TRADEMARK SECURITY AGREEMENT

This TRADEMARK SECURITY AGREEMENT (this “Trademark Security Agreement”) is made this 16th day of May, 2023, by and among Grantors listed on the signature pages hereof (collectively, jointly and severally, “Grantors” and each individually “Grantor”), and WELLS FARGO BANK, NATIONAL ASSOCIATION, a national banking association (“Wells Fargo”), in its capacity as administrative agent for each member of the Lender Group and the Bank Product Providers (in such capacity, together with its successors and assigns in such capacity, “Agent”).

WITNESSETH:

WHEREAS, pursuant to that certain Credit Agreement dated as of May 16, 2023 (as amended, amended and restated, supplemented, extended, renewed, restated, replaced or otherwise modified from time to time, the “Credit Agreement”), by and among Motors & Armatures, Inc., a New York corporation (“MARS”), Heat Controller LLC, a Delaware limited liability company (“Heat Controller”; together with MARS and those additional entities that become parties to the Credit Agreement as Borrowers in accordance with the terms thereof, each, a “Borrower” and individually and collectively, jointly and severally, the “Borrowers”), the other Loan Parties party thereto, the lenders party thereto as “Lenders” from time to time” (each of such Lenders, together with its successors and assigns, is referred to hereinafter as a “Lender”), and Agent, the Lender Group has agreed to make loans and provide other financial accommodations available to Borrowers from time to time pursuant to the terms and conditions thereof;

WHEREAS, the members of the Lender Group and the Bank Product Providers are willing to make the financial accommodations to Borrowers as provided for in the Credit Agreement, the other Loan Documents, and the Bank Product Agreements, but only upon the condition, among others, that the Grantors shall have executed and delivered to Agent, for the benefit of the Lender Group and the Bank Product Providers, that certain Guaranty and Security Agreement, dated as of May 16, 2023 (including all annexes, exhibits or schedules thereto, as from time to time amended, amended and restated, supplemented, extended, renewed, restated, replaced or otherwise modified from time to time, the “Guaranty and Security Agreement”); and

WHEREAS, pursuant to the Guaranty and Security Agreement, Grantors are required to execute and deliver to Agent, for the benefit of the Lender Group and the Bank Product Providers, this Trademark Security Agreement.

NOW, THEREFORE, in consideration of the premises and mutual covenants herein contained and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, each Grantor hereby agrees as follows:

1. **DEFINED TERMS**. All initially capitalized terms used but not otherwise defined herein have the meanings given to them in the Guaranty and Security Agreement or, if not defined therein, in the Credit Agreement, and this Trademark Security Agreement shall be subject to the rules of construction set forth in Section 1(b) of the Guaranty and Security Agreement, which rules of construction are incorporated herein by this reference, *mutatis mutandis*.

2. **GRANT OF SECURITY INTEREST IN TRADEMARK COLLATERAL**. Each Grantor hereby unconditionally grants, collaterally assigns, and pledges to Agent, for the benefit of each member of the Lender Group and each of the Bank Product Providers, to secure the Secured Obligations, a continuing security interest (hereinafter referred to as the “Security Interest”) in all of such Grantor’s

right, title and interest in and to the following, whether now owned or hereafter acquired or arising (collectively, the “Trademark Collateral”):

(a) all of its Trademarks and Trademark Intellectual Property Licenses to which it is a party including those referred to on Schedule I;

(b) all goodwill of the business connected with the use of, and symbolized by, each Trademark and each Trademark Intellectual Property License; and

(c) all products and Proceeds of the foregoing, including any claim by such Grantor against third parties for past, present or future (i) infringement or dilution of any Trademark or any Trademarks exclusively licensed under any Intellectual Property License, including the right to receive any damages, (ii) injury to the goodwill associated with any Trademark, or (iii) right to receive license fees, royalties, and other compensation under any Trademark Intellectual Property License.

3. SECURITY FOR SECURED OBLIGATIONS. This Trademark Security Agreement and the Security Interest created hereby secures the payment and performance of the Secured Obligations, whether now existing or arising hereafter. Without limiting the generality of the foregoing, this Trademark Security Agreement secures the payment of all amounts which constitute part of the Secured Obligations and would be owed by Grantors, or any of them, to Agent, the other members of the Lender Group, the Bank Product Providers or any of them, whether or not they are unenforceable or not allowable due to the existence of an Insolvency Proceeding involving any Grantor.

4. SECURITY AGREEMENT. The Security Interest granted pursuant to this Trademark Security Agreement is granted in conjunction with the security interests granted to Agent, for the benefit of the Lender Group and the Bank Product Providers, pursuant to the Guaranty and Security Agreement. Each Grantor hereby acknowledges and affirms that the rights and remedies of Agent with respect to the Security Interest in the Trademark Collateral made and granted hereby are more fully set forth in the Guaranty and Security Agreement, the terms and provisions of which are incorporated by reference herein as if fully set forth herein. To the extent there is any inconsistency between this Trademark Security Agreement and the Guaranty and Security Agreement, the Guaranty and Security Agreement shall control.

