WHEREAS, McKissock Investment Holdings, LLC, a Delaware limited liability company (the “Borrower”), CG Intermediate Holdings, Inc., a Delaware corporation (“Holdings”) have entered into a Credit Agreement dated as of March 10, 2022 (said Credit Agreement, as it may hereafter be amended, amended and restated, supplemented, replaced, refinanced or otherwise modified from time to time (including any increases of the principal amount outstanding thereunder), being the “Credit Agreement”) with the Lenders, the Swing Line Lender, the L/C Issuers and the Administrative Agent. Terms defined in the Credit Agreement or in the Security Agreement (as defined below) and not otherwise defined herein are used herein as defined in the Credit Agreement or the Security Agreement, as the case may be (and in the event a term is defined differently in the Credit Agreement and the Security Agreement, the applicable definition shall be the one given to such term in the Security Agreement).

WHEREAS, as a requirement of the Credit Agreement and a condition precedent to the continuation or making of the Loans by the Lenders from time to time and the issuance of Letters of Credit by the L/C Issuers from time to time, the entry into Secured Hedge Agreements by the Hedge Banks from time to time and the entry into Secured Cash Management Agreements by the Cash Management Banks from time to time, the Grantor has executed and delivered a joinder to that certain First Lien Security Agreement dated as of March 10, 2022 among the Loan Parties and the Administrative Agent (as amended, amended and restated, supplemented or otherwise modified from time to time, the “Security Agreement”).

WHEREAS, under the terms of the Security Agreement, the Grantor has granted to the Administrative Agent, for the benefit of the Secured Parties, a security interest in, among other property, certain intellectual property of the Grantor, and has agreed thereunder to execute this IP Security Agreement for recording with the United States Patent and Trademark Office, the United States Copyright Office and any other appropriate domestic governmental authorities, as applicable.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Grantor agrees as follows:

SECTION 1. Grant of Security. As security for the payment or performance, as the case may be, in full, of the Secured Obligations, the Grantor hereby grants to the Administrative Agent, for the benefit of the Secured Parties, a security interest in all of the Grantor’s right, title and interest in and to the following, in each case, as to each type of property described below, whether now owned or hereafter acquired by the Grantor, wherever located, and whether now or hereafter existing or arising, to the extent governed by, arising under, pursuant to, or by virtue of, the laws of the United States of America or any state thereof (the “Collateral”):

- (i) all patents, patent applications, utility models, statutory invention registrations and all inventions, including those claimed or disclosed therein and all improvements thereto (“Patents”);
- (ii) all trademarks, trademark applications, service marks, domain names, trade dress, logos, designs, slogans, trade names, business names, corporate names and

other source identifiers, and all general intangibles of like nature whether registered or unregistered, together, in each case, with the goodwill symbolized thereby ("Trademarks");

(iii) all copyrights, including, without limitation, copyrights in Computer Software (as hereinafter defined), internet web sites and the content thereof, whether registered or unregistered ("Copyrights");

(iv) all computer software, programs and databases (including, without limitation, source code, object code and all related applications and data files), firmware and documentation and materials relating thereto, together with any and all maintenance rights, service rights, programming rights, hosting rights, test rights, improvement rights, renewal rights and indemnification rights and any substitutions, replacements, improvements, error corrections, updates and new versions of any of the foregoing ("Computer Software");

(v) all confidential and proprietary information, including, without limitation, know-how, trade secrets, manufacturing and production processes and techniques, inventions, research and development information, databases and data, including, without limitation, technical data, financial, marketing and business data, pricing and cost information, business and marketing plans and customer and supplier lists and information (collectively, "Trade Secrets"), and all other intellectual and intangible property of any type, including, without limitation, industrial designs and mask works;

(vi) all registrations and applications for registration for any of the foregoing in the United States Patent and Trademark Office or the United States Copyright Office, as applicable, including, without limitation, the registrations and applications for registrations in Collateral set forth in Schedule I hereto (as may be supplemented from time to time), together with all reissues, divisions, continuations, continuations-in-part, extensions, renewals and reexaminations thereof;

