INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement (the "Assignment") is hereby entered into on August 31, 2022 (the "Effective Date"), by and between Frys (assignment for the benefit of creditors), LLC, a California limited liability company, in its sole and limited capacity as assignee for the benefit of creditors of Fry's Electronics, Inc. ("Seller"), and The TAW, L.P., a California limited partnership ("Buyer").

1. Seller desires to transfer and assign to Buyer, and Buyer desires to accept the transfer and assignment of all of Seller's right, title and interest in, to and under, all of the following (hereafter collectively referred to as "Intellectual Property"):

(i) any and all trademark and service mark rights throughout the world, including any and all applications, registrations, and common law marks, whether registered or not, together with the goodwill of the business associated with and symbolized by same, held by Seller, including but not limited to those set forth in the schedule attached hereto, together with all common law rights therein, and the right of Seller to sue for and recover damages or profits arising out of past, present, or future infringement of any and all of said rights as fully and entirely as the same would have been held and enjoyed by Seller had this Assignment not been made (the "Trademarks");

(ii) any and all copyrights throughout the world, including any and all applications, registrations, and like protections, whether registered or not, whether published or unpublished, together with all common law rights therein, including but not limited to those set forth in the schedule attached hereto, and the right of Seller to sue for and recover damages or profits arising out of past, present, or future infringement of any and all of said rights as fully and entirely as the same would have been held and enjoyed by Seller had this Assignment not been made;

(iii) any and all trade secret rights, including rights Seller may have under the laws governing confidential information or rights in law to prevent the unauthorized use or disclosure of such information; and

(iv) any and all domain names, including but not limited to those set forth in the schedule attached hereto but excluding the outpost.com domain name previously sold by Seller (subject to such exclusion, the "Owned Domain Names"), and all goodwill associated therewith, except as to any and all domain names as to which Seller is not the nominal owner (the "Unowned Domain Names"), for which Seller desires to quitclaim to Buyer any interest Seller has or might have in such Unowned Domain Names.

2. Seller, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, does hereby sell, convey, transfer and assign to Buyer, and Buyer hereby accepts the sale, conveyance, transfer and assignment of all right, title and interest of Seller in, to and under the Intellectual Property, including all worldwide right, title and interest of Seller in, to and under the Intellectual Property, together with the right of Seller to claim priority in all countries in accordance with international law, any and all rights of Seller corresponding to

Property in countries throughout the world, and all of Seller's rights to sue for past, present or future infringement of said Intellectual Property worldwide together with all claims for damages by reason of past, present or future infringement of said Intellectual Property, and the right to sue for and collect the same for Buyer's own use and enjoyment, all to be held and enjoyed by said Buyer, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by Seller had this Assignment not been made; provided, however, that as to the Unowned Domain Names, Seller only quitclaims to Buyer any interest Seller has or might have in such Unowned Domain Names. Seller hereby authorizes and requests the United States Patent and Trademarks Office to issue said Trademarks in accordance with this Assignment.

3. From and after the Closing Date, Seller shall cooperate with Buyer and promptly sign and deliver to Buyer any and such additional documents, instruments, endorsements and related information and take actions as Buyer may reasonably request for the purpose of effecting the transfer of Seller's and/or Assignor's title to the Intellectual Property to Buyer, and/or carrying out the provisions of this Agreement, provided, however, that Seller shall be reimbursed for its reasonable costs and expenses incurred in providing such documents, instruments, endorsements or related information, which additional documents, instruments, endorsements or related information shall be prepared solely by Buyer.

4. This Assignment may be executed in multiple counterparts, each of which shall be deemed an original hereof, and all of which shall constitute a single agreement effective as of the date hereof. Any delivery of an executed counterpart of this Assignment by facsimile or electronic mail shall be as effective as delivery of a manually executed counterpart of this Assignment.

5. This Assignment shall be binding upon and shall inure to the benefit of the parties and their respective successors and assigns.

6. This Assignment shall be governed by and construed in accordance with federal law, to the extent applicable, and, where state law is implicated, the internal laws of the State of California, without giving effect to any principles of conflicts of law.

IN WITNESS WHEREOF, Seller and Buyer executed and delivered this Assignment by their duly authorized representatives as of the Effective Date.