5. AUTHORIZATION TO SUPPLEMENT. If any Grantor shall obtain rights to any new trademarks, the provisions of this Trademark Security Agreement shall automatically apply thereto. Grantors shall give prompt notice in writing to Agent with respect to any such new trademarks or renewal or extension of any trademark registration. Without limiting Grantors’ obligations under this Section, Grantors hereby authorize Agent unilaterally to modify this Trademark Security Agreement by amending Schedule I to include any such new trademark rights of each Grantor. Notwithstanding the foregoing, no failure to so modify this Trademark Security Agreement or amend Schedule I shall in any way affect,

invalidate or detract from Agent's continuing security interest in all Collateral, whether or not listed on Schedule I.

6. COUNTERPARTS. This Trademark Security Agreement is a Loan Document. This Trademark Security Agreement may be executed by means of (a) an electronic signature that complies with the federal Electronic Signatures in Global and National Commerce Act, state enactments of the Uniform Electronic Transactions Act, or any other relevant and applicable electronic signatures law; (b) an original manual signature; or (c) a faxed, scanned, or photocopied manual signature. Each electronic signature or faxed, scanned, or photocopied manual signature shall for all purposes have the same validity, legal effect, and admissibility in evidence as an original manual signature. Agent reserves the right, in its sole discretion, to accept, deny, or condition acceptance of any electronic signature on this Trademark Security Agreement. This Trademark Security Agreement may be executed in any number of counterparts, each of which shall be deemed to be an original, but such counterparts shall, together, constitute only one instrument. Delivery of an executed counterpart of a signature page of this Trademark Security Agreement will be as effective as delivery of a manually executed counterpart of the Trademark Security Agreement.

7. CHOICE OF LAW AND VENUE, AND JURY TRIAL WAIVER. THIS TRADEMARK SECURITY AGREEMENT SHALL BE SUBJECT TO THE PROVISIONS REGARDING CHOICE OF LAW AND VENUE, AND JURY TRIAL WAIVER SET FORTH IN SECTION 25 OF THE GUARANTY AND SECURITY AGREEMENT, AND SUCH PROVISIONS ARE INCORPORATED HEREIN BY THIS REFERENCE, *MUTATIS MUTANDIS*.

[SIGNATURE PAGE FOLLOWS]

IN WITNESS WHEREOF, the parties hereto have caused this Trademark Security Agreement to be executed and delivered as of the day and year first above written.

Goods: 006 - metal fasteners, namely, sheet metal, concrete, masonry and drywall screws, metal anchors, washers of metal for providing spacing for screws and bolts, metal toggle bolts, metal clips, namely, pipe holders and hangers used to hang and install pipe; metal plugs; metal tubing; metal fittings, namely, metal hose fittings, metal joinery fittings, metal pipe fittings, metal ring shaped fittings; condenser mounting brackets, namely, metal brackets used to support air-conditioning condensing units upon installation; metal building wire products, namely, t-stat wire, plenum t-stat wire, shielded t-stat wire, romex wire, greenfield, armored cable, SJ wire, THHN, and TFFN; wire ties and duct straps; metal hardware and fasteners, namely, machine screws, hex nuts, tap screws, drill screws, drywall screws, fender washers, wrought washers, SAE washers, split lock washers, spring wing toggle bolts, anchor kits comprised of plastic anchors, screws and carbide masonry drill bits, grounding screws comprised of metal, alligator clips comprised of metal, tubing and flaring tubes

007 - motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; condenser mounting brackets specially adapted for air condensers, namely, metal brackets used to support air-conditioning condensing units upon installation; motors, namely, heating, ventilation, airconditioning, pump and commercial refrigeration motors; pump-ups specially adapted for use with air condensers composed of plastic materials to support air-conditioning condensing units upon installation; air conditioning pads comprised of plastic, foam or other materials specially adapted for use with air condensers to support air-conditioning condensing units upon installation; solid state three phase compressors being parts for protectors, solid state start assist devices, namely, torque multipliers to increase starting torque of permanent split capacitor motors, single phase compressor start assist kits comprised of start capacitors, potential relays, mounting brackets, and wires; masonry, brush adapters for use as machine parts, various high speed steel power drill bits, insert bits, fractional and multiple

horsepower v-belts; electric motors not for land vehicles, solid state motor hard starters, vacuum pumps, refrigeration compressors; condensate pumps; vacuum pumps and accessories therefor, namely, vacuum pump hoses, gauges, manifolds, fittings and tools

009 - thermostats, electric relays, temperature alarms, electric controls used in air conditioning, refrigerating, heating, and appliances, halogen gas leak detectors, electric heat resistance coils, leak detectors, transformers, alarm protection units, controls and solid state timers, heat pump defrost timers, push button switches, rotary switches, pressure switches, fan switches and thermocouples used in air conditioning, heating and appliances, solenoid operated water valves for use with domestic and commercial icemakers, clothes washers, and dish washer; resistors; motor starting relays; capacitors; heating and drying controls; electrical structural components-namely, relays, capacitors, contactors, switches, timers, controls for use in refrigerators; adjustable fan and limit switches for forced air heating, air conditioning disconnects, a/c whips, pvc conduit and fittings, passive carbon monoxide detectors, plastic and metal thermostat guards, namely, protective coverings for thermostats, digital and bi-metal thermometer products, specialty mirrors, pilot burner gas lines and nozzles, solderless terminals, test leads, solder heat shields; analog multimeters, digital multimeters, rms multimeters; analog and digital clamp-on meters for use in the maintenance and testing of all types of electrical equipment; electric relays, namely, switching relays; pressure switches for controlling, and switching refrigeration and airconditioner systems; electrical wire connectors; electrical components in the nature of electric contactors; electric relays and transformers for fan centers, electronic leak detectors for use in detecting refrigerant

