THIS TRADEMARK ASSIGNMENT AGREEMENT (including the exhibits hereto, this "Trademark Assignment"), dated as of October 31, 2022, is made by and between Secura Bio, Inc., a company organized under the laws of the state of Delaware ("Assignor") and pharma& Schweiz GmbH, a company organized under the laws of Switzerland ("Assignee"). Each of the signatories to this Trademark Assignment are collectively referred to as the "Parties" and individually as a "Party".

RECITALS

WHEREAS, Assignor and Assignee entered into that certain Asset Purchase Agreement, dated as August 8, 2022 (the "Purchase Agreement"), pursuant to which Assignor has agreed to sell, assign, convey, transfer and deliver, and Assignee has agreed to purchase any and all Trademarks (as defined in the Purchase Agreement) as set forth in Exhibit A attached hereto. Capitalized terms used but not otherwise defined herein shall have the meanings ascribed to such terms in the Purchase Agreement; and

WHEREAS, Assignor desires to provide a document reflecting the assignment of all of its right, title, and interest in and to the Trademarks to Assignee for purposes of recording such assignment at the various intellectual property registries.

AGREEMENT

NOW, THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties hereto agree as follows:

1. Assignor hereby sells, assigns, conveys, transfers, and delivers to Assignee, and Assignee hereby acquires and accepts from Assignor, all of Assignor's right, title, and interest in and to the Trademarks and all goodwill associated therewith, the same to be held by Assignee for its own use and enjoyment, and for the use and enjoyment of Assignee's successors, assigns, designees, nominees and other legal representatives, as fully and entirely as the same would have been held and enjoyed by such Assignor if this Trademark Assignment and sale had not been made, together with all causes of action (in law or equity), claims, demands and any other rights for, or arising from any past, present or future infringement, of the Trademarks, along with the right to sue for and collect any damages for the use and benefit of Assignee and its successors, assigns, designees, nominees and other legal representatives.

2. The preparation and recordation of assignments to Assignee of the Trademarks with the applicable government authority will be at Assignee's expense, with reasonable cooperation of effort by Assignor. For the avoidance of doubt, Assignor, upon the reasonable request and at the expense of Assignee, will execute all documents and provide assistance as is reasonably and customarily necessary to record the transfer of the Trademarks.

3. Nothing in this Trademark Assignment shall change, amend, limit, extend or alter (nor shall it be deemed or construed as changing, amending, extending or altering) the terms or

conditions of the Purchase Agreement or any liability or obligation of Assignor or Assignee arising under the Purchase Agreement, which shall govern the representations, warranties and obligations of the Parties with respect to the Trademarks. In the event that any of the provisions of this Trademark Assignment are determined to conflict with the terms of the Purchase Agreement, the terms of the Purchase Agreement shall control.

4. This Trademark Assignment shall be binding upon and inure to the benefit of the Parties hereto and their respective successors and assigns.

5. This Trademark Assignment and all disputes or controversies arising out of or relating to this Trademark Assignment shall be governed by, and construed in accordance with, the laws of the State of New York, without regard to the laws of any other jurisdiction that might be applied because of the conflicts of laws principles of the State of New York.
