WHEREAS, pursuant to the terms of the Purchase Agreement, Assignors and the Other Asset Sellers are selling, assigning, transferring, conveying and delivering to Assignee and the Other Buyers all of Assignors’ and the Other Asset Sellers’ respective right, title and interest in and to all of the Transferred Intellectual Property, including without limitation the Intellectual Property Rights set forth on Schedule 1 hereto (the “**Assigned Intellectual Property Rights**”);

WHEREAS, Assignors or an Other Asset Seller (or an Affiliate of an Assignor or an Other Asset Seller) owns the Assigned Intellectual Property Rights, and desires to sell, assign, transfer, convey, deliver and vest all of Assignors’ or an Other Asset Seller’s (or such Affiliates’) right, title and interests in and to the Assigned Intellectual Property Rights for all jurisdictions throughout the world, including all countries and political entities, to and in Assignee or an Other Buyer; and

WHEREAS, Assignee and each Other Buyer desires to accept from Assignors and each Other Asset Seller the Assigned Intellectual Property Rights.

NOW, THEREFORE, for good and valuable consideration provided for in the Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Assignment. Seller, on behalf of itself, the Other Asset Sellers and its and their Affiliates, and each Assignor hereby irrevocably sell, assign, transfer, convey and deliver to Assignee and the Other Buyers, and Assignee and the Other Buyers hereby accept, all of Assignors’ (including such Other Asset Sellers’ and Affiliates’) entire, worldwide (for all jurisdictions throughout the world, including all countries and political entities) right, title and interest in and to the Assigned Intellectual Property Rights, together with all (1) rights under which an employee, inventor, author or other person is obligated to assign ownership of any of the foregoing; (2) registrations of, applications to register, extensions, continuations, divisionals, continuations-in-part, reissues, reexaminations and post-grant reviews and renewals of, any of the foregoing with or by any Governmental Authority in any jurisdiction throughout the world, (3) all goodwill of the business connected with the use of and symbolized by any of the foregoing, (4) rights of action and defense arising from the foregoing, including all claims for damages by reason of present, past and future infringement, dilution, misappropriation, violation, misuse or breach of contract in respect of the foregoing, and present, past and future rights to sue and

collect damages or seek injunctive relief for any such infringement, dilution, misappropriation, violation, misuse or breach; and (5) income, royalties and any other payments now and hereafter due and/or payable in respect of the foregoing, for Assignee's and the Other Buyers' own use and enjoyment, and for the use and enjoyment of Assignee's and the Other Buyers' successors, assigns or other legal representatives, as fully and entirely as the same would have been held and enjoyed by Assignors or the applicable Other Asset Seller or applicable Affiliate if this Agreement had not been made.

2. Complete Agreement. Notwithstanding any other provisions of this Agreement to the contrary but subject to the terms of this Section 2, nothing contained in this Agreement shall in any way supersede, modify, replace, amend, change, rescind, waive, exceed, expand, enlarge or in any way affect the provisions, including warranties, covenants, agreements, conditions, representations or, in general, any of the rights and remedies, or any of the obligations and indemnifications of Assignors, the Other Asset Sellers or Assignee set forth in the Purchase Agreement. This Agreement is intended only to effect the assignment of the Assigned Intellectual Property Rights pursuant to the Purchase Agreement and shall be governed entirely in accordance with the terms and conditions of the Purchase Agreement. Nothing contained in this Agreement is intended to provide any right or remedy to any person or entity, other than as provided in the Purchase Agreement. In the event of any conflict among the documents, the documents will control and prevail in the following order of precedence: the Purchase Agreement, this Agreement, and any confirmatory assignment hereof.

3. Further Assurances. Assignors agree that from time to time, at the reasonable request of Assignee and at Assignee's expense, Assignors shall, and shall cause each Other Asset Seller, their Affiliates, and their respective officers, directors and employees to, execute and deliver, such other documents and take such other actions as Assignee or an Other Buyer may reasonably request to effectuate Assignors' and each Other Asset Seller's and Affiliates' assignment, transfer, and conveyance of the Assigned Intellectual Property Rights of this Agreement and the transactions contemplated by this Agreement.

The Parties agree that any and all claims and disputes under this Agreement shall be resolved in accordance with and subject to the terms and conditions set forth in Section 11.9 of the Purchase Agreement.

5. Assignment. This Agreement shall not be assigned by either Party without the prior written consent of the other Party, and any attempted assignment, without such consent, shall be null and void. Notwithstanding the foregoing, without the consent of Assignors, Assignee may assign its rights or obligations hereunder to any Other Buyer if it would not result in any material additional costs, expenses or Taxes of Assignors or its Subsidiaries (including the right to purchase any of the Assigned Intellectual Property Rights and the obligation to assume all or part of the Assumed Liabilities, as the case may be, in which event all references to Assignee will be deemed

to refer to such Other Buyer, as appropriate).