gasses, thermocouples, thermostats, fixed fan and limit electric switches, electric heat sequencers and laser levels used in heating, ventilation, air-conditioning and refrigeration applications; voltage sticks used to detect presence of voltage and current flow in cables, wall outlets, fuses, circuit breakers, junction boxes, power tools and appliances; batteries, electric; transformers (electricity)

011 - linetap valves and sight glasses for refrigeration systems, saddle valves and hose assembly filters for hooking up ice machines, ball valves for use in gas range and dryer applications, magnetic and mechanical flashlight holders; condenser and heat exchanger brushes, not part of machines (regulating accessories for air conditioning installations)

007 - motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; condenser mounting brackets specially adapted for air condensers, namely, metal brackets used to support air-conditioning condensing units upon installation; motors, namely, heating, ventilation, air conditioning, pump and commercial refrigeration motors; pump-ups specially adapted for use with air condensers composed of plastic materials to support air-conditioning condensing units upon installation; air conditioning pads comprised of plastic, foam or other materials specially adapted for use with air condensers to support air-conditioning condensing units upon installation; solid state three phase compressors being parts for protectors, solid state start assist devices, namely, torque multipliers to increase starting torque of permanent split capacitor motors, single phase compressor start assist kits comprised of start capacitors, potential relays, mounting brackets, and wires; masonry, brush adapters for use as machine parts, various high speed steel power drill bits, insert bits, fractional and multiple horsepower v-belts; electric motors not for land vehicles, solid state motor hard starters, refrigeration compressors; condensate pumps

009 - thermostats, electric relays, temperature alarms, electric controls used in air conditioning, refrigerating, heating, and appliances, halogen gas leak detectors, electric heat resistance coils, leak detectors, transformers, alarm protection units, controls and solid state timers, heat pump defrost timers, push button switches, rotary switches, pressure switches, fan switches and thermocouples used in air conditioning, heating and appliances, solenoid operated water valves for use with domestic and commercial icemakers, clothes washers, and dish washer; resistors; motor starting relays; capacitors; heating and drying controls; electrical structural components-namely, relays, capacitors, contactors, switches, timers, controls for use in refrigerators; adjustable fan and limit switches for forced air heating, air conditioning disconnects, a/c whips, pvc conduit and fittings, passive carbon monoxide detectors, plastic and metal thermostat guards, namely, protective coverings for thermostats, digital and bi-metal thermometer products, specialty mirrors, pilot burner gas lines and nozzles, solderless terminals, test leads, solder heat shields; analog multimeters, digital multimeters, rms multimeters; analog and digital clamp-on meters for use in the maintenance and testing of all types of electrical equipment; electric relays, namely, switching relays; pressure switches for controlling, and switching refrigeration and airconditioner systems; electrical wire connectors; electrical components in the nature of electric contactors; electric relays and transformers for fan centers, electronic leak detectors for use in detecting refrigerant gasses, thermocouples, thermostats, fixed fan and limit electric switches, electric heat sequencers and laser levels used in heating, ventilation, air-conditioning and refrigeration applications; voltage sticks used to detect presence of voltage and current flow in cables, wall outlets, fuses, circuit breakers, junction boxes, power tools and appliances; batteries; transformers

011 - linetap valves and sight glasses for refrigeration systems, saddle valves and hose assembly filters for hooking up ice machines, ball valves for use in gas range and dryer applications, magnetic and mechanical flashlight holders, nylon fittings used in air conditioning installations, condenser and heat exchanger brushes

017 - insulating tapes for electrical insulation; insulation cork, foam vinyl-aluminum tapes for thermal insulation and condensation prevention used on pipes and fittings; pump-ups composed of plastic materials to support air-conditioning condensing units upon installation; flexible pvc pipe and fittings therefor; air conditioning pads comprised of plastic, foam or other materials to support air-conditioning condensing units upon installation; various sizes of pvc clear tubing, heat shrinkable tubing and polyethylene tubing for use as fuel lines and electrical line insulation, adhesive sealant and caulking compounds, rubber sealants for caulking and adhesive purposes, and general purpose silicone rubber sealant, rubber vibration isolation pads for use in preventing minor vibration transmissions in hvac equipment, refrigerant compressors, generators, pumps, transformers and related equipment

Goods: 006 - metal fasteners, namely, sheet metal, concrete, masonry and drywall screws, metal anchors, washers of metal for providing spacing for screws and bolts, metal toggle bolts, metal clips, namely, pipe holders and hangers used to hang and install pipe; metal tubing; metal fittings (included in the class), namely, metal hose fittings, metal joinery fittings, metal pipe fittings, metal ring shaped fittings; condenser mounting brackets, namely, metal brackets used to support air-conditioning condensing units upon installation; metal wire ties and duct straps; metal hardware and fasteners, namely, machine screws, hex nuts, tap screws, drill screws, drywall screws, fender washers, wrought washers, SAE washers, split lock washers, spring wing toggle bolts, screws, grounding screws comprised of metal, tubing and flaring tubes; metallic fittings for flexible pvc pipe

