such writings for the foregoing purposes, all acts of such attorney being hereby ratified and confirmed; such power being coupled with an interest is irrevocable until the Obligations are paid in full.

(f) Grantor will have sole discretion to take all reasonable and necessary steps, including, without limitation, in any proceedings before any tribunal, office or agency in any country or any political subdivision thereof, to maintain and pursue each application (and to obtain the relevant registration or issuance) and to maintain each Patent, each Copyright and each registration of Trademarks, including, without limitation, payment of all maintenance and annuity fees, filing of applications for renewal, affidavits of use and affidavits of incontestability when appropriate, except when failure to take such steps could reasonably be expected to have a Material Adverse Effect.

(g) In the event Grantor knows or has reason to know that any Patent, Copyright or Trademark included in the Collateral is being and/or may be infringed, misappropriated, or diluted by a third party, Grantor shall, if in the reasonably prudent business judgement of Grantor, sue such Third Party for infringement, misappropriation or dilution, or take other actions as Grantor shall deem appropriate under the circumstances to protect such Patent, Copyright or Trademark, and shall promptly thereafter notify Lender of any such action taken by Grantor.

6. Representations and Warranties. Grantor represents, warrants, covenants and agrees that:

(a) The Patents, Trademarks and Copyrights are subsisting and have not been adjudged invalid or unenforceable, in whole or in part, and are not at this time the subject of any challenge to their validity or enforceability (other than by any patent office in which a Patent is pending);

(b) To the best of Grantor's knowledge, each of the Patents, Trademarks and Copyrights is valid and enforceable;

(c) No claim has been made that (i) the use of any of the Patents, Trademarks or Copyrights does or may violate the rights of any third person, (ii) no claims for infringement have been commenced in connection with any of the Patents, Trademarks or Copyrights, nor is there a reasonable basis therefor;

(d) Except as set forth in the immediately following sentence, Grantor is the sole and exclusive owner of the entire and unencumbered right, title and interest in and to each of the Patents, Trademarks and Copyrights, free and clear of any and all liens, charges and encumbrances, including, without limitation, any and all pledges, assignments, licenses, registered user agreements, shop rights and covenants by Grantor not to sue third persons. Grantor is a licensee of each of the patent licenses set forth on Schedule B (the "Patent Licenses") and of each of the trademark licenses set forth on Schedule C (the "Trademark Licenses"). To the best of Grantor's knowledge each of the Patent Licenses and the Trademark Licenses is valid and enforceable and Grantor is not aware of (i) any asserted claim that the use of any of the Patents, Trademarks or Copyrights does or may violate the rights of any third person, or (ii) the commencement of any claim for infringement in connection with any of the Patent Licenses or the Copyright Licenses;

(e) To the best of Grantor's knowledge, Grantor has the unqualified right to enter into this Agreement and perform its terms; and

(f) Grantor has used, and will continue to use for the duration of this Agreement, proper statutory notice in connection with its use of the Patents, Trademarks and Copyrights.

7. Release. The security interest granted herein will terminate (and all rights to the Collateral will revert to Grantor) upon satisfaction of the following conditions: (a) payment and performance in full of all the obligations secured hereby (unconditionally and indefeasibly) and (b) the termination of the Loan Agreement. Upon any such termination, Lender (at Grantor's request and sole expense) will execute and deliver to Grantor (without any representation, warranty or recourse of any kind whatsoever) such documents as Grantor may reasonably request and provide to Lender to evidence such termination.

8. Miscellaneous. This Agreement has been entered into in conjunction with the provisions of and the security interest granted to Lender under the Loan Agreement. The rights and remedies of Grantor and Lender with respect to the security interest granted herein are in addition and without prejudice to those set forth in the Loan Agreement, all terms and provisions of which are hereby incorporated herein by reference. This Agreement may be executed in any number of counterparts with the same effect as if all the signatures on such counterparts appeared on one document; each such counterpart will be deemed to be an original but all counterparts together will constitute one and the same instrument. In the event that any provisions of this Agreement are deemed to conflict with the Loan Agreement, the provisions of this Agreement shall govern.