(vii) all written agreements, permits, consents, orders and franchises relating to the license, development, use or disclosure of any of the foregoing to which the Grantor, now or hereafter, is a party or a beneficiary ("IP Agreements") and all rights of the Grantor thereunder; and

(viii) any and all claims for damages and injunctive relief for past, present and future infringement, dilution, misappropriation, violation, misuse or breach with respect to any of the foregoing, with the right, but not the obligation, to sue for and collect, or otherwise recover, such damages;

provided that notwithstanding anything to the contrary contained in the foregoing clauses (i) through (v), the security interest created hereby shall not extend to, and the term "Collateral" shall not include, any Excluded Assets, including, but not limited to, any intent-to-use trademark applications prior to the filing, and acceptance by the United States Patent and Trademark Office, of a "Statement of Use" or "Amendment to Allege Use" with respect thereto, if any, to the extent that, and solely during the period in which, the grant of a security interest therein prior to such filing and acceptance would impair the validity or enforceability of such intent-to-use trademark applications or the resulting trademark registrations under applicable federal law.

SECTION 2. Security for Obligations The grant of a security interest in the Collateral by the undersigned under this IP Security Agreement, in the case of the Grantor, secures the payment and

performance of all Obligations including Obligations now or hereafter existing under the Secured Documents (as such Secured Documents may be amended, amended and restated, supplemented, replaced, refinanced or otherwise modified from time to time (including any increases of the principal amount outstanding thereunder)), in each case subject to the terms of the Credit Agreement, and in each case, whether direct or indirect, absolute or contingent, and whether for principal, reimbursement obligations, interest, premiums, penalties, indemnifications, fees, contract causes of action, costs, expenses or otherwise, in each case in accordance with the terms of the Loan Documents. Without limiting the generality of the foregoing, but subject to the terms of the Credit Agreement, this IP Security Agreement secures, as to the Grantor, the payment of all amounts that constitute part of the Secured Obligations that would be owed by the Grantor to any Secured Party under the Secured Documents but for the fact that they are unenforceable or not allowable due to the effects of Debtor Relief Laws.

SECTION 3. Recordation The Grantor authorizes and requests that the Register of Copyrights, the Commissioner for Patents and the Commissioner for Trademarks and any other applicable government officer record this IP Security Agreement.

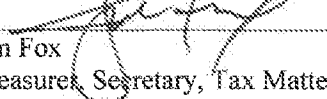

SECTION 4. Execution in Counterparts This IP Security Agreement may be executed in any number of counterparts, each of which when so executed shall be deemed to be an original and all of which taken together shall constitute one and the same agreement. Delivery of an executed counterpart of a signature page to this Agreement by telecopier or in .pdf or similar format by electronic mail shall be effective as delivery of an original executed counterpart of this Agreement.

SECTION 5. Grants, Rights and Remedies This IP Security Agreement has been entered into in conjunction with the provisions of the Security Agreement. The Grantor does hereby acknowledge and confirm that the grant of the security interest hereunder to, and the rights and remedies of, the Administrative Agent with respect to the Collateral are more fully set forth in the Security Agreement, the terms and provisions of which are incorporated herein by reference as if fully set forth herein. In the event of any conflict between the terms of this IP Security Agreement and the terms of the Security Agreement, the terms of the Security Agreement shall govern.

SECTION 6. Miscellaneous Sections 10.05, 10.11, 10.12, 10.13, 10.14, 10.16, 10.17, 10.18, 10.19, 10.21, and 10.26 of the Credit Agreement are incorporated hereby as though set forth herein, *mutatis mutandis*, with, where applicable, references therein to the Borrower being deemed to refer to the Grantor.

IN WITNESS WHEREOF, the Grantor and the Administrative Agent have caused this IP Security Agreement to be duly executed and delivered by its officer thereunto duly authorized as of the date first written above.