007 - motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; pump-ups (machines) specially adapted for use with air condensers composed of plastic materials to support air-conditioning condensing units upon installation; air conditioning pads (parts of machines) comprised of plastic, foam or other materials specially adapted for use with air condensers to support air-conditioning condensing units upon installation; solid state three phase compressors being parts for protectors (machines), solid state start assist devices (parts of machines), namely, torque multipliers to increase starting torque of permanent split capacitor motors, single phase compressor start assist kits comprised of start capacitors, mounting brackets; masonry, brush adapters for use as machine parts, various high speed steel power drill bits, insert bits, fractional and multiple horsepower v-belts; electric motors not for land vehicles, solid state motor hard starters, vacuum pumps (machines), refrigeration compressors; condensate pumps (parts of machines or motors); vacuum pumps (machines) and accessories therefor, namely, vacuum pump hoses, gauges, manifolds, fittings and tools (parts of machines included in the class); metal hardware and fasteners, namely, carbide masonry drill bits (parts of machine tools), saddle valves and hose assembly filters for hooking up ice machines (parts of machines).

009 - thermostats, electric relays, temperature alarms, electric controls used in air conditioning, refrigerating, heating, and appliances, halogen gas leak detectors, electric heat resistance coils, leak detectors, transformers, alarm protection units, controls and solid state timers, heat pump defrost timers, push button switches, rotary switches, pressure switches, fan switches and thermocouples used in air conditioning, heating and appliances, solenoid operated (magnetic interrupters) water valves for use with domestic and commercial icemakers, clothes washers, and dish washer; electrical resistors; motor starting relays; capacitors; heating and drying electrical controls; electrical structural components-namely, relays, capacitors, contactors, switches, timers, controls for use in refrigerators; adjustable fan and limit switches for forced air heating, air conditioning disconnects, passive carbon monoxide detectors, plastic and metal thermostat guards, namely, protective coverings for thermostats, digital and bi-metal thermometer products, pilot burner gas lines and nozzles, solderless terminals, test leads, solder heat shields; analog multimeters, digital multimeters, r m s multimeters; analog and digital clamp-on meters for use in the maintenance and testing of all types of electrical equipment; electric relays, namely, switching relays; pressure switches for controlling, and switching refrigeration and air-conditioner systems; electrical wire connectors; electrical components in the nature of electric contactors; electric relays and transformers for fan centers, electronic leak detectors for use in detecting refrigerant gasses, thermocouples, thermostats, fixed fan and limit electric switches, electric heat sequencers and laser levels used in heating, ventilation, air-conditioning and refrigeration applications; voltage sticks (apparatus) used to detect presence of voltage and current flow in cables, wall outlets, fuses, circuit breakers, junction boxes (electricity), power tools and appliances; batteries; transformers; metal plugs; metal building wire products, namely, t-stat wire, plenum t-stat wire, shielded t-stat wire, romex wire, greenfield, armored cable, SJ wire, THHN, and TFFN, alligator clips comprised of metal, solid state start assist devices, namely potential relays, electric wires for motor and machine starters

011 - linetap valves (parts of refrigeration installations) and sight glasses (parts of refrigeration systems), ball regulating valves for use in gas range and dryer applications, magnetic and mechanical illumination flashlight holders, nylon fittings used in air conditioning installations (included in the class), condenser brushes (parts of gas condensers that are not parts of machines) and heat exchanger brushes that are not parts of machines; plastic and metal thermostat guards, namely, protective coverings for pilot burner gas lines and nozzles, pump-ups composed of plastic materials to support air-conditioning condensing units upon installation for anti-freeze, vibration and sound absorption purposes; air conditioning pads comprised of plastic, foam or other materials to support air-conditioning condensing units

017 - insulating tapes for electrical insulation; insulation cork, foam vinyl-aluminum tapes for thermal insulation and condensation prevention used on pipes and fittings; non-metallic flexible pvc pipe and fittings thereof; air conditioning pads comprised of plastic, foam or other materials to support air-conditioning condensing units upon installation; various sizes of pvc clear flexible tubing, heat shrinkable non-metallic flexible tubing and polyethylene flexible tubing for use as fuel lines and electrical line insulation, adhesive sealant and caulking compounds, rubber sealants for caulking and adhesive purposes, and general purpose silicone rubber sealant, rubber vibration isolation pads for use in preventing minor vibration transmissions in hvac equipment, refrigerant compressors, generators, pumps, transformers and related equipment, anchor kits comprised of plastic anchors, a/c whips, pvc conduit and fittings

