SECTION 2. Grant of Security Interest. As collateral security for the payment and performance in full of all the Secured Obligations, the Grantor, pursuant to the Security Agreement, did and hereby does pledge and grant to the Agent, for its benefit and for the benefit of the other Credit Parties, a Lien on and security interest in and to all of its right, title and interest in, to or under all of the following assets, whether now existing or hereafter arising or acquired from time to time:

- (a) all Trademarks, including the Trademark registrations and registration applications in the United States Patent and Trademark Office listed on Schedule I hereto, and all goodwill of the business symbolized by the foregoing, but excluding any intent-to-use Trademark application prior to the filing and acceptance of a "Statement of Use", "Declaration of Use", "Amendment to Allege Use" or similar notice and/or filing with respect thereto, only to the extent, if any, that, and solely during the period if any, in which, the grant of such security interest may impair the validity or enforceability, or result in the voiding, of such intent-to-use Trademark application or any registration issuing therefrom under applicable requirements of law;
