INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT

This Intellectual Property Assignment Agreement (this “**IP Assignment**”), dated as of December 20, 2018 is made between Specialty Surgical Instrumentation, Inc., a Tennessee corporation (“**Seller**”), and Teleflex Medical Incorporated, a California corporation (“**Buyer**”), the purchaser of certain assets owned by Seller pursuant to an Asset Purchase Agreement between Buyer and Seller, dated as of December 20, 2018 (the “**Asset Purchase Agreement**”).

WHEREAS, under the terms of the Asset Purchase Agreement, Seller has conveyed, transferred and assigned to Buyer, among other assets, certain intellectual property of Seller, and has agreed to execute and deliver this IP Assignment, for recording with the United States Patent and Trademark Office and corresponding entities or agencies in any applicable jurisdictions.

NOW THEREFORE, the parties agree as follows:

1. Assignment. For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Seller hereby irrevocably conveys, transfers and assigns to Buyer, and Buyer hereby accepts, all of Seller’s right, title and interest in and to the following (the “**Assigned IP**”):

(a) the patents and patent applications set forth on **Schedule A** hereto (the “**Listed Patents**”);

(b) all subject matter, and each invention, claimed in each of the Listed Patents and all embodiments of such subject matter and inventions;

(c) the trademark registrations, registered designs, common law trademark and design rights, domain names, and any associated trademark and design rights set forth on **Schedule B** hereto (the “**Listed Marks and Designs**”), including any causes of action relating to the Listed Marks and Designs, and the right to bring suit for past infringement of the Listed Marks and Designs, together with the good will of the business symbolized by the Listed Marks and Designs;

(d) any and all royalties, fees, income, payments and other proceeds hereafter due or payable with respect to any and all of the foregoing; and

(e) any and all claims and causes of action, with respect to any of the foregoing, whether accruing before, on and/or after the date hereof, including all rights to and claims for damages, restitution and injunctive and other legal and equitable relief for past, present and future infringement, misappropriation, violation, misuse, breach or default, with the right but no obligation to sue for such legal and equitable relief and to collect, or otherwise recover, any such damages.

2. Recordation and Further Actions. Seller hereby authorizes the Commissioner for Patents and Commissioner for Trademarks in the United States Patent and Trademark Office and the officials of corresponding entities or agencies in any applicable jurisdictions to record and register this IP Assignment upon request by Buyer. Following the date hereof, Seller shall use commercially reasonable efforts to take such steps and actions, and provide such cooperation and

assistance to Buyer and its successors, assigns and legal representatives, including the execution and delivery of any affidavits, declarations, oaths, exhibits, assignments, or other documents, as may be reasonably necessary to effect, evidence or perfect the assignment of the Assigned IP to Buyer.

The parties hereto acknowledge and agree that this IP Assignment is entered into pursuant to the Asset Purchase Agreement, to which reference is made for a further statement of the rights and obligations of Seller and Buyer with respect to the Assigned IP. Nothing in this IP Assignment, express or implied, is intended to or shall be construed to supersede, modify, expand or limit in any way the terms of the Asset Purchase Agreement.