Goods: 06 - Metal fasteners, namely, sheet metal, concrete, masonry and drywall screws, metal anchors, washers of metal for providing spacing for screws and bolts, metal toggle bolts, metal clips, namely, pipe holders and hangers used to hang and install pipe; metal plugs; metal tubing; metal fittings, namely, metal hose fittings, metal joinery fittings, metal pipe fittings, metal ring shaped fittings; condenser mounting brackets, namely, metal brackets used to support air-conditioning condensing units upon installation; wire ties and duct straps; metal hardware and fasteners, namely, machine screws, hex nuts, tap screws, drill screws, drywall screws, fender washers, wrought washers, flat metal washers measured in inches, split lock washers, spring wing toggle bolts, anchor kits comprised of plastic anchors, screws and carbide masonry drill bits, grounding screws comprised of metal, alligator clips comprised of metal, tubing and flaring tubes; all the aforesaid goods not including key rings and badges made of metal, boxes made of metal

07 - Motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; condenser mounting brackets specially adapted for air condensers, namely, metal brackets used to support air-conditioning condensing units upon installation; pump-ups specially adapted for use with air condensers composed of plastic materials to support air-conditioning condensing units upon installation; air conditioning pads comprised of plastic, foam or other materials specially adapted for use with air condensers to support air-conditioning condensing units upon installation; compressors (solid state three phase, machines) for protectors, solid state start assist devices, namely, torque multipliers to increase starting torque of permanent split capacitor motors; masonry drills, other than for hand operated tools; brush adapters for use as machien parts, machinery tools, namely, high speed steel power drill bits, insert bits, fractional and multiple horsepower v-belts; electric motors not for land vehicles, vacuum pumps, refrigeration compressors; condensate pumps; vacuum pumps and accessories therefore, namely, vacuum pump hoses, gauges, manifolds, fittings and tools; excluding saws, saw blades and circular saw blades (parts of machines), blades and machine wheels, parts and fittings of saws, saw blades and circular saw blades (parts of machines), blades and machines wheels; nylon fittings being parts of condensing installations

09 - Thermostats, electric relays, temperature alarms, electric controls used in air conditioning, refrigerating, heating, and appliances, halogen gas leak detectors, electric heat resistance coils, leak detectors, transformers, fire alarm units, controls and solid state timers, heat pump defrost timers, push button switches, rotary switches, pressure switches, fan switches and thermocouples used in air conditioning, heating and appliances, solenoid controls for automatically operating water valves for use with domestic and commercial icemakers, clothes washers, and dish washer; resistors; motor starting relays; capacitors; control apparatus for heating and drying; electrical structural components-namely, relays, capacitors, contactors, switches, timers, controls for use in refrigerators; adjustable fan and limit switches for forced air heating, apparatus for controlling the supply of electrical current to air conditioning; plastic conduits for electrical wiring; passive carbon monoxide detectors, plastic and metal thermostat guards, namely, protective coverings for thermostats, digital and bi-metal thermometer products; specialty mirrors for inspecting work; apparatus for use in igniting gas burners, namely, pilot burner gas lines and nozzles; solderless terminals (electricity); test leads (wires); protective heat shields for soldering operatives; analog multimeters, digital multimeters, rms multimeters; analog and digital clamp-on meters for use in the maintenance and testing of all types of electrical equipment; electric relays, namely, switching relays; pressure switches for controlling, and switching refrigeration and airoconditioner systems; electrical wire connectors; electrical components in the nature of electric contactors; electric relays and transformers for fan centers, electronic leak detectors for use in detecting refrigerant gasses, thermocouples, thermostats, fixed fan and limit electric switches, electric heat sequencers (relays) and laser levelling for heating, ventilation, air-conditioning and refrigeration applications; voltage sticks used to detect presence of voltage and current flow in cables, wall outlets, fuses, circuit breakers, junction boxes, power tools and appliances; batteries; transformers; metal wires for building, namely, T-stat wire, plenum T-stat wire, shielded T-stat wire, romex wire, greenfield, armored cable, SJ wire, thermoplastic high heat resistant nylon coated wire, and thermoplastic flexible fixture wire, nylon jacketed wire; start capacitors, potential relays, mounting brackets and wires as start assist kits for single phase compressors; relay and capacitor combination as solid state motor hard starters; all the aforesaid goods not including sunglasses, binoculars, cameras, radios, electric and electronic calculating machines, computers, electric and electronic cash registers, electric and electronic apparatus for recognising and totalising money in coin and bill form for making change and for recognising counterfeit money, automatic dispensing and vending machines, coin-changing machines, parts and fittings for sunglasses, binoculars, cameras and radios, electric and electronic calculating machines, computers, electric and electronic cash registers, electric and electronic apparatus for recognising and totalising money in coin and bill form for making change and for recognising counterfeit money

11 - Water regulating valves (regulating accessories), namely saddle valves; water filtering apparatus, namely hose assembly filters; ball valves for use in gas range and dryer applications, magnetic and mechanical holders adapted for flashlight (hand-held lamps)

17 - Insulating tapes for electrical insulation; insulation cork, foam vinyl-aluminium tapes for thermal insulation and condensation prevention used on pipes and fittings; flexible PVC pipe and fittings therefor; padding materials of rubber or plastics to support air-conditioning condensing units upon installation; various sizes of PVC clear tubing, heat shrinkable tubing and polyethylene tubing for use as fuel lines and electrical line insulation, adhesive sealant and caulking compounds, rubber sealants for caulking and adhesive purposes, and general purpose silicone rubber sealant, rubber vibration isolation pads for use in preventing minor vibration transmissions in heating, ventilating and air conditioning equipment, refrigerant compressors, generators, pumps, transformers and related equipment

