This INTELLECTUAL PROPERTY ASSIGNMENT AGREEMENT ("IP Assignment"), dated as of May 1, 2023, is made by and between, on the one hand, Be Green Packaging, LLC, a company incorporated in California, with its registered address at 121 W. De la Guerra Street, Suite B, Santa Barbara, California 93101 ("Assignor"), and, on the other hand, Zhejiang Shukang Technology Co., Ltd., a company established and incorporated under the laws of the People's Republic of China (unified social credit code no. 91330421773107512F) with a registered address at No. 505, Jinxiu Avenue, Yaozhuang Town Industrial Zone, Jiashan County, Zhejiang Province, China ("ZSTC") and Shurcon Manufacturing, Inc., a company incorporated in Illinois, with its principal address at 28W206 W. Commercial Ave. Unit B, Lake Barrington, IL 60010 ("Assignee"). Assignor, ZSTC, and Assignee shall hereinafter be referred to collectively as the "Parties", and each individually as a "Party".

WHEREAS, ZSTC has purchased, from Assignor, shares held by Assignor in an affiliated company, pursuant to an Equity Transfer Agreement dated January 19, 2023, to which ZSTC, and Assignor are parties (the "Purchase Agreement"); and

WHEREAS, under the terms of the Purchase Agreement, Assignor agreed to convey, transfer, deliver, and assign to ZSTC or ZSTC's designee, among other assets, certain intellectual property of Assignor, and to execute and deliver this IP Assignment for recordation with the United States Patent and Trademark Office and any other applicable governmental entities, administrative agencies, and intellectual property offices, in any jurisdiction throughout the world.

WHEREAS, ZSTC desires to appoint Assignee, and Assignee desires to be appointed, as ZSTC's designee for purposes of this IP Assignment in accordance with Section 3.2(b) of the Purchase Agreement.

NOW THEREFORE, in consideration of the mutual promises and covenants and agreements contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties, intending to be legally bound, hereby agree as follows:

1. Appointment of Designee. ZSTC hereby appoints Assignee, and Assignee hereby accepts appointment, as ZSTC's designee for purposes of this IP Assignment. Assignor hereby acknowledges and agrees to such appointment.

2. Assignment of Patents and Trademarks. Assignor hereby irrevocably conveys, transfers, delivers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor's rights, titles, and interests, throughout the world, in and to the following (collectively, the "Assigned IP"):

(a) the patents and patent applications set forth on Schedule 1 hereto and any and all issuances, registrations, divisions, continuations, continuations-in-part, additions, substitutions, revalidations, reissues, reexaminations, certificates of correction, extensions, and renewals thereof or therefor (collectively, the "Patents");

(b) the trademark registrations and applications for registration set forth on Schedule 2 hereto and any and all issuances, registrations, recordations, amendments, extensions, and renewals thereof or therefor (collectively, the "Trademarks"), together with the goodwill associated with the use of, and symbolized by, the Trademarks; and

(c) any and all of Assignor's other rights, titles, interests, privileges, and protections of any kind or nature whatsoever that, in each case, have accrued, are accruing, or may accrue under any of the Patents or Trademarks pursuant to any applicable law, rule, statute, regulation, convention, or treaty in any jurisdictions throughout the world.

3. Assignment of Related Rights, Titles, and Interests. Assignor hereby irrevocably conveys, transfers, delivers, and assigns to Assignee, and Assignee hereby accepts, all of Assignor's rights, titles, and interests, throughout the world: (a) in and to any and all royalties, fees, income, payments, and other proceeds now or hereafter due or payable with respect to any and all of the Assigned IP; and (b) to sue or to bring any action or to assert any claim, whether at law or in equity, against any person(s) or entity(ies) with regard to any of the Assigned IP (including, without limitation, for past, present, or future infringement, misappropriation, violation, or unauthorized use of any of the Assigned IP), to obtain injunctive relief therefor, and to recover or collect royalties, damages, and profits in connection therewith.

4. Recordation and Further Actions. Assignor hereby authorizes the Commissioner for Patents and the Commissioner for Trademarks of the United States Patent and Trademark Office, as well as the officials of any other applicable governmental entities, administrative agencies, and intellectual property offices in any jurisdiction throughout the world, to record and register this IP Assignment upon request by Assignee. All Assigned IP is to be held and enjoyed by Assignee and Assignee's successors and assigns as fully and exclusively as the Assigned IP would have been held and enjoyed by Assignor had this IP Assignment not been made. At the reasonable request of Assignee, and at Assignee's expense, Assignor shall execute and deliver, and cause to be executed and delivered, to Assignee such further assignments or similar instruments, and take such other actions, as may be necessary to effect or affirm this IP Assignment or the assignment to Assignee of any of the Assigned IP.

5. Terms of the Purchase Agreement. The Parties acknowledge and agree that this IP Assignment is entered into pursuant to the Purchase Agreement, to which reference is made for a further statement of the rights and obligations of Assignor and Assignee with respect to the Assigned IP. The representations, warranties, covenants, agreements, and indemnities contained in the Purchase Agreement shall not be superseded hereby but shall remain in full force and effect to the full extent provided therein. In the event of any conflict or inconsistency between the terms of the Purchase Agreement and the terms of this IP Assignment, the terms of the Purchase Agreement shall govern.

6. Entire Agreement. This IP Assignment, together with the Purchase Agreement, constitutes the entire agreement between the Parties with respect to the subject matter hereof and replaces and supersedes all prior agreements, negotiations, and oral or written communications with respect to such subject matter, including, without limitation the Intellectual Property Assignment Agreement by and between Assignor and Assignee dated March 31, 2023, which the Parties acknowledge and agree shall be of no further force or effect.

7. Counterparts. This IP Assignment may be executed in counterparts, each of which shall be deemed an original, but all of which together shall be deemed one and the same agreement. A signed copy of this IP Assignment delivered by facsimile, e-mail, or other means of electronic transmission shall be deemed to have the same legal effect as delivery of an original signed copy of this IP Assignment.

8. Successors and Assigns. This IP Assignment shall be binding upon and shall inure to the benefit of the Parties and their respective successors and assigns.

9. Governing Law. This IP Assignment and any claim, controversy, dispute, or cause of action (whether in contract, tort, or otherwise) based upon, arising out of, or relating to this IP Assignment and the transactions contemplated hereby shall be governed by, and construed in accordance with, the laws of the State of California.
