### RECITALS

WHEREAS, Lender has extended Loans to Grantor pursuant to the terms and conditions of that certain Credit Agreement dated as of the date hereof by and between Grantor and Lender (as amended, restated, amended and restated or otherwise modified from time to time, the “Credit Agreement”; capitalized terms used but not defined herein shall have the meanings ascribed to them in the Credit Agreement); and

WHEREAS, under the terms of the Credit Agreement, Grantor has granted Lender a security interest in and lien on all of Grantor’s assets, including all of Grantor’s trademarks, tradenames, trade styles, copyrights, domain names, URLs, IP Addresses and other intellectual property but excluding all patents and patent applications, and Grantor agreed as a condition thereof to execute this IP Security Agreement for recording with the United States Patent and Trademark Office, the United States Copyright Office and any other Governmental Authority.

1. Grant of Security Interest. To secure all of the Obligations under the Credit Agreement and the other Loan Documents, Grantor hereby grants to Lender a security interest in and lien on all of Grantor’s right, title and interest in and to Grantor’s intellectual property assets, wherever located and whether now owned or hereafter acquired, including without limitation, all trademarks, copyrights, domain names, URLs and IP Addresses set forth in **Exhibit 1** attached hereto and incorporated herein by reference, all source codes associated with such intellectual property, all goodwill of the business of Grantor connected with the use of, or otherwise symbolized by, such intellectual property, all rights to sue for infringement of such intellectual property, and all parts, replacements, substitutions, profits, products, amendments, updates and cash and non-cash proceeds of any of the foregoing (including insurance proceeds, of any kind, including those payable by reason of loss or damage thereto) in any form and wherever located, and all written or electronically recorded books and records relating to any such assets and other rights relating thereto, but specifically excluding all patents and patent applications (collectively, the “IP Collateral”) *provided, however*, that IP Collateral shall exclude any United States intent-to-use trademark applications to the extent that, and solely during the period in which, the grant of a security interest therein would impair the validity or enforceability of such intent-to-use trademark applications under applicable federal law, provided that upon submission and acceptance by the United States Patent and Trademark Office of an amendment to allege use pursuant to 15 U.S.C. Section 1060(a) (or any successor provision), such intent-to-use trademark application shall not be excluded from the IP Collateral. For the avoidance of doubt, Grantor acknowledges that the items listed in **Exhibit 1-1** to this IP Security Agreement are not United States intent-to-use trademark applications and Lender shall have a security interest in and lien on the items listed in **Exhibit 1-1** to this IP Security Agreement.