07 - Motors (expect for land vehicles); heating, ventilation, air-conditioning and pump motors; solid state three phase compressors being parts for protectors, solid state start assist devices, namely, torque multipliers to increase starting torque of permanent split capacitor motors, single phase compressor start assist kits comprised of start capacitors, potential relays, mounting brackets, and wires; masonry, brush adapters for use as machine parts (other than for vehicles), various high speed steel power drill bits, insert bits, fractional and multiple horsepower v-belts for machines; electric motors not for land vehicles, solid state motor hard starters for motors and engines, vacuum pumps, compressors for refrigerators; condensate pumps; vacuum pumps (machines), vacuum pump hoses, gauges, manifolds; clothes washers, dish washer; refrigerant compressors; current generators, emergency power generators, electrostatic generators, DC generators; and pumps (parts of machines/engines or motors)

09 - Thermostats, temperature alarms, electric controls used in air conditioning, refrigerating, heating, and appliances, halogen gas leak detectors, leak detectors, alarms for protection, remote control apparatus, solid state electronic timers, heat pump defrost timers, and thermocouples (temperature sensors) used in air conditioning, heating and appliances; electric heating and drying controls; timers and controls for use in refrigerators; plastic and metal thermostat guards, namely, protective coverings for thermostats; digital and bi-metal thermometer products, not for medical purposes; specialty mirrors (optics), specialty mirrors for inspecting work, solder heat shields; electronic leak detectors for use in detecting refrigerant gasses, electric heat sequencers and laser levels used in heating, ventilation, air-conditioning and refrigeration applications; voltage sticks used to detect presence of voltage and current flow in cables, wall outlets, fuses, circuit breakers, junction boxes, power tools and appliances; batteries

11 - Saddle valves and hose assembly filters for hooking up ice machines, ball valves for use in gas range and dryer applications, gas lines and nozzles for pilot gas burner (other than for laboratory use)

17 - Flexible pvc pipe, muffs not of metal for flexible pvc pipes, junctions not of metal for flexible pvc pipes, gaskets not of metal for flexible pvc pipes; various sizes of pvc clear tubing, heat shrinkable plastic tubes for use as fuel lines, heat shrinkable plastic tubes for use as electrical line insulation, polyethylene tubes for use as fuel lines, polyethylene tubes for use as electrical line insulation, adhesive sealant and caulking compounds for joints, rubber sealants for caulking and adhesive purposes, and general purpose silicone rubber sealant for packing and stuffing, rubber vibration isolation pads for use in preventing minor vibration transmissions in hvac equipment

South Korea	1032874.000002-88	Motors & Armatures, Inc.	24 Aug 2012 40-2012-53351		PENDING 09, 17
-------------	-------------------	--------------------------	------------------------------	--	-------------------

Goods: 09 - Electric relays, electric heat resistance coils, transformers, electrical controllers, automatic control apparatus and instruments, electric push button switches, electric rotary switches, pressure switches, electric fan switches, solenoid operated water valves for use with domestic and commercial icemakers; resistors; motor starting relays; electric capacitors; electrical relays, capacitors, contactors, switches for use in refrigerators; adjustable fan and limit electric switches for forced air heating, air conditioning circuit breakers, electric A/C whip cable, PVC electricity conduits, passive carbon monoxide detectors; solderless terminals, electric wires for test, analog multimeters, digital multimeters, rms multimeters; analog and digital clamp-on meters for use in the maintenance and testing of all types of electrical equipment; electric relays, namely, switching relays; electric pressure switches for controlling, and switching refrigeration and air-conditioner systems; electrical wire connectors; electric contacts; electric relays and transformers for fan centers, fixed fan and limit electric switches; transformers (electricity) and related equipment

17 - Insulating tapes for electrical insulation; foam vinyl-aluminum tapes for thermal insulation and condensation prevention used on pipes and fittings

- Goods: 001 - chemicals, namely, silicone spray used as a protective coating with lubricating properties; chemical preparations, namely, silicon carbide and silicon nitride composition, for use in igniting natural and propane gasses in industrial heating applications.
 003 - condensate drain pan cleaning tables.
 004 - candles, namely, smoke candles for use in testing for leaks, pressure and air movement in duct work, [heat exchangers, furnaces, chimneys, ventilation systems and related applications;] all purpose and rust-inhibiting lubricants for use in automobiles, refrigeration equipment, and heating, air conditioning and ventilation systems.
 005 - First aid kits
 006 - metal fasteners, namely, sheet metal, concrete, masonry and drywall screws, metal anchors, washers of metal for providing spacing for screws and bolts, metal toggle bolts, plastic, metal clips, namely, pipe holders and hangers used to hang and install pipe; metal plugs; metal tubing; metal fittings, namely, metal hose fittings, metal joinery fittings, metal pipe fittings, metal ring shaped fittings; condenser mounting brackets, namely, metal brackets used to support air-conditioning condensing units upon installation; metal building wire products, namely, t-stat wire, plenum t-stat wire, shielded t-stat wire, romex wire, greenfield, armored cable, SJ wire, THHN, and TFFN; wire ties and duct straps; metal hardware and fasteners, namely, machine screws, hex nuts, tap screws, drill screws, drywall screws, fender washers, wrought washers, SAE washers, split lock washers, spring wing toggle bolts, anchor kits comprised of plastic anchors, screws and carbide masonry drill bits, grounding screws comprised of metal, alligator clips comprised of metal, tubing and flaring tubes.
 007 - condensate pumps; vacuum pumps and accessories therefor, namely, vacuum pump hoses, gauges, manifolds, fittings and tools; motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; condenser mounting brackets specially adapted for air condensers, namely, metal brackets used to support air-conditioning condensing units upon installation; motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; pump-ups specially adapted for use with air condensers composed of plastic materials to support air-conditioning condensing units upon installation; air conditioning pads comprised of plastic, foam or other materials specially adapted for use with air condensers to support air-conditioning condensing units upon and current flow in cables, wall outlets, fuses, circuit breakers, junction boxes, power tools and appliances; batteries; transformers
 010 - Back support belts for workers
 011 - linetap valves and sight glasses for refrigeration systems, saddle valves and hose assembly filters for hooking up ice machines, ball valves for use in gas range and dryer applications, magnetic and mechanical flashlight holders, nylon fittings used in air conditioning installations, condenser and heat exchanger brushes.
 016 - refrigerant identification labels; paint brushes.
 017 - various sizes of PVC clear tubing, heat shrinkable tubing and polyethylene tubing for use as fuel lines and electrical line insulation, adhesive sealant and caulking compounds, rubber sealants for caulking and adhesive purposes, and general purpose silicone rubber sealant, rubber vibration isolation pads for use in preventing minor vibration transmissions in HVAC equipment , generators, pumps and related equipment; Insulating tapes for electrical insulation; insulation cork, foam vinyl-aluminum tapes for thermal insulation and condensation prevention used on pipes and fittings; pump-ups composed of plastic materials to support air-conditioning condensing units upon installation; flexible PVC pipe and fittings therefor; air conditioning pads comprised of plastic, foam or other materials to support airconditioning condensing units upon installation
 020 - Non-metal fasteners, namely, plastic anchors for affixing/hanging pictures to drywall or sheetrock; plastic clips, namely, pipe holders and hangers used to hang and install pipe.
 021 - cleaning, scraping and scrubbing brushes.
 024 - Towels

Goods: 06 - metal fasteners, namely, sheet metal, concrete, masonry and drywall screws, metal anchors, washers of metal for providing spacing for screws and bolts, metal toggle bolts, metal clips, namely, pipe holders and hangers used to hang and install pipe; metal plugs; metal tubing; metal fittings, namely, metal hose fittings, metal joinery fittings, metal pipe fittings, metal ring shaped fittings; condenser mounting brackets, namely, metal brackets used to support air-conditioning condensing units upon installation; metal building wire products, namely, t-stat wire, plenum t-stat wire, shielded t-stat wire, romex wire, greenfield, armored cable, SJ wire, THHN, and TFFN; wire ties and duct straps; metal hardware and fasteners, namely, machine screws, hex nuts, tap screws, drill screws, drywall screws, fender washers, wrought washers, SAE washers, split lock washers, spring wing toggle bolts, anchor kits comprised of plastic anchors, screws and carbide masonry drill bits, grounding screws comprised of metal, alligator clips comprised of metal, tubing and flaring tubes

07 - motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; condenser mounting brackets specially adapted for air condensers, namely, metal brackets used to support air-conditioning condensing units upon installation; motors, namely, heating, ventilation, airconditioning, pump and commercial refrigeration motors; pump-ups specially adapted for use with air condensers composed of plastic materials to support air-conditioning condensing units upon installation;

air conditioning pads comprised of plastic, foam or other materials specially adapted for use with air condensers to support air-conditioning condensing units upon installation; solid state three phase compressors being parts for protectors, solid state start assist devices, namely, torque multipliers to increase starting torque of permanent split capacitor motors, single phase compressor start assist kits comprised of start capacitors, potential relays, mounting brackets, and wires; masonry, brush adapters for use as machine parts, various high speed steel power drill bits, insert bits, fractional and multiple

horsepower v-belts; electric motors not for land vehicles, solid state motor hard starters, vacuum pumps, refrigeration compressors; condensate pumps; vacuum pumps and accessories therefor, namely, vacuum pump hoses, gauges, manifolds, fittings and tools

09 - thermostats, electric relays, temperature alarms, electric controls used in air conditioning, refrigerating, heating, and appliances, halogen gas leak detectors, electric heat resistance coils, leak detectors, transformers, alarm protection units, controls and solid state timers, heat pump defrost timers, push button switches, rotary switches, pressure switches, fan switches and thermocouples used in air conditioning, heating and appliances, solenoid operated water valves for use with domestic and commercial icemakers, clothes washers, and dish washer; resistors; motor starting relays; capacitors; heating and drying controls; electrical structural components-namely, relays, capacitors, contactors, switches, timers, controls for use in refrigerators; adjustable fan and limit switches for forced air heating, air conditioning disconnects, a/c whips, pvc conduit and fittings, passive carbon monoxide detectors, plastic and metal thermostat guards, namely, protective coverings for thermostats, digital and bi-metal

thermometer products, specialty mirrors, pilot burner gas lines and nozzles, solderless terminals, test leads, solder heat shields; analog multimeters, digital multimeters, rms multimeters; analog and digital clamp-on meters for use in the maintenance and testing of all types of electrical equipment; electric relays, namely, switching relays; pressure switches for controlling, and switching refrigeration and airconditioner systems; electrical wire connectors; electrical components in the nature of electric contactors; electric relays and transformers for fan centers, electronic leak detectors for use in detecting refrigerant

gasses, thermocouples, thermostats, fixed fan and limit electric switches, electric heat sequencers and laser levels used in heating, ventilation, air-conditioning and refrigeration applications; voltage sticks used to detect presence of voltage and current flow in cables, wall outlets, fuses, circuit breakers, junction boxes, power tools and appliances; batteries; transformers

11 - linetap valves and sight glasses for refrigeration systems, saddle valves and hose assembly filters for hooking up ice machines, ball valves for use in gas range and dryer applications, magnetic and mechanical flashlight holders, nylon fittings used in air conditioning installations, condenser and heat exchanger brushes

17 - insulating tapes for electrical insulation; insulation cork, foam vinyl-aluminum tapes for thermal insulation and condensation prevention used on pipes and fittings; pump-ups composed of plastic materials to support air-conditioning condensing units upon installation; flexible pvc pipe and fittings therefor; air conditioning pads comprised of plastic, foam or other materials to support air-conditioning condensing units upon installation; various sizes of pvc clear tubing, heat shrinkable tubing and polyethylene tubing for use as fuel lines and electrical line insulation, adhesive sealant and caulking compounds, rubber sealants for caulking and adhesive purposes, and general purpose silicone rubber sealant, rubber vibration isolation pads for use in preventing minor vibration transmissions in hvac equipment, refrigerant compressors, generators, pumps, transformers and related equipment

Goods: 06 - metal fasteners, namely, sheet metal, concrete, masonry and drywall screws, metal anchors, washers of metal for providing spacing for screws and bolts, metal toggle bolts, metal clips, namely, pipe holders and hangers used to hang and install pipe; metal plugs; metal tubing; metal fittings, namely, metal hose fittings, metal joinery fittings, metal pipe fittings, metal ring shaped fittings; condenser mounting brackets, namely, metal brackets used to support air-conditioning condensing units upon installation; metal building wire products, namely, t-stat wire, plenum t-stat wire, shielded t-stat wire, romex wire, greenfield, armored cable, SJ wire, THHN, and TFFN; wire ties and duct straps; metal hardware and fasteners, namely, machine screws, hex nuts, tap screws, drill screws, drywall screws, fender washers, wrought washers, SAE washers, split lock washers, spring wing toggle bolts, anchor kits comprised of plastic anchors, screws and carbide masonry drill bits, grounding screws comprised of metal, alligator clips comprised of metal, tubing and flaring tubes

07 - motors, namely, heating, ventilation, air-conditioning, pump and commercial refrigeration motors; condenser mounting brackets specially adapted for air condensers, namely, metal brackets used to support air-conditioning condensing units upon installation; motors, namely, heating, ventilation, airconditioning, pump and commercial refrigeration motors; pump-ups specially adapted for use with air condensers composed of plastic materials to support air-conditioning condensing units upon installation; air conditioning pads comprised of plastic, foam or other materials specially adapted for use with air condensers to support air-conditioning condensing units upon installation; solid state three phase compressors being parts for protectors, solid state start assist devices, namely, torque multipliers to increase starting torque of permanent split capacitor motors, single phase compressor start assist kits comprised of start capacitors, potential relays, mounting brackets, and wires; masonry, brush adapters for use as machine parts, various high speed steel power drill bits, insert bits, fractional and multiple horsepower v-belts; electric motors not for land vehicles, solid state motor hard starters, vacuum pumps, refrigeration compressors; condensate pumps; vacuum pumps and accessories therefor, namely, vacuum pump hoses, gauges, manifolds, fittings and tools

11 - linetap valves and sight glasses for refrigeration systems, saddle valves and hose assembly filters for hooking up ice machines, ball valves for use in gas range and dryer applications, magnetic and mechanical flashlight holders, nylon fittings used in air conditioning installations, condenser and heat exchanger brushes

17 - insulating tapes for electrical insulation; insulation cork, foam vinyl-aluminum tapes for thermal insulation and condensation prevention used on pipes and fittings; pump-ups composed of plastic materials to support air-conditioning condensing units upon installation; flexible pvc pipe and fittings therefor; air conditioning pads comprised of plastic, foam or other materials to support air-conditioning condensing units upon installation; various sizes of pvc clear tubing, heat shrinkable tubing and polyethylene tubing for use as fuel lines and electrical line insulation, adhesive sealant and caulking compounds, rubber sealants for caulking and adhesive purposes, and general purpose silicone rubber sealant, rubber vibration isolation pads for use in preventing minor vibration transmissions in hvac equipment, refrigerant compressors, generators, pumps, transformers and related equipment
